

Home delivery of medicines and appliances during the COVID-19 outbreak: service specifications and guidance

19 February 2021 Version 6
Publishing Approval Reference: C1148

Essential Service: Community Pharmacy Home Delivery Service During the COVID-19 outbreak – Guidance

Background

1. A Community Pharmacy Home Delivery Service During the COVID-19 outbreak was originally commissioned throughout England from community pharmacies (and a similar service from dispensing doctors) on 10 April 2020 to ensure delivery of medicines to eligible patients who should not present in the pharmacy. This service may continue to be commissioned as necessary nationally or for patient's living in local outbreak areas. The details of patient eligibility, and whether the service is commissioned for all patients nationally, or only in local outbreak areas, will be included in the relevant announcement made by [NHS England and NHS Improvement](#).
2. The service is made up of two elements; an Essential Service and an Advanced Service. This section of the guidance covers the Essential Service only; there is a separate service specification for the Advanced Service on page 3.
3. Commissioning of the service will be announced by NHS England and NHS Improvement in agreement with the Secretary of State – thereafter in this document referred to as the announcement - and is to be utilised as a consequence of COVID-19 reaching pandemic proportions in line with the National Health Service (Amendments Relating to the Provision of Primary Care Services During a Pandemic etc.) Regulations 2020.
4. The Essential Service does not apply to Distance Selling Pharmacies, as their Terms of Service already requires them to provide deliveries to their patients.
5. The service is restricted
 - to those patients included in the announcement and
 - will apply **only in areas specified in the announcement.**

Pharmacy contractors should ensure that they are only delivering to eligible patients in the areas specified in the announcement in place at that time when they are acting in accordance with this service specification. Appropriate checks

should be made to ensure that the patient remains eligible for this service, which may include checks on the Summary Care Record.

6. Patients who request a delivery and meet the eligible patient criteria, should be encouraged in the first instance to arrange for their medicines to be collected from the pharmacy and then delivered by family, friends or a carer.
7. Where a patient does not identify themselves, but the nature of the prescription leads the pharmacy team to consider that the patient may fulfil the delivery criteria, they should enquire of the patient if they need a delivery and confirm their eligibility for this under this service specification
8. Where there is no family, friend, neighbour or carer, the pharmacy team must advise the patient of the potential for a local volunteer to act on their behalf who can collect the patient's prescription and deliver it to them. This must include local provision of volunteers¹ and NHS Volunteer Responders², where either are available. 'NHS Volunteer Responders information for health professionals' is available in Annex A.
9. Where a volunteer is to be used, the pharmacist must be satisfied that the volunteer is an appropriate person to deliver medicines to the patient, and can make the delivery within any timescale outlined in the announcement. Volunteers should not deliver Schedule 2 and 3 Controlled Drugs and pharmacists should use their professional judgement to determine whether it is appropriate for a volunteer to deliver Schedule 4 or 5 Controlled Drugs.
10. Where there is no volunteer available who can deliver the medicine(s) to the patient in the timescale that they are required, the pharmacy contractor must ensure that eligible patients get their prescription delivered. This can be done in one of the following ways:
 - a. deliver the medicine themselves as part of the Advanced Service;
 - b. arrange for another pharmacy to deliver it on their behalf as part of the Advanced Service;
 - c. arrange for the prescription to be dispensed and delivered by another pharmacy under the terms of the Advanced Service.
11. This service does not replace any existing delivery services that a pharmacy contractor provides under normal circumstances.

¹ For example, any support that local authorities have separately put into place.

² Guidance on use of NHS Volunteer Responders is available in 'NHS Volunteer Responders information for health professionals' https://www.england.nhs.uk/coronavirus/wp-content/uploads/sites/52/2020/03/C0112-NHS-Volunteer-Responders-Information-for-Primary-Care-Professionals_31-March-2020.pdf

Appendix B outlines the process for accessing NHS Volunteer Responders.

Payment

12. Payments will be made as set out in the Essential pharmaceutical service – fee ensuring home delivery during the Covid-19 outbreak (England only) on the NHSBSA website: <https://www.nhsbsa.nhs.uk>

Service Specification – Community Pharmacy Home Delivery Advanced Service During the COVID-19 outbreak

1. Introduction and background information

- 1.1. A Home Delivery Service is being commissioned from community pharmacy (and separately dispensing doctors) to deliver prescribed items to eligible patients specified in the relevant announcement and should not present in the pharmacy, and where no other person is able to collect the item from the pharmacy and deliver it to the patient. This service will be commissioned as necessary nationally or for specified localities. The details of patient eligibility, and whether the service is commissioned for all patients nationally or in local outbreak areas will be included in the relevant announcement.

2. Service description

- 2.1. The Community Pharmacy Home Delivery Service During the COVID-19 outbreak ('the service') is an Advanced service commissioned under the NHS Community Pharmacy Contractual Framework.

3. Aims and intended service outcomes

- 3.1. The aim of this service is to ensure that eligible patients who do not have a family member, friend or carer who can collect their prescription on their behalf, and where a volunteer is not able to collect and deliver the medicines, can have their medicines delivered in a manner which keeps both them and pharmacy staff safe from COVID-19.

4. Prerequisites for service provision

- 4.1. Prior to provision of the service, the pharmacy contractor must:
 - a. be satisfactorily complying with their obligations under Schedule 4 of the Pharmaceutical Services Regulations (Terms of Service of NHS pharmacists) in respect of the provision of Essential services and an acceptable system of clinical governance;
 - b. be satisfied that all pharmacy staff involved in the provision of the service are competent to do so; and

- c. have established that the medicine cannot be delivered by a friend, relative, carer or volunteer.
- 4.2. As Distance Selling Pharmacies are already contractually obliged to deliver dispensed items to their patients, this Advanced service will not be open to them to provide.
- 4.3. The pharmacy contractor must have a standard operating procedure (SOP) in place for this service, which includes procedures to ensure health and safety and infection control procedures are maintained in line with any relevant guidelines. All staff involved in the provision of this service should ensure they are familiar with and adhere to the SOP.

5. Service duration

- 5.1. The service will commence on the date specified in the announcement.
- 5.2. The service will remain in place until the end date specified in the announcement.

6. Service availability

- 6.1. The pharmacy contractor should seek to ensure that the service is available throughout the pharmacy's contracted opening hours only for prescriptions delivered for those patients, with addresses within the geography specified in the relevant announcement.
- 6.2. The pharmacy contractor must ensure the service is accessible, appropriate and sensitive to the needs of all service users. No eligible patient should be excluded or experience particular difficulty in accessing and effectively using this service due to their race, gender, disability, sexual orientation, religion or belief, gender reassignment, marriage or civil partnership status, pregnancy or maternity, or age.
- 6.3. The pharmacy contractor can refuse to provide the service to an eligible patient who threatens violence or commits or threatens to commit a criminal offence.

7. Service provision

- 7.1. A pharmacy contractor (contractor A) can provide this delivery service to eligible patients whose address is within an area specified in the relevant announcement, where as part of Essential services:
- a. they have dispensed the prescription themselves; or
 - b. where another pharmacy (the dispensing pharmacy) has dispensed the prescription and the dispensing pharmacy has asked contractor A to deliver the prescription.
- 7.2. If the pharmacy contractor delivers items which they have not dispensed

themselves, they either need to check patient eligibility on the Summary Care Record or attain assurance that the patient is eligible, from the pharmacy that dispensed it.

- 7.3. The pharmacist should use their clinical judgement, based on the information presented to them, to take into account the clinical need of the patient and the urgency with which the prescription item(s) should be delivered.
- 7.4. Then the pharmacy contractor must either:
 - a. deliver the medicine which the pharmacy has dispensed itself, or outsource it via a secure delivery method; or
 - b. deliver the medicine which another pharmacy has dispensed or outsource it via a secure delivery method.
- 7.5. The delivery service must be provided in line with any Public Health England or professional guidance.

8. Records and Data Sharing

- 8.1. The pharmacy contractor must maintain appropriate records to ensure effective ongoing service provision and to support post-payment verification. This should include, as a minimum, details of the eligible patients to whom a delivery was made under this service, including the postcode of the patient's address, and the date of the delivery.

9. Governance

- 9.1. The pharmacy contractor is required to report any patient safety incidents in line with the Clinical Governance Approved Particulars for pharmacies.

10. Payment

- 10.1. Claims for payments for this service should be made monthly, via the MYS portal.
- 10.2. The NHSBSA will make appropriate payments claimed by the pharmacy contractor as described above, in the same payment month as other payments for NHS Pharmaceutical Services and the payments will be separately itemised on the FP34 Schedule of Payments.
- 10.3. Claims will only be processed where deliveries have been made to eligible patients living in an area specified in the relevant announcement made by NHSEI.
- 10.4. In line with the Drug Tariff, claims for payments for this service **must** be received by the NHSBSA by the 5th day of the following month.
- 10.5. Payment will be £5 per delivery plus an allowance for VAT.

- 10.6. This fee is only payable when the pharmacy undertakes the delivery themselves or outsources it via a secure delivery method.
- 10.7. The fee is not payable if a patient, relative, carer or volunteer could have appropriately delivered the medicine or if they live in an area where there are no local or national lockdown procedures in place and no announcement has been made.

Service Specification – Dispensing Doctors Home Delivery Service During the COVID–19 outbreak

Introduction and background information

1. A Home Delivery Service During the COVID–19 Outbreak was originally commissioned throughout England from dispensing doctors (and separately, community pharmacy) on 10 April 2020 to ensure delivery of medicines to eligible patients who should not present in the pharmacy. This service may continue to be commissioned as necessary nationally or for patient’s living in local outbreak areas. The details of patient eligibility, and whether the service is commissioned for all patients nationally or on local outbreak areas will be included in the relevant announcement made by NHS England and NHS Improvement.
2. For dispensing practices, the service is made up of two elements: an addition to dispensing doctors³ terms of service which must be provided by all dispensing practices and is set out in the NHS (Pharmaceutical Services and Local Pharmaceutical Services) Regulations; and this service specification which dispensing practices can sign up to if they choose.
3. Commissioning of the service will be announced by NHS England and NHS Improvement in agreement with the Secretary of State– thereafter in this document referred to as the announcement, and is to be utilised as a consequence of COVID-19 reaching pandemic proportions in line with the National Health Service (Amendments Relating to the Provision of Primary Care Services During a Pandemic etc.) Regulations 2020.

Terms of service

4. This section summarises mandatory requirements added to dispensing doctors’ terms of service via the National Health Service (Amendments Relating to the Provision of Primary Care Services During a Pandemic etc.) Regulations 2020.⁴
5. Patients **who meet** the eligible patient criteria and who live in an area specified in the relevant announcement should be encouraged in the first instance to arrange for their medicines to be collected from the dispensing practice and then delivered by family, friends or a carer (“duly authorised person”).
6. Where there is no family, friend or carer, the dispensing practice must advise the patient of the potential for a local volunteer to act on their behalf who can collect the patient’s prescription and deliver it to them. This must include local provision of volunteers⁵ and NHS Volunteer Responders⁶, where either are available, ‘NHS

³ As amended by The National Health Service (Amendments Relating to the Provision of Primary Care Services During a Pandemic etc.) Regulations 2020

⁴ <https://www.legislation.gov.uk/ukxi/2020/351/contents/made>

⁵ For example, any support that local authorities have separately put into place.

⁶ Guidance on use of NHS Volunteer Responders is available in ‘NHS Volunteer Responders information for health professionals’ <https://www.england.nhs.uk/coronavirus/wp->

Volunteer Responders information for health professionals' is available in Appendix B.

7. Where a volunteer is to be used, the dispensing doctor must be satisfied that the volunteer is an appropriate person to deliver medicines to the patient. Volunteers should not deliver Schedule 2 and 3 Controlled Drugs and dispensing doctors should use their professional judgement to determine whether it is appropriate for a volunteer to deliver Schedule 4 or 5 Controlled Drugs.
8. Where there is no volunteer available who can deliver the medicine(s) to the patient in the timescale that they are required, the dispensing doctor must ensure that eligible patients get their prescription delivered. This can be done in one of the following ways:
 - a. deliver the medicine themselves as set out in paragraphs 13-34 or;
 - b. arrange for another dispensing doctor or pharmacy contractor to deliver it on their behalf
 - c. arrange for the prescription to be dispensed and delivered by another dispensing doctor or pharmacy contractor as set out in paragraphs 13-34.
9. This service does not replace any existing delivery services that a dispensing doctor provides under normal circumstances.
10. The terms of service requirement is funded by a payment to contractors.

Table 1: Dispensing doctor payments

Number of dispensing patients		Monthly payment	
Lower	Upper		
0	50	£0	0
51	1000	£150	£5.38
1001	2000	£300	£10.71
2001	4000	£425	£15.29
4001	20000	£500	£17.86

11. Only Dispensing Doctors whose premises are located in an area specified in the relevant announcement will receive this payment.
12. The payments relating to this service will be kept under continuous review. Revised arrangements will be considered should data on utilisation show that volunteers, and the NHS Volunteer Responder service in particular, are not being deployed wherever possible.

Appendix B outlines the process for accessing NHS Volunteer Responders.

Service description

13. The Dispensing Doctors Home Delivery Service During the COVID–19 outbreak ('the service') is commissioned by NHS England and NHS Improvement further to the National Health Service (Amendments Relating to the Provision of Primary Care Services During a Pandemic etc.) Regulations 2020.
14. The service is restricted to those patients included in the announcement and will apply only in areas specified in the announcement.
15. Appropriate checks should therefore be made to ensure that the patient remains eligible for this service.

Aims and intended service outcomes

16. The aim of this service is to ensure that eligible patients during the COVID–19 outbreak who live in a geography specified in the relevant announcement made by NHSEI and who do not have a family member, friend or carer who can collect their prescription on their behalf and where a volunteer is not able to collect and deliver the medicines can have their medicines delivered to them in a manner which keeps both them and dispensing practice staff safe from COVID–19.

Prerequisites for service provision

17. Prior to provision of the service, the dispensing doctor must:
 - i. be satisfactorily complying with their obligations under Schedule 6 of the Pharmaceutical Services Regulations (Terms of Service of dispensing doctors) and an acceptable system of clinical governance and;
 - ii. be satisfied that all practice staff involved in the provision of the service are competent to do so.
 - iii. Have established that the medicine cannot be delivered by a friend, relative, carer or volunteer.
18. The dispensing practice must have a standard operating procedure (SOP) in place for this service, which includes procedures to ensure health and safety and infection control procedures are maintained in line with any relevant guidelines. All staff involved in the provision of this service should ensure they are familiar with and adhere to the SOP.

Service duration

19. The service will commence on the date specified in the announcement; and will remain in place until the date specified in the announcement.

Service availability

20. The dispensing doctor should seek to ensure that the service is available throughout core hours only for prescriptions delivered for patients identified, and whose address is within the geography specified in the relevant announcement.
21. The practice website or online presence, and NHS website profile, should be edited to indicate that a Home Delivery Service During a Pandemic is provided to those at-risk patients identified, who live in the geography specified, in the relevant announcement. If the practice temporarily or permanently ceases to provide the service, it should, as soon as possible, update its website or online presence, and NHS website profile to reflect that the service is no longer available.
22. The dispensing doctor must ensure the service is accessible, appropriate and sensitive to the needs of all service users. No eligible patient should be excluded or experience particular difficulty in accessing and effectively using this service due to their race, gender, disability, sexual orientation, religion or belief, gender reassignment, marriage or civil partnership status, pregnancy or maternity, or age.
23. The dispensing doctor can refuse to provide the service to an eligible patient who has committed an act of violence against the contractor, a partner, a member of the practice staff or anyone engaged by the contractor including service volunteers, or has behaved in such a way that any of those persons has feared for their safety

Service provision

24. A dispensing doctor can provide this delivery service to eligible patients who live in an area specified in the relevant announcement and where:
 - they have dispensed the prescription themselves; or
 - where another dispensing doctor has dispensed the prescription and the dispensing doctor asked the dispensing doctor to deliver the prescription.
25. If the dispensing doctor delivers items which they have not dispensed themselves, they either need to check patient eligibility on the Summary Care Record or attain assurance that the patient is eligible from the dispensing doctor or pharmacy who dispensed it.
26. The dispensing doctor should use their clinical judgement, based on the information presented to them, to take into account the clinical need of the patient and the urgency with which the prescription item(s) should be delivered.
27. Then the dispensing doctor must either:

- deliver the medicine which the dispensing practice has dispensed itself, or outsource it via a secure delivery method; or
- deliver the medicine which another dispensing practice has dispensed or outsource it via a secure delivery method.

28. The delivery service must be provided in line with any Public Health England or professional guidance.

Records and data sharing

29. The dispensing doctor must maintain appropriate records to ensure effective ongoing service provision and to support post-payment verification, including taking all reasonable steps to ensure that the medical records of patients are kept up to date. Records should include, as a minimum, details of the eligible patients to whom a delivery was made under this service, including the post code of the patient's address, and the date of the delivery.

Governance

30. The dispensing doctor is required to establish and maintain an effective system of clinical governance and must report any patient safety incidents either following their established system or, if they participate in the Dispensary Services Quality Scheme (DSQS), in line with the Clinical Governance Approved Particulars for pharmacies.

Payment

31. There is an item of service fee of £5 & VAT per delivery under the service.

32. This item of service fee is only payable when the dispensing practice undertakes the delivery itself or outsources it via a secure delivery method.

33. The fee is not payable if a patient, relative, carer or volunteer could have appropriately delivered the medicine.

34. The fee is not payable if deliveries are made to patients who live in an area where local lockdown procedures are not in place or are not specified in the relevant announcement.

35. In order for timely payment to be made in line with Standing Financial Instructions claims for this service must reach the NHSBSA by the 5th day of the following month.

Annex A: Volunteer Support for Delivery of Medicines

See guidance at https://www.england.nhs.uk/coronavirus/wp-content/uploads/sites/52/2020/03/C0112-NHS-Volunteer-Responders-Information-for-Primary-Care-Professionals_31-March-2020.pdf

Campaign seeking NHS volunteer responders

Pharmacy dispenses medicines, bags and labels to include owing slips (no medicines liable to diversion).

Volunteers sign up to Good Sam App (registered/ID) and receive some training and advice re delivering medicines (<https://volunteering.royalvoluntaryservice.org.uk/nhs-volunteer-responders-portal/volunteers>).

Request volunteer to support deliveries via Good Sam webpage (www.goodsamapp.org/NHSreferral), app or telephone call centre (0808 196 3382) e.g. medicines deliveries for 2 hours. Can schedule future requests.

Good Sam App alerts nearest volunteer and others nearby until someone accepts. They are then given further details of the job.

Volunteer arrives at pharmacy at requested time. Pharmacy checks Good Sam ID and another ID. Gives volunteer medicines and addresses and advises of any refrigerated items.

Any queries volunteer phones pharmacy. Any undelivered medicines are returned to the pharmacy.

Volunteers follow process for medicines delivery. Patient receives medicines.
