## **NHS Net Zero Supplier Roadmap**

From April

2022

**Net Zero and Social Value** 

All NHS procurements include a minimum 10% net zero and social value weighting. The net zero and social value guidance for NHS procurement teams helps to unlock health-specific outcomes (building on PPN 06/20). Net Zero and Social Value will be applied via the Evergreen assessment for NHS England Medicines tenders.

Carbon Reduction Plan

For all new contracts above £5 million per annum, the NHS requires suppliers to publish a Carbon Reduction Plan for their UK Scope 1 and 2 emissions and a subset of scope 3 emissions as a minimum (aligning with PPN 06/21).

**From April 2024**, this requirement is proportionately extended to cover all new procurements.

**Carbon Reduction Plan for all emissions** 

All suppliers will be required to publicly report targets, emissions and publish a Carbon Reduction Plan for global emissions aligned to the NHS net zero target, for all of their Scope 1, 2 and 3 emissions.

From April **Product-level requirements** 

New requirements will be introduced overseeing the provision of carbon footprinting for individual products supplied to the NHS. The NHS will work with suppliers and regulators to determine the scope and methodology.
