# NHS England Transformation Framework - The Well Pathway for Dementia

## Preventing Well
- Risk of people developing dementia is minimised
  - "I was given information about reducing my personal risk of getting dementia"

## Diagnosing Well
- Timely accurate diagnosis, care plan, and review within first year
  - "I was diagnosed in a timely way"
  - "I am able to make decisions and know what to do to help myself and who else can help"

## Supporting Well
- Access to safe high quality health & social care for people with dementia and carers
  - "I am treated with dignity & respect"
  - "I get treatment and support, which are best for my dementia and my life"

## Living Well
- People with dementia can live normally in safe and accepting communities
  - "I know that those around me and looking after me are supported"
  - "I feel included as part of society"

## Dying Well
- People living with dementia die with dignity in the place of their choosing
  - "I am confident my end of life wishes will be respected"
  - "I can expect a good death"

### Researching Well
- Research and innovation through patient and carer involvement, monitoring best-practice and using new technologies to influence change.
- Building a co-ordinated research strategy, utilising Academic & Health Science Networks, the research and pharmaceutical industries.

### Integrating Well
- Work with Association of Directors of Adult Social Services, Local Government Association, Alzheimer’s Society, Department of Health and Public Health England on co-commissioning strategies to provide an integrated service ensuring a seamless and integrated approach to the provision of care.

### Commissioning Well
- Develop person-centred commissioning guidance based on NICE guidelines, standards, and outcomes based evidence and best-practice.
- Agree minimum standard service specifications for agreed interventions, set business plans, mandate and map and allocate resources.

### Training Well
- Develop a training programme for all staff that work with people with dementia, whether in hospital, General Practice, care home or in the community.
- Develop training and awareness across communities and the wider public using Dementia Friends, Dementia Friendly Hospitals/Communities/Homes.

### Monitoring Well
- Develop metrics to set & achieve a national standard for Dementia services, identifying data sources and set ‘profiled’ ambitions for each.
- Use the Intensive Support Team to provide ‘deep-dive’ support and assistance for Commissioners to reduce variance and improve transformation.
