

Action Plan

MH Homicide/DVHR December 2014

Date Issued: 6.4.16

Date Completed:

No	Recommendation	Key Actions	Evidence	Key Outcome	Lead Officer	Date
1	The CCG/GP and PCFT should implement a system for follow up on physical health checks re psychiatric medication, and Trust monitoring of health check carried out	The CCG will re visit the pathway already in place to ensure that there is a clear expectation on GP's to send the mental health team the outcome of the physical health check and associated tests	Pathway document	There will be a comprehensive physical health check process in place and information will be shared between all relevant practitioners	Gina Evans Karem Maneley Viren Mehta	May 16
		The pathway will be re launched with MH services and GP's	Presentation GP bulletin			July 16
		PCFT CMHTs will undertake an audit to demonstrate action is embedded	Audit results			Sept 16
	<p>Progress: 2014 issue raised at MH Masterclass and is being re visited in Jan 17 Masterclass Local CQUIN with PCFT 2013 -15 and now a National CQUIN to improve communication between MH staff GPs, the CQUIN places the onus on the MH practitioner to communicate with the GP rather than the GP taking the lead. This is being monitored nationally. Therefore the recommendation has been met, and there is ongoing monitoring, though not as per originally identified key action/evidence.</p>					10 11 16

No	Recommendation	Key Actions	Evidence	Key Outcome	Lead Officer	Date
2	For PCFT, CCG and the local authority to audit the implementation of the autism strategy, and resources to support staff and patients who are diagnosed with ASD	The autism strategy will reflect the needs of patients who are diagnosed with ASD	Audit results	Adults with ASD will have access to services post diagnosis	Gina Evans CCG Commissioner	ongoing
	<p>Progress: Oct 16</p> <p>The Stockport Autism strategy is currently being reviewed and refreshed. The adult autism SAF has been recently completed so there is a clear picture of what is in place and where there are gaps. There has been a number of training sessions to increase practitioners knowledge re autism and includes how to effectively communicate with adults with autism. A supported employment service is in place. A newly commissioned (LA) Targeted Prevention Alliance will provide advice and support for any individual regardless of diagnosis or eligibility. In Jan 17 a pilot has been funded by the CCG to provide assessments locally as currently the service is provided by Sheffield. This will improve communication especially if the adult has a dual diagnosis and is already in mental health services.</p> <p>Going forward a resource mapping exercise will be finalised, the LA autism web site will be updated and the provider market in Stockport will be scoped to ensure a range of support options are available. An autism focus group and special interest sub group will be developed. NB This is a multi agency strategy that the LA are leading on and the CCG is participating in.</p>					
3	NHS Stockport CCG: formal processes must be in place so that multi agency risk assessments are carried out for all vulnerable children and their carers on transition from children to adult services	The CCG will raise this issue with both the children and adults safeguarding boards The CCG will engage in the work being undertaken by the safeguarding boards looking at the transition of vulnerable young people to adult services.	Safeguarding Board Minutes Relevant papers Minutes of meetings Action plans	Vulnerable children who require ongoing services into adult hood are identified and transitioned to adult services. Carers receive an assessment	Anita Rolfe Executive Nurse S Gaskell Designated Nurse Children A Walton Designated Nurse Vulnerable Adults	June 16 Ongoing
	<p>Progress: March 16</p> <p>At the GP safeguarding leads briefing the issue of carers assessments were discussed using this case as a case study</p>					

No	Recommendation	Key Actions	Evidence	Key Outcome	Lead Officer	Date
	<p>Issue raised at children's safeguarding children board linked to an agenda item on transitions 3.10.16</p> <p>Transitions is an area that both safeguarding boards are progressing. There is recognition that some children may still be receiving services at 18years but not meet the threshold for adult services. Papers have been presented at the safeguarding boards and the CCG are part of the discussions</p> <p>The CCG is a signatory to the Stockport Multi Agency Carers Strategy 2013-16 which is currently being refreshed</p>					
4	<p>NHS Stockport CCG: GP practice staff must undertake adult safeguarding and domestic abuse training</p>	<p>Practices to be reminded re mandatory requirement to undertake safeguarding adult training which incorporates domestic abuse and how to access e learning package CCG training directory to identify other sources of training Practices to provide evidence of staff training</p>	<p>Communication via GP safeguarding leads briefings presentations GP news letter Training directory Training data</p>	<p>The GP practice workforce will be able to identify abusive situations and provide advice and/or make appropriate referrals</p>	<p>Sue Gaskell /Andria Walton/James Higgins</p>	<p>June 16 May16 Sept 16</p>
	<p>Progress:</p> <p>Since 2015 all GP practice staff have access to the CCG e learning platform which includes an adult safeguarding module. There is not a specific DA module on the platform but the adult module addresses DA. The training directory produced by the CCG and circulated to all practices is regularly updatd and identifies what training practitioners in different roles need to undertake. This directory includes details of the RCGP DA e learning</p> <p>Sept 2015</p> <p>A safeguarding Masterclass was attended by 55 GPs. Domestic abuse was one of the two topics addressed</p> <p>The CCG Designated Nurse for Vulnerable Adults as part of the quarterly GP safeguarding leads briefings regularly re visits training and provides regular update briefings.</p> <p>Nov16</p> <p>In August 16 a multi agency DA task and finish group has been set up and one of its TOR is to produce a multi agency Domestic Abuse Training Strategy. This will include a plan to deliver multi agency training packages which will be available to GP practices</p> <p>An audit of compliance with training will be undertaken in the new year.</p>
