12 week risk assessment context

All women should be encouraged to access maternity services for a full health and social care assessment of needs, risks and choices by 12 completed weeks of their pregnancy to give them the full benefit of personalised maternity care and improve outcomes and experience for mother and baby.

Reducing the percentage of women who access maternity services later in pregnancy through targeted outreach work for vulnerable and socially excluded groups will help to reduce the health inequalities these groups face whilst also guaranteeing choice to all pregnant women.

12 week risk assessment summary of results

The Q1 2013/14 onward collection of 12 week risk assessment, breastfeeding Initiation and 6-8 week breastfeeding data was collected directly from maternity service providers and child health information system providers.

138 maternity providers were identified for 12 week & breastfeeding initiation submissions. During Q1 14/15 providers who had not submitted during 13/14 were given a final opportunity to do so as a result we have received data returns covering 133 of these providers Q1-3, an uptake rate of 96%, for Q4 136 providers submitted data, an uptake rate of 99%.

As of the 01/06/2014 some of the Maternity services transferred from RN3 Great Western Hospitals NHS Foundation Trust to RD1 Royal United Bath NHS Trust as a result 139 provider trusts submitted data from Q1 14/15. The level of maternity provider submissions at Q1 14/15 was 100%

As data submissions are now above the validation limits we have sufficient data coverage to publish an England figure for the Q2-4 2013/14 & Q1 14/15.

12 week risk assessment

In England the Q3 2013/14 percentage seen before 12 week and 6 days was 91.5%, the Q3 2012/13 percentage seen before 12 weeks and 6 days could not be published due to data failing validation.

In 2011/12 Q3 the percentage seen before 12 week and 6 days was (93.2%), compared with 2010/11 Q3 (93.2%), 2009/10 Q3 (87.4%) (Table 1).

In England amongst the 169 CCGs that passed validation in Q3 2013/14, the percentage seen before 12 week and 6 days ranged from 0.4% in NHS Corby CCG to 165.4%* in North Tyneside CCG and the percentage of maternities that were seen after 12 weeks and 6 days ranged from 0.3% in Nottingham City & Nottingham North & East CCGs to 282.3%* in South Devon and Torbay CCG (Table 4).

In England amongst the 123 NHS Trusts that passed validation in Q3 2013/14, the percentage seen before 12 week and 6 days ranged from 11.9% North Middlesex University Hospital NHS Trust to 510.0%* in Weston Area Health NHS Trust and the percentage of maternities that were seen after 12 weeks and 6 days ranged from 0.0% in Nottingham University Hospitals NHS Trust to 306.0%* in South Devon Healthcare NHS Foundation Trust (Table 2).

** For 12 week risk assessment some recorded figures are greater than 100% of maternities. The reason for greater than 100% recording can be traced to two possible causes.*

Firstly that the indicator definition compares bookings for mothers having assessments at a trust to the number of maternities at the point of delivery at that trust 2 quarters later. However the maternity at the point of delivery figure may be lower than the number of mothers having assessments due to mothers suffering miscarriage, women choosing to undergo a termination or women transferring to another hospital.

Secondly that women who live in urban areas where there are multiple hospitals they could chose to delivery at often chose to undergo assessments at more than one hospital to enable them to compare maternity service provision. As a result women may

Note

1. England actuals and percentages are calculated including the data from those PCTs or CCG's who have failed the validation criteria.

2. Number of women seen after 12 weeks and 6 days of pregnancy is defined as number of women seen any time during pregnancy

MINUS Number of women seen by 12 weeks and 6 days of pregnancy

3. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).

2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).

3. England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

4. Number of women seen after 12 weeks and 6 days of pregnancy is defined as number of women seen any time during pregnancy MINUS Number of women seen by 12 weeks and 6 days of pre-

Table 3 : 12 week risk assessments - CCG based - 2013/14

1. Red cells mean that no. of maternities does not meet validation criteria (see definitions sheet for details).

2. Blank cells mean that data does not meet validation criteria (see definitions sheet for details).

3. England actuals and percentages are calculated including the data from those CCGs who have failed the validation criteria.

4. Number of women seen after 12 weeks and 6 days of pregnancy is defined as number of women seen any time during pregnancy MINUS Number of women seen by 12 weeks and 6 days of pre-

Data Quality

Q1-3 2013/14 Non submissions from:

R1H BARTS HEALTH NHS TRUST, RXK SANDWELL AND WEST BIRMINGHAM HOSPITALS NHS TRUST, RAJ SOUTHERN UNIVERSITY HOSPITAL NHS FOUNDATION TRUST, RTP SURREY AND SUSSEX HEALTHCARE NHS TRUST, RDZ THE ROYAL BOURNEMOUTH AND CHRISTCHURCH HOSPITALS NHS FOUNDATION TRUST

Q4 2013/14 Non submissions from:

RXK SANDWELL AND WEST BIRMINGHAM HOSPITALS NHS TRUST, RTP SURREY AND SUSSEX HEALTHCARE NHS TRUST

Q1 2014/15 All trusts submitted data

Data submission issues

RGT CAMBRIDGE UNIVERSITY HOSPITALS NHS FOUNDATION TRUST do not have data at GP level for booking

RFS CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST do not have data at GP level for booking

RTE Gloucestershire Hospitals NHS Foundation Trust, RFR The Rotherham NHS Foundation Trust, RK9 Plymouth Hospitals NHS Trust data for 13/14 Q1-3 total assessment figures at any time in pregnancy was lower than the number of assessments by 12 weeks 6 days of pregnancy and as such failed validation.

RN3 GREAT WESTERN HOSPITALS NHS FOUNDATION TRUST as of 01/06/2014 some of the Maternity services was transferred to RD1 Royal United Bath NHS Trust - hence the data validation flag for 2014/15 Q1 maternities was removed to account for this.

RNQ KETTERING GENERAL HOSPITAL NHS FOUNDATION TRUST only have paper based systems for 12 week risk assessment so they do not have the GP level of data. This will be submitted under V81999 and under CCG code 04G (as they do not have this level of data either). This is their main commissioners but only covers 50/60% of their activity.

RJ2 LEWISHAM AND GREENWICH NHS TRUST only be submitting information for Q3, as the Lewisham & Greenwich Trust was only formed in October 2013.

RD1 ROYAL UNITED HOSPITAL BATH NHS TRUST as of the 01/06/2014 some of the Maternity services transferred from RN3 Great Western Hospitals NHS Foundation Trust to Rd1 Royal United Bath NHS Trust. Data for this Trust has not been subject to validation as validation is compared against historic data and there will not be any data for this yet. Therefore, validation flag for 2014/15 Q1 data to be removed.

High number of assessments:

RN7 DARTFORD AND GRAVESEND NHS TRUST, RJ7 ST GEORGE'S HEALTHCARE NHS TRUST, RJE UNIVERSITY HOSPITAL OF NORTH STAFFORDSHIRE NHS TRUST high assessment figures were flagged as part of Q1-3 data assessment, these trusts resubmitted Q1-3 data at Q4 and assessment figures remain much higher than the number of maternities.

RJD Mid Staffordshire NHS Foundation Trust trust informed of high assessment figures compared to maternities at Q1-3, trust investigating data system.

RA3 Weston Area Health NHS Trust operate a shared care service where local women receive antenatal care from WAHT midwives but most deliver at units in Bristol. This means that the number of women assessed by WAHT will always exceed the number delivering. Due to the relatively small numbers of Maternities/ deliveries, 1 patient can represent 1.5% to 2% of WAHT quarterly total.

RTF Northumbria Healthcare NHS Trust, high proportion of the women they assess and provide community antenatal (and postnatal) care for do not deliver with the trust, but deliver with Newcastle Hospitals (RTD).

Data failing validation:

Q3 2013/14 169 out of 211 CCGs passed validation checks

Q3 2013/14 123 NHS Trusts out of the 139 trusts that submitted passed validation checks

Data collection and definition

12 week risk assessment

Since April 2013 this data is now being collected directly from providers via the data collection tool that is part of Unify2, a web based system set up to collect performance and other central returns directly from the NHS. The figures are obtained from maternity providers from midwives in acute trusts and information recorded at deliveries.

For 12 week assessment, each provider is required to submit actual figures for the quarter and year end turn figures for the following three items:

The following items of information are to be submitted:

1. Number of women in the relevant GP population who have seen a midwife or a maternity healthcare professional, for health and social care assessment of needs, risks and choices by 12 weeks and 6 days of pregnancy
2. Number of women in the relevant GP population who have seen a midwife or a maternity healthcare professional, for health and social care assessment of needs, risks and choices at any time during pregnancy

Data validation

The following validation rules are applied to the data
All numbers must be submitted as integers.

Number of pregnant women due a maternity check	\geq	Number of pregnant women who have seen a midwife or a maternity healthcare professional, for health and social care assessment of needs, risks and choices by 12 weeks and 6 days of pregnancy
Number of pregnant women due a maternity check	<	Maximum National Statistics (ONS) reported number of live births for the last year PLUS 20.0%
Number of pregnant women due a maternity check	>	Minimum National Statistics (ONS) reported number of live births for the last year MINUS 10.0%

All validation checks must be passed by Providers in order for the data to meet departmental statistical requirements. Where information has not passed these validation checks, this is identified in the tables in this report by conditional formatting.

Contacts

For media enquiries only please contact the Department of Health press office on 020 7210 5221.
