

Could you help lead the NHS in your area?

Wye Valley NHS Trust

Non-executive Director

Candidate information pack

Reference: M3587

We value and promote diversity and are committed to equality of opportunity for all and appointments made on merit. We believe that the best boards are those that reflect the communities they serve.

We actively encourage applications from individuals of all backgrounds, including those from underrepresented groups and people living with disabilities.

We value the unique perspectives that come from different life experiences, cultures, and identities. Whether you bring lived experience of using health services, professional expertise, or community insight, your voice matters.

Our recruitment processes are conducted in accordance with the Code of Governance to ensure that they are made on merit after a fair and open process so that the best people, from the widest possible pool of candidates, are appointed.

1. The opportunity

There is a vacancy for a Non-executive Director (NED) at Wye Valley NHS Trust (WVT). This is an exceptional opportunity to share your talents and expertise to make a positive difference to the lives of people served by the Trust.

2. The person specification

Essential criteria

You will need to have a genuine commitment to patients and the promotion of excellent health care services.

You will have senior financial leadership experience, supported by a recognised professional accountancy qualification.

You will also have experience in one or more of the following areas:

- Audit, risk and assurance, including internal and external audit, financial controls, counter-fraud, governance and regulatory reporting.
- Chairing, or making a significant contribution to, an audit, risk or finance committee in a complex organisation.
- Providing independent and constructive challenge on financial strategy, sustainability, value for money and major investment decisions.
- Board-level governance, assurance and accountability, ideally within the NHS, wider public sector or another highly regulated environment.

NHS leadership competency framework for board members

Leaders in the NHS help deliver better health and care for patients by setting the tone for their organisation, team culture and performance. We have worked with a wide range of leaders from across the NHS to help describe what we do when we operate at our best.

The competency domains reflect the [NHS values](#) and the following diagram shows how they are aligned:

Working together for patients*	Compassion
Building a trusted relationship with partners and communities	Creating a compassionate, just and positive culture
Respect and dignity	Improving lives
Promoting equality and inclusion and reducing health and workforce inequalities	Setting strategy and delivering long term transformation Driving high quality sustainable outcomes
Commitment to quality of care	Everyone counts
Driving high quality and sustainable outcomes Setting strategy and delivering long term transformation	Promoting equality and inclusion and reducing health and workforce inequalities Creating a compassionate, just and positive culture
Providing robust governance and assurance	

The competency domains are aligned to [Our NHS People Promise](#), [Our Leadership Way](#) and the [Seven Principles of Public Life](#) (Nolan Principles).

The six NHS leadership competency domains:

Driving high-quality and sustainable outcomes

The skills, knowledge and behaviours needed to deliver and bring about high quality and safe care and lasting change and improvement – from ensuring all staff are trained and well led, to fostering improvement and innovation which leads to better health and care outcomes.

Setting strategy and delivering long-term transformation

The skills that need to be employed in strategy development and planning, and ensuring a system wide view, along with using intelligence from quality, performance, finance and workforce measures to feed into strategy development.

Promoting equality and inclusion, and reducing health and workforce inequalities

The importance of continually reviewing plans and strategies to ensure their delivery leads to improved services and outcomes for all communities, narrows health and workforce inequalities, and promotes inclusion.

Providing robust governance and assurance

The system of leadership accountability and the behaviours, values and standards that underpin our work as leaders. This domain also covers the principles of evaluation, the significance of evidence and assurance in decision making and ensuring patient safety, and the vital importance of collaboration on the board to drive delivery and improvement.

Creating a compassionate, just and positive culture

The skills and behaviours needed to develop great team and organisation cultures. This includes ensuring all staff and service users are listened to and heard, being respectful and challenging inappropriate behaviours.

Building a trusted relationship with partners and communities

The need to collaborate, consult and co-produce with colleagues in neighbouring teams, providers and systems, people using services, our communities, and our workforce. Strengthening relationships and developing collaborative behaviours are key to the integrated care environment.

Applications will be assessed on merit, as part of a fair and open process, from the widest possible pool of candidates. The information provided by applicants will be relied on to assess whether sufficient personal responsibility and achievement have been demonstrated in previous/other roles, to satisfy the experience being sought.

The best boards are those that reflect the workforce and communities they serve. We particularly welcome applications from individuals of all backgrounds, including those from underrepresented groups and people living with disabilities, who we know are all under-represented in these important roles.

- Applicants should live in or have strong connections with the area served by the trust.
- On average this role will require the equivalent to 2 to 5 days a month, however the time commitment may vary and a flexible approach should be taken.
- The remuneration payable for this role is £13,000 (standard rate for all NEDs) per annum.

Given the significant public profile and responsibility members of NHS Boards hold, it is vital that those appointed inspire confidence of the public, patients and NHS staff at all times. NHS England and the Trust make a number of specific background checks to ensure that those we appoint are “**fit and proper**” people to hold these important roles. More information can be found on our [website](#).

3. About Wye Valley NHS Trust

Wye Valley NHS Trust was established in 2011 and provides healthcare services at Hereford County Hospital in Hereford and at community hospitals in Ross-on-Wye, Leominster and Bromyard.

The Trust provides community and hospital care to a population of approximately 195,000 people in Herefordshire and a population of more than 40,000 people in mid-Powys, Wales.

The Trust has four clinical divisions: Surgical, Medical, Integrated Care and Clinical Support.

Vision, Mission and Values

Our vision is to improve the health and wellbeing of the people we serve in Herefordshire and the surrounding areas.

Our mission is to provide a quality of care we would want for ourselves, our families and friends.

Our values are embedded in the ways we work and are key components of our recruitment and staff appraisals processes.

Our Values

Compassion

We will support patients and ensure that they are cared for with compassion

Accountability

We will act with integrity, assuming responsibility for our actions and decisions

Respect

We will treat every individual in a non-judgemental manner, ensuring privacy, fairness and confidentiality

Excellence

We will challenge ourselves to do better and strive for excellence

Integrated Care System

The Trust is part of the Herefordshire and Worcestershire Integrated Care System (ICS). The ICS is responsible for improving health outcomes for the local population,

reducing health inequalities and supporting broader social and economic development. The Integrated Care Board does this through ensuring effective joined up working with local partners across health, social care, voluntary and community sectors and the allocation of NHS resources to ensure services are in place to deliver the jointly agreed ambitions.

Foundation Group

The Trust is part of a Foundation Group with South Warwickshire NHS Foundation Trust, George Eliot Hospital NHS Trust and Worcestershire Acute Hospitals NHS Trust, with a single Chief Executive Officer and Chairman. All four organisations face similar challenges and have a common strategic vision for how these can be solved. The Foundation Group model retains the identity of each individual trust whilst strengthening the opportunities available to secure a sustainable future for local health services and providing a platform to share best practice and improve whole system patient pathways.

Shared Foundation Group Long Term Strategic Objectives and Big Moves

The Big Moves are underpinned by six Strategic Pillars:

- **Quality:** We will improve the experience, outcomes and safety of people accessing our services. We will embed a culture that is open to change and through Quality Priorities we will focus on improvement that will support people to live healthier, happier lives.

- **Workforce:** Our staff are our organisation. The retention, happiness and wellbeing of our workforce is essential. We want the Trust to continue to be an employer of choice, attracting the very best.
- **Productivity:** Making the best use of our limited resources and maximising the benefits of Foundation Group working will help us to be an efficient and effective organisation. We will respond to national programmes and develop a financial and operational strategy that makes us sustainable for future healthcare delivery.
- **Digital:** Digital solutions can enhance services and patient experience. We have an opportunity to use technology and data to transform care and experience for our staff.
- **Sustainability:** We recognise our environmental obligations and we are committed to minimising our impact on the local environment and helping to improve it.
- **Research:** We will create a culture which harnesses and supports research opportunities and improved access to clinical research.

Trust Objectives

Compassion • Accountability • Respect • Excellence
