<http://maxcourse.co.uk/swdentalpg/guestHome.asp>, then follow the new user login, find the course on the 31st May to put in your basket and pay online.

Script – Dental

This innovative e-learning programme is designed to help dentists and dental trainees in their learning and knowledge of therapeutics and safe prescribing.

There are 7 modules containing interactive content and care-based prescribing scenarios. In-module activities and a pre-and post-test will help with understanding of baseline knowledge and measuring progress.

The 7 modules are:

- Prescribing Documentation and Drug History
- Medication Errors and Adverse Drug Reaction
- Special Patient Groups
- Prescribing in Medical Emergencies
- Peri Procedural Prescribing
- Management of Infection
- Pain, Ulceration and Inflammation
