

Special Bulletin

10 August 2017

Issue 1

This is a special bulletin aimed at those practices that refer into the Dental Access Centre, Plymouth.

The DAC have asked that we send you the attached letter explaining where they are in terms of providing a service after the fire that they sustained.

Please note that they are open to referrals but if you do refer a patient in could you please help manage your patient' expectations as they will be working at a limited service for the next three weeks.
