## Notes

\* The publication dates for these statistics have changed following the recommendations from Sir Bruce Keogh's review of waiting time standards. Statistics on A&E attendances and amergency admissions will be published monthly rather than weekly. Statistics on waiting times for suspected and diagnosed cancer patients will be published monthly rather than quarterly. All seven sets of statistics will be published on the same day each month.

The list comprises statistical publications which are currently planned. Other publications may be announced in due course.
