

# Download the Health and Care Innovation Expo App

We have a new app for the Health and Innovation Expo 2018, please see instructions on how to download this below. If you downloaded last years app, then you may still see this on your device. To see the content for this year, you will need to download the new app

Click [here](#) to access our app download page, or search for **Health & Care Innovation Expo** in stores

Once downloaded, open the app by clicking on the app icon

Click allow to receive push messages and keep informed of important updates

Click the **+** button to access the app

Enter the email address you registered with for the Health and Care Innovate Expo 2018, and the password **expo2018**

**Please note** - iPhone 5s is the oldest supported model and iOS 10.1 the oldest supported operating system. Android "Lollipop" 5.0 (2014) is the oldest browser supported on Android phones. Windows phones or Blackberries should use the Web app provided
