

## COVID-19 Restoration of Community Health Services – key changes from prioritisation guidance published on 1/4/2020

To help easily identification of the most significant changes in the Restoration of Community Health Services guidance from the Prioritisation guidance published on 1/4/2020 the table below records additions, removals and changes to categorisation for services (e.g. move from stop to partial stop). It does not include changes such as updated or more comprehensive advice, so should be read in conjunction with the full restoration guidance document.
