

## Specialised Endocrinology Quality Dashboard 2016/17

Indicator Reference Number	Domain	Theme	Measure	Indicator Name /Description	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Interpretation Guidance	Notes_1
END01a	Domain 3: Helping people to recover from episodes of ill health or following injury	Process	Referral from MDT decision to treatment	Time to pit surgery (Urgent - Cushing's, pituitary visual compression & pituitary bleeding).	Length of time from MDT decision to refer to surgery	Number of patients having urgent pit surgery (Cushing's, pituitary visual compression & pituitary bleeding)	Annual	Quarterly	Local Trust (Specialist Neuro Centre only)	Local Trust (Specialist Neuro Centre only)			In Specialist Neuro Centre only. MDT will make the decision on urgent & routine and the timeframe starts from this point.
END01b	Domain 3: Helping people to recover from episodes of ill health or following injury	Process	Referral from MDT decision to treatment	Time to pit surgery (Routine)	Length of time from MDT decision to refer, to surgery	Number of patients having routine pit surgery	Annual	Quarterly	Local Trust (Specialist Neuro Centre only)	Local Trust (Specialist Neuro Centre only)			In Specialist Neuro Centre only. MDT will make the decision on urgent & routine and the timeframe starts from this point.
END02	Domain 3: Helping people to recover from episodes of ill health or following injury	Process	Laboratory turnaround times	Laboratory turnaround times – Specialised Analyses (aldosterone, plasma metanephrines, urinary metanephrines) - within 14 days)	Number of tests completed within 14 days (aldosterone, plasma metanephrines, urinary metanephrines)	Number of tests (aldosterone, plasma metanephrines, urinary metanephrines)	Quarterly	Quarterly	Local Trust	Local Trust			
END02b	Domain 4: Ensuring that people have a positive experience of care	Process	Laboratory turnaround times	Laboratory turnaround times - Routine Analytes (urgent turnaround times) within <3 hours if necessary (prolactin and cortisol)	Number of tests completed within < 3 hours if necessary (prolactin and cortisol)	Number of tests	Quarterly	Quarterly	Local Trust	Local Trust			
END03	Domain 4: Ensuring that people have a positive experience of care	Process	Referral times	Time from referral to first appointment in 'specialised endocrinology'	Length of time from referral	Number of first appointments	Annual	Quarterly	Local Trust HES	Local Trust HES			
END05a	Domain 4: Ensuring that people have a positive experience of care	Process	Referral times	Time to initial pituitary imaging	Length of time from referral to procedure	Number of initial pituitary imaging procedures	Annual	Quarterly	Local trust HES	Local Trust HES			
END08a	Domain 4: Ensuring that people have a positive experience of care	Process	Length of Stay	Mean length of stay (LOS) in days following Adrenal surgery	Length of stay (in days) following procedure (excluding ITU days)	Number of patients having Adrenal surgery	Annual	Quarterly	Local Trust	Local Trust			
END08b	Domain 4: Ensuring that people have a positive experience of care	Process	Length of Stay	Mean length of Stay (LOS) in days following Pituitary surgery for non-functioning tumours	Length of stay (in days) following procedure (excluding ITU days)	Number of patients having Pituitary surgery for non-functioning tumours	Annual	Quarterly	Local Trust	Local Trust			

## Specialised Endocrinology Quality Dashboard 2016/17

Indicator Reference Number	Domain	Theme	Measure	Indicator Name /Description	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Interpretation Guidance	Notes_1
END08c	Domain 4: Ensuring that people have a positive experience of care	Process	Length of Stay	Mean length of Stay (LOS) in days following Pituitary surgery for Cushing's	Length of stay (in days) following procedure (excluding ITU days)	Number of patients having Pituitary surgery for Cushing's	Annual	Quarterly	Local Trust	Local Trust			
END12a	Domain 5: Treating and caring for people in a safe environment; and protecting them from avoidable harm	Process	Discharge	Turnaround times of Outpatient letters to GPs following outpatients	Time (in working days) to send Outpatient letter to GPs following outpatients	Number of patients discharged within reporting period	Quarterly	Quarterly	Local Trust	Local Trust			
END12b	Domain 5: Treating and caring for people in a safe environment; and protecting them from avoidable harm	Process	Discharge	Turnaround times of Discharge Summaries to GPs following discharge	Time (in working days) to send discharge summaries to GPs following discharge	Number of patients discharged within reporting period	Quarterly	Quarterly	Local Trust	Local Trust			
END15	Domain 4: Ensuring that people have a positive experience of care	Outcome	Patient survey	Patient survey carried out in the last two years (Yes/No)	Y/N	N/A	Quarterly	Quarterly	Local Trust	Local Trust			
END15a	Domain 4: Ensuring that people have a positive experience of care	Outcome	Patient survey	Proportion of patients returning a patient survey in last two years	Number of patients returning a patient survey in last 2 years	Number of patients in case load	Quarterly	Quarterly	Local Trust	Local Trust			
END17a	Domain 4: Ensuring that people have a positive experience of care	Process	New patients discussed at MDT	Proportion of new patients (Pituitary) discussed at MDT	Number of new patients discussed at MDT	Number of new patients (Pituitary)	Quarterly	Quarterly	Local Trust	Local Trust			
END17b	Domain 4: Ensuring that people have a positive experience of care	Process	Recurrent patients discussed at MDT	Proportion of recurrent patients (Pituitary) discussed at MDT	Number of recurrent patients discussed at MDT	Number of recurrent patients (Pituitary)	Quarterly	Quarterly	Local Trust	Local Trust			

## Specialised Endocrinology Quality Dashboard 2016/17

Indicator Reference Number	Domain	Theme	Measure	Indicator Name /Description	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Interpretation Guidance	Notes_1
END18	Domain 4: Ensuring that people have a positive experience of care	Process	Transition	Proportion of paediatric patients leaving the paediatric service and that are seen by the adult endocrinology team prior to transfer to adult services.	From the denominator, the number of paediatric patients leaving the paediatric service and seen by the adult endocrinology team prior to transfer to adult services.	Number of paediatric patients leaving the paediatric service and transferred to the adult service (within the reporting period)	Quarterly	Quarterly	Local Trust	Local Trust			
END18a	Domain 4: Ensuring that people have a positive experience of care	Process	Transition	Proportion of paediatric patients leaving the paediatric service who attended their first appointment in adult services no later than 6 months after last appointment in the paediatric service.	Number of paediatric patients leaving the paediatric service who attended their first appointment in adult services no later than 6 months after last appointment in the paediatric service.	Number of paediatric patients leaving the paediatric service and transferred to the adult service (within the reporting period)	Quarterly	Quarterly	Local Trust	Local Trust			Will be reported quarterly with reporting period lagged, to enable data collection e.g. Q1 16/17 to report on data for 1st July to 30th Sept 2015, etc.
END19	Domain 2: Enhancing quality of life for people with long-term conditions	Process	Availability of genetic counselling for genetic endocrine disease	Time to genetic counselling for patients identified as potential cases of genetic endocrine disease.	Time (in days) from referral to genetic counselling for patients identified as potential cases of genetic endocrine disease	Number of patients (within reporting period) identified as potential cases of genetic endocrine disease	Quarterly	Quarterly	Local Trust	Local Trust			
END20a	Domain 4: Ensuring that people have a positive experience of care	Process	Availability of dynamic endocrine function tests (insulin tolerance test to for pituitary reserve)	Time to dynamic endocrine function tests (insulin tolerance test for pituitary reserve)	Time (in days) to dynamic endocrine function test - Insulin tolerance test for pituitary reserve	Number of patients referred for dynamic endocrine function test - insulin tolerance test for pituitary reserve	Quarterly	Quarterly	Local Trust	Local Trust			
END20b	Domain 4: Ensuring that people have a positive experience of care	Process	Availability of dynamic endocrine function tests (glucose tolerance test (acromegaly)	Time in days to dynamic endocrine function tests (glucose tolerance test (acromegaly)	Time (in days) to dynamic endocrine function tests - glucose tolerance test (acromegaly)	Number of patients referred for dynamic endocrine function test - glucose tolerance test (acromegaly)	Quarterly	Quarterly	Local Trust	Local Trust			

Data collection has been approved by the Review of Central Returns - ROCR  
ROCR/OR/2230/001MAND
