Context

NHS England

There is a clear case for investing in services to support breastfeeding as part of a local child health strategy. This is particularly important for mothers from low income groups, as it is known that they are less likely to breastfeed. Breastfeeding protects the health of babies and mothers, and reduces the risk of illness (NICE, 2008).

Breast milk is the best form of nutrition for infants, and exclusive breastfeeding is recommended for the first six months (26 weeks) of an infant's life. Thereafter, breastfeeding should continue for as long as the mother and baby wish, while gradually introducing the baby to a more varied diet.

In recent years, research has shown that infants who are not breastfed are more likely to have infections in the short-term such as gastroenteritis, respiratory and ear infections, and particularly infections requiring hospitalisation. In the longer term, evidence suggests that infants who are not breastfed are more likely to become obese in later childhood, which means they are more likely to develop type 2 diabetes, and tend to have slightly higher levels of blood pressure and blood cholesterol in adulthood. For mothers, breastfeeding is associated with a reduction in the risk of breast and ovarian cancers. A recent study also suggests a positive association between breastfeeding and parenting capability, particularly among single and low-income mothers.

Results from the UK Infant Feeding Survey 2010 showed that 83% of women in England breastfed their babies after birth, 78% after two days and 57% at six weeks. The differences between the two sets of results is likely to be due to the fact that the Infant Feeding Survey is based on self-reported information from women who agreed to take part in the survey; and the fact that breastfeeding status is not captured for all infants in the statistics covered in this report

Summary of results

The Q1 2013/14 onward collection of 12 week risk assessment, breastfeeding initiation and 6-8 week breastfeeding data was collected directly from maternity service providers and child health information system providers.

139, 138, 136 and 135 maternity providers were identified for 12 week and breastfeeding initiation submissions during Q1, Q2, Q3 and Q4 2014/15, respectively*. During Q1 2014/15 providers who had not submitted during 2013/14 were given a final opportunity to do so as a result we have received data returns covering 133 of the 138 providers Q1 - Q3, an uptake rate of 96%, for Q4 2013/14 136 providers' submitted data, an uptake rate of 99%.

As of the 01/06/2014 some of the Maternity services transferred from RN3 Great Western Hospitals NHS Foundation Trust to RD1 Royal United Hospitals Bath NHS Foundation Trust as a result 139 provider trusts submitted data for Q1 2014/15. The level of maternity provider submissions at Q1 2014/15 was 100%.

As of the 01/07/2014 RVL Barnet & Chase Farm Hospitals NHS Trust became a part of RAL Royal Free NHS Foundation Trust as a result 138 provider trusts submitted data for Q2 2014/15. The level of maternity provider submissions at Q2 2014/15 was 100%.

As of the 01/10/2014 RV8 North West London Hospitals NHS Trust and RC3 Ealing Hospitals NHS Trust merged to become R1K London North West Healthcare NHS Trust. Also, as of the 01/10/2014 RD7 Heatherwood & Wexham Park Hospitals NHS Foundation Trust merged into RDU Frimley Health NHS Foundation Trust. RGT Cambridge University Hospitals NHS Foundation Trust was unable to submit data due to recently transitioning to a new clinical system. As a result 136 maternity providers should have submitted data for Q3 2014/15, with 135 maternity providers submitting data. The level of maternity provider submissions at Q3 2014/15 was 99%.

As 01/11/2014 RJD Mid Staffordshire NHS Foundation Trust was dissolved into RJE University Hospital of North Midlands NHS Trust. RGT Cambridge University Hospitals NHS Foundation Trust was unable to submit data due to recently transitioning to a new clinical system. RA9 South Devon Healthcare NHS Foundation Trust did not submit their data. As a result 135 maternity providers should have submitted data for Q4 2014/15, with 133 maternity providers submitting data. The level of maternity provider submissions at Q4 2014/15 was 99%.

As data submissions are now above the validation limits we have sufficient data coverage to publish an England figure for the Q1 - Q4 2013/14 & Q1 – Q4 2014/15.

111, 110, 110 and 109 Child Health Information System (CHIS) Providers were identified for 6-8 week breastfeeding prevalence submissions for Q1, Q2, Q3 and Q4 2014/15, respectively**. We received data returns covering 107 of these providers for Q1 2014/15 and 105 of these providers for Q2 to Q4 2014/15, with an uptake rate of 96% for Q1 and Q4 2014/15 and 95% for Q2 and Q3 2014/15.

As data submissions are now above the validation limits*** we have sufficient data coverage to publish an England figure for the Q1 - Q4 2013/14 & Q1 – Q4 2014/15.

Initiation of breastfeeding

In England the annual OT rate of breastfeeding initiation for 2014/15 was 74.3%. The annual percentage was 74.0% in 2013/14, 73.9% in 2012/13 and 2011/12 (74.0%) and was slightly higher than 2010/11 (73.7%), 2009/10 (72.7%) and 2008/09 (71.7%). The Q4 2014/15 breastfeeding initiation rate was 74.3% (Table 1).

In England amongst the 174 CCGs that passed validation in Q4, breastfeeding initiation ranged from 47.3% in NHS Knowsley CCG to 93.3% in NHS Lambeth CCG and NHS Wandsworth CCG (Table 6).

In England amongst the 121 Trusts passed validation****, breastfeeding initiation ranged from 47.6% in South Tyneside NHS Foundation Trust to 94.3% in St George's University Hospitals NHS Foundation Trust (Table 4).

Prevalence of breastfeeding at 6-8 weeks

The 6-8 week breastfeeding prevalence figures are based on the number of infants recorded by CCGs as totally or partially breastfeeding, as a percentage of all infants due a 6-8 week check.

When making comparisons over time, it is best to limit this to those quarters with high and consistent levels of coverage. There is evidence that the significant improvements in data coverage that were achieved in the early quarters of data collection affected the comparability of the prevalence estimates over time. This is because improvements in coverage have resulted in the inclusion in the statistics of a disproportionately higher number of women who are not breastfeeding.

In England the breastfeeding prevalence rate at 6-8 weeks for 2014/15 was 43.8%, in 2013/14 prevalence at 6-8 weeks was 45.8%, in 2012/13 prevalence at 6-8 weeks was 47.2% and in 2011/12 47.2% of infants due a 6-8 week check were being breastfed at 6-8 weeks (Table 2).

In Q4 2014/15 106 CCGs failed to pass validation checks*****. 17 failed as the number of eligible children submitted failed to meet the -10% + 20% number of expected children.

An additional 88 CCGs failed due to more than 5% of their eligible children having no breastfeeding status recorded.

Two CCGs failed due to the breastfeeding prevalence rate at 6-8 weeks being higher than that of the breastfeeding initiation rate (03N NHS Sheffield CCG and 05X Telford and Wrekin CCG).

Amongst the 104 CCGs that passed validation*****, breastfeeding prevalence as a percentage of infants due a 6-8 week check ranged from 21.0% NHS St Helens CCG to 81.7% NHS City and Hackney CCG (Table 12).

** Owing to some trusts merging or transferring their services or being dissolved, the number of maternity providers has changed from quarter to quarter.*

*** Owing to some CHIS Providers merging or being dissolved, the number of CHIS Providers has changed from quarter to quarter*

**** The coverage target for 2013/14 and 2014/15 have been reduced to 85% for England level figures only. Feedback was sought from the user perspective on lowering the threshold for the England figure. The change in quality standard for the validation check does not apply at the lower levels of geography.*

***** Note that the maternities validation flag for RN3 Great Western Hospitals NHS Foundation Trust, RD1 Royal United Hospitals Bath NHS Foundation Trust, RAL Royal Free London NHS Foundation Trust, R1K London North West Healthcare NHS Trust and RDU Frimley Health NHS Foundation Trust were removed owing to the merging or transferring of maternity services therefore there was no valid historic comparison data to validate against.*

****** Note that one CCG did not have data submitted against and was excluded from the passed validation counts (08V NHS Tower Hamlets CCG).*

Please see Data Quality notes for trust specific explanations.

Notes:

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data do not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of mothers' whose breastfeeding status was recorded falls short of data quality standard of 95%.

* See Data Quality note for explanation

Notes:

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data do not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of mothers' whose breastfeeding status was recorded falls short of data quality standard of 95%.

* See Data Quality note for explanation

Notes:

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data do not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of mothers' whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

Notes:

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data do not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of mothers' whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

Table 9 : Prevalence of breastfeeding at 6 to 8 weeks, 2014/15 Q1, by CCG and Area Team

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

* See Data Quality note for explanation

Table 10 : Prevalence of breastfeeding at 6 to 8 weeks, 2014/15 Q2, by CCG and Area Team

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

* See Data Quality note for explanation

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

* See Data Quality note for explanation

Table 12 : Prevalence of breastfeeding at 6 to 8 weeks, 2014/15 Q4, by CCG and Area Team

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

* See Data Quality note for explanation

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. Area Team and England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

* See Data Quality note for explanation

Notes:

1. Red cells mean that no. of infants due for a 6–8 week checks does not meet validation criteria (see definitions sheet for details).
2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).
3. Shaded cells mean that percentage of infants whose breastfeeding status was recorded falls short of data quality standard of 95%.
4. England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

Notes:

Blank cells mean that data does not meet validation criteria (see definitions sheet for details).

Drop off rates are calculated as follows (Percentage of mothers initiating breastfeeding MINUS Percentage of infants being breastfed at 6-8 weeks) DIVIDED BY Percentage of mothers initiating breastfeeding

Drop of rates are calculated by using the breastfeeding initiation percentage from the previous quarter compared to the 6-8 week breastfeeding percentage from the current quarter.

Data Quality

Non Data Submissions

Maternity Providers:

Q1 2014/15: All Trusts submitted data

Q2 2014/15: All Trusts submitted data

Q3 2014/15 Non submissions from:

RGT CAMBRIDGE UNIVERSITY HOSPITALS NHS FOUNDATION TRUST recently transitioned to a new clinical system.

Q4 2014/15 Non submissions from:

RGT CAMBRIDGE UNIVERSITY HOSPITALS NHS FOUNDATION TRUST recently transitioned to a new clinical system

RA9 SOUTH DEVON HEALTHCARE NHS FOUNDATION TRUST did not submit their data

6-8 week Breastfeeding Providers:

Q1 2014/15 non submissions from: RFS CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST, 0AV NHS NORTH YORKSHIRE AND HUMBER COMMISSIONING SUPPORT UNIT and RBN ST HELENS AND KNOWSLEY HOSPITALS NHS TRUST as CHIS do not hold 6-8 week breastfeeding prevalence data

609 SUFFOLK recently transitioned to a new clinical system

Q2 2014/15 non submissions from: RFS CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST, 0AV NHS NORTH YORKSHIRE AND HUMBER COMMISSIONING SUPPORT UNIT and RBN ST HELENS AND KNOWSLEY HOSPITALS NHS TRUST as CHIS do not hold 6-8 week breastfeeding prevalence data

609 SUFFOLK recently transitioned to a new clinical system

711 TOWER HAMLETS do not have access to the birth data so cannot submit as there is no denominator

Q3 2014/15 non submissions from: RFS CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST, 0AV NHS NORTH YORKSHIRE AND HUMBER COMMISSIONING SUPPORT UNIT and RBN ST HELENS AND KNOWSLEY HOSPITALS NHS TRUST as CHIS do not hold 6-8 week breastfeeding prevalence data

724 HARINGEY unable to submit due to insufficient data; some Haringey GP Practices have not submitted their data returns. HARINGEY is working with their CCG to ensure in the following quarters the CHIS will take on responsibility for the next submission.

711 TOWER HAMLETS do not have access to the birth data so cannot submit as there is no denominator

Q4 2014/15 non submissions from: RFS CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST and RBN ST HELENS AND KNOWSLEY HOSPITALS NHS TRUST as CHIS do not hold 6-8 week breastfeeding prevalence data

724 HARINGEY unable to submit due to insufficient data; some Haringey GP Practices have not submitted their data returns. Furthermore, the CHIS in Haringey (RKE THE WHITTINGTON HOSPITAL NHS TRUST) took on responsibility for submitting this data from Q4 2014/15 onwards. Processes are being established to ascertain where the data is collected from. Plan is to commence the submission of this data from Q1 2015/16 onwards.

711 TOWER HAMLETS do not have access to the birth data so cannot submit as there is no denominator

Data Submission Issues

Q1 2014/15 Maternity Providers:

RYJ IMPERIAL COLLEGE HEALTHCARE NHS TRUST implemented a new clinical system.

RWE UNIVERSITY HOSPITALS OF LEICESTER NHS TRUST contribution for GP practice C82102 was excluded from the publication file due to erroneous data.

RXK SANDWELL AND WEST BIRMINGHAM HOSPITALS NHS TRUST submitted data for the number of maternities, 12 week risk assessment and assessment at any time during pregnancy indicators but no data was provided for the indicators known to have initiated breastfeeding and known not to have initiated breastfeeding.

RTR SOUTH TEES HOSPITALS NHS FOUNDATION TRUST reported having no electronic way of recording feeding at 48 hours within the community setting.

RWP WORCESTERSHIRE ACUTE HOSPITALS NHS TRUST has a number of babies whom have not got a breastfeeding indicator filled in and are working on this issue.

Q1 & Q2 2014/15 Maternity Providers:

RJZ KING'S COLLEGE HOSPITAL NHS FOUNDATION TRUST reported that where the breastfeeding status is not known it is these mothers whose babies went to Special Care Baby Unit before being fed on their labour ward and, as a result, are not able to record the feeding status for these mothers / babies following delivery. The next point at which the feeding status would be recorded is at discharge and it cannot be known for sure whether or not that would have been within 48 hours. The Provider changed to a new clinical system for capturing this data in October 2013.

Q1, Q2 & Q3 2014/15 Maternity Providers:

RJD MID STAFFORDSHIRE NHS FOUNDATION TRUST does not have data at GP level, therefore all data was submitted under V81999 under CCG code 05V.

RJ2 LEWISHAM AND GREENWICH NHS TRUST only submitting information for Q3 onwards, as the LEWISHAM AND GREENWICH NHS TRUST was only formed in October 2013. Also in July, there was the implementation of Cerner and as such there have been data quality issues with capturing the information correctly. The required field for capturing the breastfeeding initiation status is currently not mandated and as with any new system there have been data quality issues. There is a plan for Cerner to have this made a mandated field from January 2015, but for Q3 the service will be monitoring the use of the system to try and resolve the issue as much as they can.

Q3 2014/15 Maternity Providers:

R1F ISLE OF WIGHT NHS TRUST data was submitted under V81999 and under CCG code 10L.

Q2, Q3 & Q4 2014/15 Maternity Providers:

As of the 01/07/2014 RVL BARNET AND FARM CHASE HOSPITALS merged with RAL ROYAL FREE LONDON NHS FOUNDATION TRUST to form a larger trust, hence the data validation flag for 2014/15 Q2, Q3 and Q4 maternities was removed.

Q3 & Q4 2014/15 Maternity Providers:

RWP WORCESTERSHIRE ACUTE HOSPITALS NHS TRUST implemented a new clinical system. Furthermore, RWP are analysing why the breastfeeding rate has reduced since the introduction of the K2 MIS in December 2014.

As of the 01/10/2014 RV8 NORTH WEST LONDON HOSPITALS NHS TRUST and RC3 EALING HOSPITALS NHS TRUST merged to become R1K LONDON NORTH WEST HEALTHCARE NHS TRUST, hence the data validation flag for 2014/15 Q3 and Q4 maternities was removed.

As of the 01/10/2014 RD7 HEATHERWOOD & WEXHAM PARK HOSPITALS NHS FOUNDATION TRUST merged into RDU FRIMLEY HEALTH NHS FOUNDATION TRUST, hence the data validation flag for 2014/15 Q3 and Q4 maternities was removed.

As 01/11/2014 RJD MID STAFFORDSHIRE NHS FOUNDATION TRUST was dissolved into RJE UNIVERSITY HOSPITALS OF NORTH MIDLANDS NHS TRUST.

Q1, Q2, Q3 & Q4 2014/15 Maternity Providers:

RNQ KETTERING GENERAL HOSPITAL NHS FOUNDATION TRUST only has paper based systems for 12 week risk assessment so they do not have the GP level of data. This will be submitted under V81999 and under CCG code 04G (as they do not have this level of data either). This is their main commissioners but only covers 50/60% of their activity.

RN3 GREAT WESTERN HOSPITALS NHS FOUNDATION TRUST as of 01/06/2014 some of the Maternity services were transferred to RD1 ROYAL UNITED HOSPITALS BATH NHS FOUNDATION TRUST, hence the data validation flag for 2014/15 Q1, Q2, Q3, Q4 and outturn maternities was removed to account for this.

RD1 ROYAL UNITED HOSPITALS BATH NHS FOUNDATION TRUST as of the 01/06/2014 some of the Maternity services were transferred from RN3 GREAT WESTERN HOSPITALS NHS FOUNDATION TRUST to RD1 ROYAL UNITED HOSPITALS BATH NHS FOUNDATION TRUST. Data for this Trust has not been subject to validation as validation is compared against historic data and there will not be any data for this yet. Therefore, the validation flag for 2014/15 Q1, Q2, Q3, Q4 and outturn maternities was removed.

Q4 2014/15 Maternity Providers:

R1F ISLE OF WIGHT NHS TRUST breastfeeding indicators data was submitted under V81999 and under CCG code 10L.

Q1 2014/15 6-8 week Breastfeeding Providers:

NTV CSH SURREY report that not all Health Visitors are creating “development checks tables” when a child is checked at 6-8 weeks which means that some of the data is missing; work is ongoing to resolve this issue.

RY9 HOUNSLOW AND RICHMOND COMMUNITY HEALTHCARE NHS TRUST highlighted an issue with RiO code (v3.1) whereby if a child’s CCG code cannot be identified the scripts defaults to the organisation code. Advised to submit these under the GP Code of V81999 allocating the CCG code based on the patient’s postcode. There were around 30 patients’ postcodes that could not be identified, owing to two lead commissioning CCGs, these patients were excluded as the Provider was not sure where to allocate them.

R1C SOLENT NHS TRUST report data quality issues linked to their data warehouse and the current patient system being used. Once the data is validated and cleansed by the service it should be possible to re-run the extract to show the cleansed data, however it is not pulling through the data in all cases; work is ongoing to resolve this issue.

03N NHS SHEFFIELD CCG and 05L NHS SANDWELL AND WEST BIRMINGHAM CCG data for Q1 2014/15 reported a higher breastfeeding percentage rate at 6-8 weeks than that of the breastfeeding initiation percentage rate and as such failed validation.

Q2 2014/15 6-8 week Breastfeeding Providers:

RDY DORSET HEALTHCARE UNIVERSITY NHS FOUNDATION TRUST introduced a new electronic system for data collection which has presented data quality issues as clinicians adjust to a different method of recording information. The Provider has been proactively working to resolve these issues and have implemented systems and processes to improve data capture across the health visitor teams. It is anticipated that the reported coverage will increase in the Q3 2014/15 return.

RYY KENT COMMUNITY HEALTH NHS FOUNDATION TRUST reported that they failed on the coverage validation check as there was insufficient data from the GP Practices.

RPG OXLEAS NHS FOUNDATION TRUST highlighted an issue with the RiO script which uses the GP practice of the client record. If there is no GP record it does not used the assumed GP record and a large number of our clients do not have a client GP record in the early days and weeks. Therefore, all of these unknown GP records are distorting their results.

Q1, Q2 & Q3 2014/15 6-8 week Breastfeeding Providers:

RJ7 ST GEORGE'S UNIVERSITY HOSPITALS NHS FOUNDATION TRUST reported that the high percentage of babies with not known breastfeeding status is due to late submission of the 6-8 week checks data by the GPs and onto EMIS; work ongoing to resolve this issue.

Q2 & Q3 2014/15 6-8 week Breastfeeding Providers:

RV3 CENTRAL AND NORTH WEST LONDON NHS FOUNDATION TRUST reported a number of issues receiving 6-8 week check data from Camden’s GPs which has been raised with commissioners locally but has impacted on coverage rates.

03N NHS SHEFFIELD CCG data for Q2 and Q3 2014/15 reported a higher breastfeeding percentage rate at 6-8 weeks than that of the breastfeeding initiation percentage rate and as such failed validation.

Q2 & Q4 2014/15 6-8 week Breastfeeding Providers:

RW3 CENTRAL MANCHESTER UNIVERSITY HOSPITALS NHS FOUNDATION TRUST reported that they do not receive a lot of information on the breastfeeding at the 6-8 week review from the GP Practice.

Q3 2014/15 6-8 week Breastfeeding Providers:

NTV CSH SURREY reported that not all Health Visitors are creating “development checks tables” when a child is checked at 6-8 weeks which means that some of the data is missing; work is ongoing to resolve this issue.

RA9 SOUTH DEVON HEALTHCARE NHS FOUNDATION TRUST submitted data for Chillington Health Centre. Agreement that this data will be submitted by RK9 PLYMOUTH HOSPITALS NHS TRUST for Q4 onwards.

R1K LONDON NORTH WEST HEALTHCARE NHS TRUST reported that there are issues with obtaining the data from the GP Practices; work is ongoing to resolve this.

Q3 & Q4 2014/15 6-8 week Breastfeeding Providers:

As of the 01/10/2014 RV8 NORTH WEST LONDON HOSPITALS NHS TRUST and RC3 EALING HOSPITALS NHS TRUST merged to become R1K LONDON NORTH WEST HEALTHCARE NHS TRUST

NNV YOUR HEALTHCARE identified the following issues with low coverage; health visiting team are responsible for the resident population as opposed to responsible CCG from quarter 3. It has been noted that possibility of not having the breastfeeding data for out of area GPs is high. Also, the 6 – 8 weeks breastfeeding reviews are done at GP Practices and we have had a low coverage from some of our GP practices.

Q1, Q2, Q3 & Q4 2014/15 6-8 week Breastfeeding Providers:

RXC EAST SUSSEX HEALTHCARE NHS TRUST introduced a new electronic system for data collection for their Child Health and Health Visiting Units a number of months apart, which has presented data capture, flow and quality issues as they adjust to a different methodologies of recording information on the new system. The Provider has been proactively working to resolve these issues from inception and the data quality and capture of checks has improved from Quarter to Quarter. It is anticipated that the reported coverage will increase in the Q3 and Q4 2014/15.

RT2 PENNINE CARE NHS FOUNDATION TRUST a national incident has been raised regarding GP's not informing Child Health Departments in a timely fashion of children that they register / de-register. This affects all four areas that Pennine Care submits for; Oldham, HMR, Trafford and Bury). The Child Health Department in Heywood, Middleton and Rochdale CCG have reported that the 2 pieces of paperwork are not always being completed by GPs (the 6-8 week contact form (Health Visitor) and the 6-8 week Health Review GP). Trafford; are currently some issues around the movement of the relevant paperwork from Health Visitor teams into the Child Health Department. This issue is being actively managed and progressed.

03N NHS SHEFFIELD CCG data for Q1, Q2, Q3 and Q4 2014/15 reported a higher breastfeeding percentage rate at 6-8 weeks than that of the breastfeeding initiation percentage rate and as such failed validation on the outturn (OT) file.

RTR SOUTH TEES HOSPITAL NHS FOUNDATION TRUST submitted data under V81999 under CCG code 00M.

Q4 2014/15 6-8 week Breastfeeding Providers:

0AV NHS NORTH YORKSHIRE AND HUMBER COMMISSIONING SUPPORT UNIT and 0CF NHS WEST AND SOUTH YORKSHIRE AND BASSETLAW COMMISSIONING SUPPORT UNIT merged into 0DA NHS YORKSHIRE AND HUMBER COMMISSIONING SUPPORT UNIT.

RDR SUSSEX COMMUNITY NHS TRUST; the feeding information that they are submitting is only for West Sussex GPs. They do not input information from Brighton GPs currently.

03N NHS SHEFFIELD CCG and 05X TELFORD AND WREKIN CCG data for Q4 2014/15 reported a higher breastfeeding percentage rate at 6-8 weeks than that of the breastfeeding initiation percentage rate and as such failed validation.

Organisation name changes:

RJE UNIVERSITY HOSPITAL OF NORTH STAFFORDSHIRE NHS TRUST to UNIVERSITY HOSPITALS OF NORTH MIDLANDS NHS TRUST

RDU FRIMLEY PARK HOSPITAL NHS FOUNDATION TRUST to FRIMLEY HEALTH NHS FOUNDATION TRUST

RD1 ROYAL UNITED HOSPITAL BATH NHS TRUST to ROYAL UNITED HOSPITALS BATH NHS FOUNDATION TRUST

RJ7 ST GEORGE'S HEALTHCARE NHS TRUST to ST GEORGE'S UNIVERSITY HOSPITALS NHS FOUNDATION TRUST

RY2 BRIDGEWATER COMMUNITY HEALTHCARE NHS TRUST to BRIDGEWATER COMMUNITY HEALTHCARE NHS FOUNDATION TRUST

RY8 DERBYSHIRE COMMUNITY HEALTH SERVICES NHS TRUST to DERBYSHIRE COMMUNITY HEALTH SERVICES NHS FOUNDATION TRUST

RYY KENT COMMUNITY HEALTH NHS TRUST to KENT COMMUNITY HEALTH NHS FOUNDATION TRUST

RHA NOTTINGHAMSHIRE HEALTHCARE NHS TRUST to NOTTINGHAMSHIRE HEALTHCARE NHS FOUNDATION TRUST

RTG DERBY HOSPITALS NHS FOUNDATION TRUST to DERBY TEACHING HOSPITALS NHS FOUNDATION TRUST

Data Failing Validation

Maternity Providers:

Q4 2014/15 data quality:

- 131 Trusts that submitted data passed the -10% / +20% validation standards when compared against HES maternities figure
- 123 out of the 133 Trusts that submitted data met the required 95% recording coverage standard, this is where there are less than 5% of the eligible maternities for whom a breastfeeding status is not known
- 121 out of the 133 Trusts that submitted data passed both validation checks
- Data aggregated to the CCG level; 188 out of the 211 CCGs passed the -10% / +20% validation standards when compared against recorded ONS births figures
- Data aggregated to the CCG level; 196 out of the 211 CCGs met the required 95% recording coverage standard, this is where there are less than 5% of the eligible maternities for whom a breastfeeding status is not known
- Data aggregated to the CCG level; 174 out of the 211 CCGs passed both validation checks

6-8 week Breastfeeding Providers:

Q4 2014/15 data quality:

- Data aggregated to the CCG level; 181 out of the 211 CCGs met the -10% / +20% validation standards when compared against recorded ONS births figures
- Data aggregated to the CCG level; 122 out of the 211 CCGs met the required 95% recording coverage standard, this is where less than 5% of eligible children's 6-8 week breastfeeding status is not being recorded on the CHIS
- Data aggregated to the CCG level; 2 out of the 211 CCGs reported a higher breastfeeding initiation percentage rate than that of the breastfeeding percentage rate at 6-8 weeks
- Data aggregated to the CCG level; 104 of the 211 CCGs passed all validation checks*

** Note that one CCG (08V NHS Tower Hamlets CCG) did not have data submitted against and was excluded from the passed validation counts*

The coverage target for 2013/14 and 2014/15 have been reduced to 85% for England level figures only. Feedback was sought from the user perspective on lowering the threshold for the England figure. The change in quality standard for the validation check does not apply at the lower levels of geography.

Data collection and definition

NHS England

Breastfeeding initiation

Since April 2003, data on the local breastfeeding initiation has been requested on a quarterly basis, historically from all PCTs. This information provides more timely, frequent and local information on breastfeeding initiation than the Infant Feeding Survey.

Since April 2013 this data is now being collected directly from providers via the data collection tool that is part of Unify2, a web based system set up to collect performance and other central returns directly from the NHS. The figures are obtained from maternity providers from midwives in acute trusts and information recorded at deliveries.

For breastfeeding initiation, each provider is required to submit actual figures for the quarter and year end out turn figures for the following three items:

- the number of maternities.
- the number of mothers initiating breastfeeding.
- the number of mothers not initiating breastfeeding.

Data validation

The following validation rules are applied to the data

All numbers must be submitted as integers.

Number initiating Breastfeeding	+	Number not initiating Breastfeeding	<=	Number of Maternities
Number of Maternities	<	Maximum Office of National Statistics (ONS) reported number of maternities for last year PLUS 20%		
Number of Maternities	>	Minimum Office of National Statistics (ONS) reported number of maternities for last year MINUS 10%		
Number initiating Breastfeeding	+	Number not initiating Breastfeeding	>	95% of Number of Maternities

All validation checks must be passed by Providers in order for the data to meet departmental statistical requirements. Where information has not passed these validation checks, this is identified in the tables in this report by conditional formatting.

Data collection and definition

NHS England

Breastfeeding at 6-8 weeks

Since April 2008, data on the local prevalence of breastfeeding at 6-8 weeks has been requested on a quarterly basis, historically from all PCTs. This is in addition to data collected on initiation of breastfeeding. This information provides more timely, frequent and local information on breastfeeding prevalence after the mother and baby have been discharged from hospital than the Infant Feeding Survey.

Since April 2013 this data is now being collected directly from child health information system providers via the data collection tool that is part of Unify2, a web based system set up to collect performance and other central returns directly from the NHS. The figures are typically derived by child health records from information recorded at infants' 6-8 week check.

For breastfeeding prevalence, each child health information system is required to submit actual figures for the quarter and the year end out turn figures for the following four items:

- The number of infants due a 6–8 week check in each quarter.
- The number of infants being "totally" breastfed (defined as infants who are exclusively receiving breast milk at 6-8 weeks of age - that is, they are NOT receiving formula milk, any other liquids or food).
- The number of infants being "partially" breastfed (defined as infants who are currently receiving breast milk at 6-8 weeks of age and who are also receiving formula milk or any other liquids or food).
- The number of infants being "not at all" breastfed (defined as infants who are not currently receiving any breast milk at 6-8 weeks of age).

Data validation

The following validation rules are applied to the data:

All four numbers must be submitted as integers.

Number of infants due a 6–8 week check	>=	Number of infants "totally" breastfed + Number of infants "partially" breastfed + Number of infants "not at all" breastfed
Number of infants due a 6–8 week check	<	Maximum National Statistics (ONS) reported number of live births for the last year PLUS 20.0%
Number of infants due a 6–8 week check	>	Minimum National Statistics (ONS) reported number of live births for the last year MINUS 10.0%
Percentage of infants being breastfed at 6-8 week	<	Percentage of mothers initiating breastfeeding

All validation checks must be passed in order for the data to meet departmental statistical requirements. Where information has not passed these validation checks, this is identified in the tables in this report by conditional formatting.
