CLP00		Percentage of infants/children diagnosed with CLP who have records on CRANE	Proportion of infants/children diagnosed with CLP who have records on CRANE	Data Completeness	Number of infants/children diagnosed with CLP who have records on the CRANE system	Total number of infants/children diagnosed with CLP	Calendar Year 2012 (01/01/12 - 31/12/12)	Refreshed every quarter	CRANE to Methods Centre validates	Centre to Methods		100%	Higher is better	Numerator/Denominator * 100			
CLP01	Domain 2: Enhancing quality of life for people with long term conditions	Percentage of parent(s) contacted by a Cleft team Clinical Nurse Specialist (CNS) within 24 hrs of referral with an antenatal diagnosis of CLP	Proportion of parent(s) contacted by a Cleft team Clinical Nurse Specialist within 24 hrs of referral with an antenatal diagnosis of CLP	Specialist Support Antenatal	Number of parent(s) contacted by a Cleft team Clinical Nurse Specialist within 24 hrs of notification of an antenatal diagnosis	Total number of parent(s) with an antenatal diagnoses of CLP referred to Cleft team	Calendar Year 2012 (01/01/12 - 31/12/12)	Refreshed every quarter	Centre to Methods	Centre to Methods		100%	Higher is better	Numerator/Denominator * 100		Date of referral in 2012	Contact = telephone contact (not message left)
CLP02	Domain 2: Enhancing quality of life for people with long term conditions	Percentage of parents who receive a visit from a Cleft team CNS within 24 hrs of first referral (provided the child has not reached the age of one year)	Percentage of parents of infants with CLP that receive a visit from a Cleft team CNS within 24 hrs of referral (provided the child has not reached the age of one year).	Specialist Support after birth	Number of notifications of a cleft births to cleft team with a CNS visit within 24 hrs	Total number of infants with CLP referred to Cleft team before the age of one year	Date of birth Calendar Year 2012 (01/01/12 - 31/12/12)	Refreshed every quarter	Centre to Methods	Centre to Methods		100%	Higher is better	Numerator/Denominator * 100			
CLP03	Domain 3: Helping people to recover from episodes of ill health or following injury	Percentages of babies with an unrepaired cleft lip receiving first lip repair by 6 months of age		Timeliness of Initial Lip Surgery	Number of babies who had first lip repair within the specified period aged 6 months or under	Total number of babies who had first lip repair within the specified period	Date of procedure Calendar year 2012 (01/01/12 - 31/12/12)	Refreshed every quarter	Defined by CRANE Methods to calculate from HES Centre validates	Defined by CRANE Methods to calculate from HES Centre validates		100%	Higher is better	Numerator/Denominator * 100		Scott Deacon to provide details of OPCS codes to Methods	
CLP04	Domain 3: Helping people to recover from episodes of ill health or following injury	Percentages of babies with an unrepaired cleft palate receiving first palate repair by 13 months of age		Timeliness of Initial Palate Surgery	Number of babies who had first palate repair within the specified period aged 13 months or under	Total number of babies who had soft palate repair within the specified period	Date of procedure Calendar year 2012 (01/01/12 - 31/12/12)	Refreshed every quarter	Defined by CRANE Methods to calculate from HES Centre validates	Defined by CRANE Methods to calculate from HES Centre validates		100%	Higher is better	Numerator/Denominator * 100		Scott Deacon to provide details of OPCS codes to Methods	
CLP05	Domain 2: Enhancing quality of life for people with long term conditions	Percentage of all 5 year old children (from 5 yrs of age and under 6 yrs of age) with a cleft palate (including CLP and CPO) who have had their hearing assessed during that period		Hearing	Number of children with cleft palate (including CLP and CPO) who had a hearing assessment between the age of 5 years of age and before 6 years of age	Total number of children with cleft palate (including CLP and CPO) at 5 years of age who are recorded on CRANE (see CLP00)	2012 <u>(Children born in 2006 (01/01/06 - 31/12/06 who have assessment between 5th and 6th birthdays))</u>	Annual	Centre submit to Methods via submission template	Centre submit to Methods via submission template		100%	Higher is better	Numerator/Denominator * 100			
CLP06	Domain 2: Enhancing quality of life for people with long term conditions	Average treatment index scores of 5 year old children (from 5 yrs of age and under 6 yrs of age)		Dental health at 5 years of age	Number of 5 year olds with treatment index scores recorded by an appropriately calibrated specialist paediatric dentist	Total number of children with CL and/or Palate at 5 years of age who are recorded on CRANE (see CLP00)	Calendar Year 2012 <u>(Children born in 2006.)</u>	Annual	Centre to CRANE to Methods Centre validates	Centre to CRANE to Methods Centre validates		100%	Higher is better	Numerator/Denominator * 100			
CLP07	Domain 2: Enhancing quality of life for people with long term conditions	Percentage of children with cleft palate involvement aged from 5 yrs of age and under 6 yrs of age who have speech within normal range	Percentage of 5 year olds in the audited cohort who have a green profile on CAPSA sections 3a (hypernasality), 4 (nasal airflow) and 7 (cleft speech characteristics)	Speech at 5 years of age	Number of children in the audited cohort who have a green profile on CAPSA sections 3a, 4 and 7	Total number of audited 5 year olds with cleft palate involvement	Calendar Year 2012 <u>(Children born in 2006.)</u>	Annual	Centre to CRANE to Methods Centre validates	Centre to CRANE to Methods Centre validates		100%	Higher is better	Numerator/Denominator * 100		need to note exclusions; children with syndromes, transfers, those unable to comply with audit process	submitted by Lorraine Britton for 2013/14 only
