THE STORY SO FAR

WHAT IS SIGN UP TO SAFETY?

Sign up to Safety is helping to make the NHS the safest healthcare system in the world

A MOVEMENT FOR CHANGE

Launched on 24th June 2014, over three years we will bring together collective learning to engage and connect individuals and organisations working on safety improvement to help people take action.

ORGANISATIONS WHO JOIN SIGN UP TO SAFETY COMMIT TO MAKE CARE SAFER BY:

1

Setting out the actions they will undertake in response to the five Sign up to Safety pledges and agree to publish this on their website for staff, patients and the public to see.

2

Committing to turn their pledges into a safety improvement plan (including a driver diagram) which will show how organisations intend to save lives and reduce harm for patients over the next 3 years.

THE FIVE CAMPAIGN PLEDGES

- ★ Put safety first
- ★ Continually learn
- ★ Be honest
- ★ Collaborate
- ★ Be supportive

SAFETY IN NUMBERS

116

safety improvement plans submitted for NHS Litigation Authority funding

750

people helped through 15 webinars

2,000+

@SignuptoSafety followers on twitter

Data correct to 20 February 2015
