

In 2017 Chilypep worked with young people from STAMP to create a short film around **suicide prevention**. This film details the **lived experiences** of young people as well as **'top tips'** on how to support a young person at risk of suicide. This work links to the **Sheffield Suicide Prevention Strategy 2017**.

Chilypep's STAMP group are a group of young people trained to be **Young Commissioners for Mental Health Services in Sheffield** under the Local Area Transformation Plan.

Visit the link below to watch the suicide prevention film;
