

Measure Number	Theme	Measure	Description & Provenance	Name of KPI	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Data presentation	Target	Interpretation Guidance	Construction	Data Quality Concerns	Error Measurement	Notes_1
SCI_05	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from injury to referral (newly injured patients)	The Mean time from injury to referral (newly injured patients) (days)	For patients in denominator, total days between date of injury and date of referral to SOC	Number of newly injured patients with SCI referred to SCC	Rolling Year	Quarterly	SoE Database or SCIC records				Lower is better	Median of days wait time from injury to referral at SCC			
SCI_06	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from referral to admission into SCI Centre Trust under the care of SCI Consultant (newly injured patients)	The Mean time from referral to admission into SCI Centre Trust under the care of SCI Consultant (newly injured patients) (days)	For patients in denominator, total days between date of referral and date of admission to SOC	Number of newly injured patients with SCI referred to SCC	Rolling Year	Quarterly	SoE Database or SCIC records				Lower is better	Median of days wait time from referral to admission at SCC			
SCI_07.1	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from admission to commencement of rehabilitation package (ie the duration of the 'acute' phase) for the level of injury C1-C4.	Mean LOS in acute phase for level of injury C1-C4 (days)	For patients in denominator, total days in acute phase (from date of admission at SOC Trust to date commenced rehabilitation) as per currencies handbook	Number of newly injured patients, for the level of injury C1-C4, who have commenced rehab this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_07.2	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from admission to commencement of rehabilitation package (ie the duration of the 'acute' phase) for the level of injury C5-C8.	Mean LOS in acute phase for level of injury C5-C8 (days)	For patients in denominator, total days in acute phase (from date of admission at SOC Trust to date commenced rehabilitation) as per currencies handbook	Number of newly injured patients, for the level of injury C5-C8, who have commenced rehab this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_07.3	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from admission to commencement of rehabilitation package (ie the duration of the 'acute' phase) for the level of injury T-T12.	Mean LOS in acute phase for level of injury T1-T12 (days)	For patients in denominator, total days in acute phase (from date of admission at SOC Trust to date commenced rehabilitation) as per currencies handbook	Number of newly injured patients, for the level of injury T-T12, who have commenced rehab this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_07.4	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from admission to commencement of rehabilitation package (ie the duration of the 'acute' phase) for the level of injury L1 and below.	Mean LOS in acute phase for level of injury L1 and below (days)	For patients in denominator, total days in acute phase (from date of admission at SOC Trust to date commenced rehabilitation) as per currencies handbook	Number of newly injured patients, for the level of injury L1 and below, who have commenced rehab this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_07.5	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from admission to commencement of rehabilitation package (ie the duration of the 'acute' phase) for the level of injury: central cord syndromes.	Mean LOS in acute phase for level: central cord syndromes (days)	For patients in denominator, total days in acute phase (from date of admission at SOC Trust to date commenced rehabilitation) as per currencies handbook	Number of newly injured patients, for the level of injury: central cord syndromes, who have commenced rehab this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_08.1	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from commencement of rehab to fit for discharge date for the level of injury C1-C4	Mean LOS in rehab for level of injury C1-C4 (days)	For patients in denominator, total days between commencement of rehab and date fit for discharge as per currencies handbook	Number of newly injured patients, for the level of injury C1-C4, who have reached fit for discharge date this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_08.2	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from commencement of rehab to fit for discharge date for the level of injury C5-C8.	Mean LOS in rehab for level of injury C5-C8 (days)	For patients in denominator, total days between commencement of rehab and date fit for discharge as per currencies handbook	Number of newly injured patients, for the level of injury C5-C8, who have reached fit for discharge date this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_08.3	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from commencement of rehab to fit for discharge date for the level of injury T-T12.	Mean LOS in rehab for level of injury T1-T12 (days)	For patients in denominator, total days between commencement of rehab and date fit for discharge as per currencies handbook	Number of newly injured patients, for the level of injury T-T12, who have reached fit for discharge date this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_08.4	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from commencement of rehab to fit for discharge date for the level of injury L1 and below.	Mean LOS in rehab for level of injury L1 and below (days)	For patients in denominator, total days between commencement of rehab and date fit for discharge as per currencies handbook	Number of newly injured patients, for the level of injury L1 and below, who have reached fit for discharge date this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_08.5	Domain 3: Helping people to recover from episodes of ill health or following injury		The Mean time from commencement of rehab to fit for discharge date for the level of injury: central cord syndromes.	Mean LOS in rehab for level: central cord syndromes (days)	For patients in denominator, total days between commencement of rehab and date fit for discharge as per currencies handbook	Number of newly injured patients, for the level of injury: central cord syndromes, who have reached fit for discharge date this quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better	Using stratification calculation			
SCI_14	Domain 4: Ensuring that people have a positive experience of care		Acute outreach needs met in a timely manner	% of newly injured patients with traumatic and non-traumatic spinal cord injury will receive a face to face outreach visit from the SCIC acute outreach team within 5 days of the referral of the patient to the SCIC, to support the patient and the treating team.	Patients in the denominator who have received a face-to-face visit from the SCIC acute outreach team within 5 days of the referral of the patient to the SCIC (Note: Each patient will be counted once only, even more than one visit has occurred)	Number of newly injured patients referred to the SCIC in the quarter (Excluding: Patients outside the scope of Specialised Spinal Cord Injury Services as defined in the Service Specification, Patients who were admitted to any SCIC within 7 days of the referral of the patient to the SCIC. Patients for whom another SCIC has agreed in writing to take the lead on outreach, Patients who have died, Patients whose current location is outside the UK)	Quarterly	Quarterly	SoE database or patients notes				Higher is better	Numerator / Denominator x 100			
SCI_16.1	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Number of bed days occupied by newly injured ventilated patients with SCI and no clinical need to be in the SCIC	% of SCI bed days occupied by non-clinical delayed discharge patients - newly injured ventilated	Newly injured ventilated patients who have reached their fit for discharge date but were not discharged on that date, total days this quarter between the first day of the quarter OR the fit for discharge date (whichever is later) AND the actual discharge date OR the last day of the quarter, (whichever is earlier)	Sum of Length of stay for all patients with SCI admitted to SCIC Trust under SCIC care in the quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better				
SCI_16.2	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Number of bed days occupied by newly injured non-ventilated patients with SCI and no clinical need to be in the SCIC	% of SCI bed days occupied by non-clinical delayed discharge patients - newly injured non-ventilated	Newly injured non-ventilated patients who have reached their fit for discharge date but were not discharged on that date, total days this quarter between the first day of the quarter OR the fit for discharge date (whichever is later) AND the actual discharge date OR the last day of the quarter, (whichever is earlier)	Sum of Length of stay for all patients with SCI admitted to SCIC Trust under SCIC care in the quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better				
SCI_16.3	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Number of bed days occupied by ventilated further admission patients with SCI and no clinical need to be in the SCIC	% of SCI bed days occupied by non-clinical delayed discharge patients - further admissions ventilated	Further admissions ventilated patients who have reached their fit for discharge date but were not discharged on that date, total days this quarter between the first day of the quarter OR the fit for discharge date (whichever is later) AND the actual discharge date OR the last day of the quarter, (whichever is earlier)	Sum of Length of stay for all patients with SCI admitted to SCIC Trust under SCIC care in the quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better				
SCI_16.4	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Number of bed days occupied by non-ventilated further admission patients with SCI and no clinical need to be in the SCIC	% of SCI bed days occupied by non-clinical delayed discharge patients - further admissions non-ventilated	Further admissions non-ventilated patients who have reached their fit for discharge date but were not discharged on that date, total days this quarter between the first day of the quarter OR the fit for discharge date (whichever is later) AND the actual discharge date OR the last day of the quarter, (whichever is earlier)	Sum of Length of stay for all patients with SCI admitted to SCIC Trust under SCIC care in the quarter	Rolling Year	Quarterly	Being collected for Currencies reporting				Lower is better				
SCI_17	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Pressure ulcers (incidence in newly injured patients on arrival at SCI Centre)	% of newly injured SCI patients admitted to SCIC who had Grade 3 or 4 pressure sore on admission	For patients in the denominator, number who were admitted with a (Grade 3 or 4) pressure sore	Number of newly injured patients with SCI admitted to SCIC Trust in time period	Rolling Year	Quarterly	Patients notes				Lower is better	A count			
SCI_18	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Pressure ulcers (incidence in newly injured patients during SCI admission)	% of newly injured SCI patients admitted to SCIC who acquired a Grade 3 or 4 pressure sore after admission to the SCIC	For patients in the denominator, number of new pressure sores (Grade 3 and 4) occurring after admission to the SCIC	Number of newly injured patients with SCI admitted to SCIC Trust in time period	Rolling Year	Quarterly	Patients notes				Lower is better	A count			Need a definition of newly injured.
SCI_19	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Pressure ulcers (incidence in further admissions on arrival at SCI Centre)	% of further admission SCI patients admitted to SCIC who had Grade 3 or 4 pressure sore on admission	For patients in the denominator, number of further admissions this quarter who were admitted with a Grade 3 or 4 pressure sore	Number of further admissions of patients with SCI to SCIC Trust in time period (each individual counts once)	Rolling Year	Quarterly	Patients notes				Lower is better	A count			
SCI_20	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm		Pressure ulcers (incidence in further admissions during SCI admission)	% of further admission SCI patients admitted to SCIC who acquired a Grade 3 or 4 pressure sore after admission to the SCIC	For patients in the denominator, number of new pressure sores (Grade 3 and 4) occurring after admission to the SCIC	Number of further admissions of patients with SCI to SCIC Trust in time period (each individual counts once)	Rolling Year	Quarterly	Patients notes				Lower is better	A count			
SCI_25			Outcomes - Submission to commissioners of an up-to-date ASIA and SCIM III assessment, as described in the Dashboard specification approved by the NSCISB on 25th November 2011	% of patients for whom an up-to-date ASIA and SCIM III assessment, as described in the Dashboard specification approved by the NSCISB on 25th November 2011, has been made available to commissioners by 15th day of the month following the end of the quarter	For patients in the denominator, number for whom an up-to-date ASIA and SCIM III assessment, as described in the Dashboard specification approved by the NSCISB on 25th November 2011, has been made available to commissioners by 15th day of the month following the end of the quarter	Total of newly injured SCI patients admitted to the SCIC who were injured or admitted since 1st April 2012 and less than 29 months ago	Quarterly	Quarterly	Interim Excel reporting form, or National SCI Database.				Higher is better
