MANCHESTER ARENA ATTACK UPDATE

We now have clarity regarding the information that is being requested by West Yorkshire Police via the 101 number, but due to patient confidentiality we are not able to provide it direct.

Therefore if any patient attends your practice saying they have been injured or affected from the Manchester Incident, please provide them with West Yorkshire Police contact information and ask that they call them direct. The information they will be asked for on the call is;

- Name
- DOB
- Address
- Type of injuries, and
- details that they have about the incident

To contact West Yorkshire Police, they will need to dial the 101 number and tell the call handler that their report needs to go **Storm Log 59**.

In addition can you send an email to the england.bnsssg-icc@nhs.net email address, with time and date that the patient attended your practice? No other patient data needs to be provided to this email address.
