

North West

Children and Young People's Palliative Care Network

Services Directory

October 2013

About this Directory

The directory contains information on

- Children's Hospices
- Community Children's Nursing
- Specialist Palliative Care
- Children's Inpatient Units (General Paediatrics)
- Neonatal Units

Additional information will be added on

- Bereavement services
- Short break services

When it is available.

The Directory is organised according to Zonal Network and Locality. Organisations are entered according to location of their premises. Please note that many services outreach to other care settings including the patient's home and the catchment area of many organisations particularly children's hospices is wider than the area where they are located

Updates and new entries

Please use the template directory entry at the end of the directory to notify the Network of any errors, updates or additional services to be added to the directory

St Helens

Children's Hospital at Home Team, Whiston Hospital

St Helens and Knowsley Hospitals NHS Trust

The hospital at home scheme is an early discharge service which allows children to spend less time or no time in hospital or to avoid repeated visits to the hospital. The scheme caters for children who would normally be admitted for hospital nursing care rather than requiring the 24-hour availability of a doctor. During the child or young person's admission on the scheme, a nurse can make up to four visits daily and is available 24 hours a day by telephone. The child or young person remains under the care of the paediatric doctors and is allowed to return to the ward immediately if required. The remit of the service is presently being broadened to become a generic children's community nursing team including home nursing for palliative care.

Age range: up to 16th birthday

Opening times: 24 hours a day, 7 days a week

Liverpool

Liverpool Children's Community Nursing Team

Alder Hey Children's NHS Foundation Trust

Generic children's community nursing for children with long term conditions, complex healthcare needs and palliative care. The team provides information, communication & co-ordination of care, emotional support and practical assistance in the child or young person's own home or other community setting. Care is most often required during times of changing or additional care need such as around the time of diagnosis, after hospital admission or at end of life. Care is often task focused and may include teaching a specific task to parents or carers, administration of medication or dressing changes.

Liverpool Wheelchair Service

Liverpool Primary Care Trust

In Lifehouse we have two spacious clinic rooms; we have the facilities to carry out seating clinics. The clinics have height adjustable plinths, a mobile hoist, a ceiling hoist, and other manual handling equipment. We also have warehouse space, which means we can stock a larger variety of wheelchairs, accessories and cushions to enable us to carry out a far more comprehensive assessment. We are also able to stock standard chairs which means we can issue a wheelchair to a service user following their assessment at clinic and they can take the chair home with them. We also visit service users at home if they cannot attend a clinic. We have a pressure mapping system which we can use to accurately assess service users for suitable pressure relieving cushions which will increase client's independence and reduce hospital admissions, and the visual feedback has been beneficial to service users.

West Cheshire Wheelchair Service

Wirral Community NHS Trust

The Wheelchair Service assesses and supplies bespoke wheelchairs, special seating and pressure distribution cushions for adults and children with long-term mobility problems. Wheelchair and buggy provision is determined following assessment and is dependent on clinical need and in relation to the equipment supply criteria.

We provide: ongoing review and assessment of mobility needs for both powered and non-powered wheelchairs, wheelchair and pressure distribution cushions and postural seating systems to use in wheelchairs (based on clinical need) & a repair and maintenance service for people with our equipment.

Opening times: Monday–Friday, 8:30am–4:30pm.

Gaddum Centre Children's Charity

We accept referrals from professionals and families requesting bereavement counselling for young people aged between 4 and 18 years and if requested for the adults who care for them. For this service the young people need to be living in Manchester and Salford. Psycho-social therapy is provided to families referred by the Paediatric Palliative Care Community Nursing teams in Stockport, Salford and Manchester. We have Carers Centres in Salford and Bury. Our team of therapists provide training and supervision for any professionals working in the field of bereavement and palliative care. We also administer a number of Charitable Trusts. Most have geographical limitations but contact the main office for further information.

Opening Times: Office open - 8.30-4.30. Home visits outside of these times may be possible.

Facilities:

Parking: Yes
Disabled access: Yes
Crèche: Meeting room and small counselling rooms.
Home Based: Therapy sessions may also take place at home or school.

Royal Manchester Children's Hospital

Central Manchester University Hospitals NHS Foundation Trust

The Royal Manchester Children's Hospital provides specialist healthcare services for children and young people throughout the North West, as well as nationally and internationally. The hospital sees 200,000 patient visits each year across a range of specialties including oncology, haematology, bone marrow transplant, burns, genetics, and orthopaedics. It has been designed so that all departments are close to the equipment and support that they need. This means patients and staff won't have to travel far within the hospital. With 371 beds it is the largest single-site children's hospital in the UK.

Paediatric Intensive Care, Royal Manchester Children's Hospital

Central Manchester University Hospitals NHS Foundation Trust

The Paediatric Intensive Care Unit (PICU) provides care for critically ill children and their families. It is one of the leading centres in the North West and the largest general PICU in the UK. The unit has 17 beds for patients ranging from new-born babies to 16-year-old. A wide range of specialist teams - including neurosurgery, oncology, cardiology, respiratory, physiotherapy and pharmacy - work with the multidisciplinary PICU team to deliver level 4 paediatric intensive care to children across the region. Most of the work is emergency-led and staff from the Paediatric Emergency Transport Service team collect very sick children from referring hospitals. The High Dependency Unit provides specialist care for children requiring more observation, intervention or monitoring than can be safely provided on the general wards: it acts as a 'step up' from the wards and a 'step down' from PICU.

Neonatal Unit, St. Mary's Hospital Manchester

Central Manchester University Hospitals NHS Foundation Trust

Our New-born Intensive Care Unit (NICU) is one of the five directorates (specialties) that make up Saint Mary's Hospital. NICU is designed to provide specialist care for:

- Babies born early (prematurely) from 23 weeks' gestation and above.
- Babies with health problems diagnosed before birth (antenatally) or after birth (postnatally).
- Full-term babies who have unexpectedly become unwell.

As well as serving our local population, we are also one of three tertiary (specialist) level neonatal units providing care to the smallest and sickest infants across Greater Manchester.

Opening times: We encourage you to visit your baby as often as you wish, seven days a week. The only time we ask you not to visit is during the doctors' ward round. Times vary from room to room.

Rainbow Family Trust

Francis house children's hospice can provide daycare and specialist short break care. The care team works in collaboration with all of the multi-agency teams across the area. The team is able to provide quality palliative care as the child or young person reaches the end of their life. The hospice also provides short breaks away from their normal routine. This provides a break for families and carers and the chance to meet new people and do new things for the child or young person. Families including parents and siblings are welcome to stay too.

Age Range: Babies, children or young people aged 0 - 16 years, flexible according to need.

Opening times:

Facilities:

Parking: Yes
Disabled access: Yes
Crèche: No

Bolton Children's Community Nursing Team

Bolton NHS Foundation Trust

The Children's Community Nursing teams are highly specialist nurses who provide care at home or as close to home as possible. We work to ensure children do not need to stay in hospital, where care in the community supports early hospital discharge and prevention of attendance or readmission. The Children's Community Nursing team is based within Brightmet Health Centre, Bolton. The geographical area covered by the team extends to the whole of Bolton. We deliver care closer to home, including the family home, clinic environments and school / nursery for children from birth to 19 years.

Wigan

Paediatric Inpatient Unit, The Royal Albert Edward Infirmary

Wrightington, Wigan and Leigh NHS Foundation Trust

Rainbow ward is the children's. It's a new ward and is built around children. Children all tell us that they like bright colourful places. We have used the colours of the rainbow to code the ward into areas, and used the rainbow design in the floor to guide people to the right area. We have a huge variety of toys to help occupy the children during their stay with us, from games stations to dressing up, and from toy garages, to toy daleks. We hope to be able to cover all ages. The bed areas are well equipped. Many of our beds are single rooms.

Opening times: Parents may visit at any time and are welcome to stay with their child when admitted. There are facilities for parents to stay on Rainbow Ward.

Wheelchair Service, Wigan CCG

Bridgewater Community Healthcare NHS Trust

The Wheelchair Service provides assessment for provision of a wheelchair when clients meet the eligibility criteria. Following assessment wheelchairs will be provided to meet clinical need. The Service provides pressure relieving cushions for wheelchairs provided by Aston, Leigh and Wigan Wheelchair Services and where pressure is clinically assessed to be a problem.

Wheelchairs are provided for clients who are:

1. A registered patient of an ALW NHS GP or an unregistered permanent resident of the Wigan borough
2. Due to medical reasons be unable to walk indoors
3. Require the wheelchair for longer than six months

If a person is not eligible for a wheelchair from our Service we will give other alternatives dependent on situation e.g. charities, sources of hire and private purchase.

Paediatric Inpatient Unit, Stepping Hill Hospital

Stockport NHS Foundation Trust

Patients are referred to Tree House by their GP, from the emergency department or by community nurses. The hospital tries to make sure that children are only admitted when absolutely necessary. Many children are discharged with the support of our children's community nurses who will visit them and help with care at home. Stepping Hill's Tree House Unit provides for children up to 16 years who require observation or treatment.

Opening times: There is unrestricted visiting for parents and guardians but please note that no more than one parent / carer may stay overnight. Brothers, sisters and other visitors are welcome to visit, but visiting is restricted to 10am - 11.30am, 2pm - 4.30pm and 6pm - 8pm.

Stockport Wheelchair Service

Stockport NHS Foundation Trust

Our service is provided by qualified occupational therapists and/or physiotherapists who are specialised in wheelchair assessment and prescription. You may also be seen by our trained and experienced technical instructors. We also have an experienced rehabilitation engineer who can offer advice and assessment of specific modifications to your wheelchair to suit your individual needs.

If you are an existing wheelchair user you must bring your wheelchair to your appointment. If you are not an existing wheelchair user then just bring yourself, however be aware that if we can we would like to issue your wheelchair on the day so please arrange suitable transport to accommodate a wheelchair on your return journey home.

Trafford

Trafford Children's Community Nursing Team

Central Manchester University Hospitals NHS Foundation Trust

The Trafford Children's Community Nursing Team (CCNT) are a team of qualified children's nurses and support workers who are dedicated and committed to delivering care closer to home for children and young people within the Trafford area. The CCNT aims to promote self-care and health promotion for the children and young people of Trafford, by working proactively where possible, and being reactive to their individual needs. Parental and children/young people's empowerment is one of the fundamentals of children's community nursing and is encouraged by the support, care and advice that the CCNT provide. We also work in partnership with our Children and Young Peoples Service colleagues to promote and enable all children and young people to achieve their best possible outcome. Referrals to the CCNT can be made via telephone, letter or fax and are accepted from all agencies working with children and young people including self-referrals. Any child or young person with a nursing need can be referred to the CCNT.

Opening Times: 08.30am - 10pm, 7 days per week, including Bank Holidays. On call support is provided for children and young people with end of life care needs, outside of these hours.

Brian House Children's Hospice

Brian House the children's unit within Trinity Hospice specializes in respite, palliative, end of life care and bereavement support for children, young people and their families. Brian House, working as part of the multi-disciplinary team, provides care and a 'home from home' environment for children and young adults from within the Blackpool, Fylde and Wyre areas who have life threatening and/or life limiting conditions and meet the criteria for care. Brian House is equipped with everything needed to provide the very best care for a child, including: fully equipped multi-sensory room, cinema room, innovative multi-sensory play area, arts and crafts and outdoor play area. Parents can also make use of a separate first floor flat with two en-suite bedrooms in a relaxed and comfortable atmosphere whilst their child is at Brian House.

Linden Centre

Linden Centre Children's Charity

The purpose built Linden Centre is there for Patients, their families and carers who are affected by a life threatening illness and experiencing problems ranging from sadness and worry to distress that is significant enough to prevent them from functioning as they normally would. It also provides support and counseling for Families and carers who have been bereaved following a terminal illness, either recently or sometime ago, and who are struggling to come to terms with this loss. The Linden Centre staff strives to provide a compassionate and comfortable environment that enables people to find the support they are looking for.

The Linden Centre Service is divided into three significant areas of work: living with life threatening illness, bereavement and our service for children and young people – CASCADE.

Derian House Children's Hospice

Derian House Children's Hospice

Care offered at Derian House is focussed on specialist palliative respite and terminal care for children who may not live to reach adulthood. The hospice provides a home from home environment with the care team working in partnership with the child or young person and their family. Children and families can also receive support and care at home through the hospice at home service. Care continues with bereavement support for the family for as long as required. Derian Lodge opened in November 2010, it is a four bedded young people's unit for ages 16-25.

Age Range: Babies, children or young people aged 0 - 25 years.

Specialist Mobility Rehabilitation Centre

Lancashire Teaching Hospitals NHS Trust

The Specialist Mobility Rehabilitation Centre (SMRC) provides specialist wheelchair, prosthetic limb and orthotic rehabilitation services throughout Lancashire and South Lakeland for people of all ages with long-term mobility problems. The Centre is part of Lancashire Teaching Hospitals and its services are organised from a self-contained purpose-designed outpatient department based at Preston Business Centre.

Services include counselling, assessment, supply, maintenance, repair and training, where appropriate, for specialist equipment issued. Staff at the Centre are committed to ensuring that patients are given the opportunity, within the limitations of equipment issued, to achieve their full potential in terms of mobility and independence.
