Our team

Greetings from the Macmillan Primary Care Team for Cornwall we are keen to meet you.
Funded by Macmillan and managed in partnership with Royal Cornwall Hospital Trust. Our roles are not clinical, but focused on improving pathways, processes and communication, to help you to improve care for your cancer patients throughout this journey.

Our aims

• Support the development of policies and procedures relating to cancer care from early diagnosis to end of life care
• Improve communication between primary and secondary care
• Promote importance and awareness of earlier stage at diagnosis
• Support and develop education and training for GP’s and practice nurses in relation to cancer as a Long Term Condition
Cancer Nurse Specialists

Cancer Nurse Specialists treat and manage the health concerns of patients and work to promote health and wellbeing in the patients they care for. They practice autonomously and integrate knowledge of cancer and medical treatments into assessment, diagnosis, and treatment of patients' problems and concerns. Many cancer CNSs work as part of a tumour specific team. The specialist nature of the Cancer Specialist Nurse and their role as a key worker to individual patients means that they can quickly identify emerging issues that might require medical attention, enabling care to be planned and emergency admissions averted. CNSs are often the main point of contact for cancer patients and their families, and work closely with colleagues throughout the patient's cancer journey. As a result, they are well placed to support patients at each stage and to promote integration within care teams.

CA Cornwall Macmillan Project providing benefit and grant advice.

We offer free, impartial, confidential advice to people living with cancer, their carers and families. We can help with issues such as:

- Benefit entitlement
- A 'Better-off' calculation
- Making a benefit claim
- Benefit form filling: new claims and reviews
- Contacting relevant departments with regards to your benefits eg change of circumstance
- Challenge/Appeal a benefit decision
- Claiming Personal Independence Payment via Special Rules for terminal illness
- Grant applications

What is the Cornwall Link?
The Cornwall Link is an online portal where you can find information on a wide range of services, community groups and organisations in Cornwall and the Isles of Scilly. Our aim is to provide individuals, families, carers, volunteers and healthcare professionals with access to services and community based activities that will reduce social isolation and improve health and wellbeing.

This platform has been designed in collaboration with Age UK Cornwall staff, volunteers, our clients, GP’s and our supporting partners, including: Cornwall Neighbourhoods for Change, NHS Kernow, Cornwall Rural Community Charity and the Eden project.

Contact Us:
Email - cornwall-link@ageukcornwall.org.uk or Call Lee Davies on 01872 266383 to find out more

The Cornwall Link & Scilly Link went live on 4th December 2017
http://www.cornwall-link.co.uk  http://www.scillylink.co.uk
#hello my name is Hannah Heayn and I am the specialist nurse for Teenagers and Young Adults who have a diagnosis of cancer. I cover Cornwall from Treliske Hospital and I work 18.75hrs, Tuesdays, Wednesdays and every other Friday.

The aim of the Teenagers and Young Adults (TYA) service in Cornwall is to provide age appropriate cancer treatments and facilities for patients aged 16-24 years. We want to support you holistically in any way we can and want to engage with you and your support network so that you receive what you want and need from our service.

The team consists of me the Specialist Nurse, Richard Nobes CLIC Sargent Young Person’s Social Worker and DR Toby Talbot Clinical Lead for TYA we also work closely with the paediatric and adult Oncology and Haematology teams across the trust.

The needs of teenagers and young adults with cancer are met by Paediatrics and Adult Services; under 16’s by the Paediatric Team, 16-18 year olds can choose to be treated in either Paediatrics or Adult Services (guidance will be given by the professional team to make the decision) and over 18’s will be treated by Adult Services.

Area 61 is our Teenage and Young Adult unit at the University Hospitals Bristol NHS Foundation Trust. The Unit opened in 2014. This is a principle treatment center which provides specialist facilities for young people.

Patients who choose to be treated locally will have access to the same services and support as those attending the Principal Treatment Centre and their care needs and treatment plan will still be discussed with the Bristol as we have close links across the peninsula.
Teenagers and Young Adults with Cancer Service at RCHT Treliske

Hannah Heayn – Specialist Nurse Teenagers and Young Adults with Cancer
Tel: 07879486675
Email: hannahheayn@nhs.net
• Emotional and social support; through diagnosis, treatment and beyond.
• Support and information for patients, their friends and family
• An additional link with your keyworker / clinical nurse specialist / medical team
• Link to other professionals and support services i.e. Counselling or Psychology
• Wig referrals
• Access to age appropriate environments
• Support groups and social activities

Richard Nobes - CLIC Sargent Young Person's Social Worker
Tel: 07796 938460
Email: richard.nobes@clicsargent.org.uk
Richard provides:
• Emotional, financial and practical support to help young people continue with their everyday lives
• Help to apply for benefits or grants
• Information and signposting to other useful services
• Support groups and social activities
The Cove

More than 21,000 people in Cornwall and the Isles of Scilly are living with cancer.

The Cove Macmillan Support Centre provides a dedicated facility for people affected by cancer, whether they’re the patient, are caring for someone or are simply worried about cancer.

Cancer affects every part of your life and people need financial, emotional and practical support, as well as medical treatment. The Cove Macmillan Support Centre now means people have a place to come to when they need support, and it will offer a wide range of services to make sure people with cancer have the best quality of life they can.

Telephone number: 01872 256363
email: thecove@nhs.net
Community Specialist Palliative Care Team

Referral Criteria

Specialist Palliative Care Services (SPCS) are resources for health care professionals in all community care settings to access expert support for patients facing a life threatening condition irrespective of diagnosis, in particular for:

- Management and monitoring of persistent and/or transient symptoms
- Management of complex emotional/psychological issues
- Management of complex social/family issues
- Planning end of life care

Referral guidelines

Referrals to the Community Specialist Palliative Care Nurse are appropriate when:
- The patient has symptoms which are complex or rapidly changing.
- The patient/carer has difficulty adjusting to diagnosis or advancing disease.
Support may be required when decisions about palliative treatment options are being made

To make a referral
Please contact the Community Specialist Palliative Care Nurse by Post/e-mail to:
Community Specialist Palliative Care Team
Peninsula Community Health
Community Services
Truro Health Park
Infirmary Hill
Truro
TR1 2JA

Fax: 01872 246948 Tel: 01208 251300
Between 9.00am and 4.30pm  E-mail: cpn-tr.spcreferral@nhs.net
Our Palliative Care Advice Line is available to healthcare professionals 24 hours a day, 7 days a week.
This provides access to specialist nursing and medical advice at any time on symptom control, syringe driver and drug use, appropriate place of care and management of palliative care emergencies.
Please call: 01736 757707

Cornwall Hospice Care also operate a Palliative Care Email Hotline which is available to healthcare professionals requiring advice quickly but without the urgency of a direct telephone conversation. Immediate advice is available via the advice line phone number above. Email requests for advice will be responded to within 24 hours by the consultant on call that day.

Hospice Hubs offer drop-in sessions Thursday afternoon 1.30pm to 4.30pm. The John Betjeman Centre Wadebridge PL27 7BX and Clarence House Penzance TR18 2PA

The email hotline address is cornwall.spcadvice@nhs.net
All requests for admission should be made directly to the inpatient units at Mount Edgcumbe Hospice and St Julia’s Hospice.
NICE Guidelines Suspected Cancer June 2015
The identification of people with possible cancer usually happens in primary care, because the large majority of people first present to a primary care clinician. Therefore, evidence from primary care should inform the identification process and was used as the basis for this guideline. Recommendations in the update are now organised by symptoms which should prompt a 2 week wait referral; further investigation in primary care; safety netting in primary care.

Mark Rawles Health Professional Engagement Facilitator CRUK

What is the Health Professional Engagement Facilitator programme?
The programme is a partnership with the NHS to provide face-to-face tailored support to GP practices and health professionals to help improve cancer prevention, early diagnosis and cancer outcomes across the UK. Our aim is to improve cancer outcomes by engaging with and supporting health professionals at a local level.

Please note, we are not able to ring and speak to patients we only contact the schools in question. Personal numbers should not be shared and promises of contact from the School programme should never be made.
The Complex Cancer Late Effects Rehabilitation Service (CCLERS) is a specialist rehabilitation service for people experiencing unresolved persistent pain and reduced physical function due to the consequences of treatment for cancer (any tumour site).

The service includes individual clinical assessment, agreed goal setting and a package of specialist multi-disciplinary services including physical and psychological therapies. The service aims to provide a timely intervention to treat complex late effects of cancer treatment and prevent long term conditions arising. The provision of specialist, tailored in-patient rehabilitation positively impacts on the ability of people living with complex late effects to improve self-efficacy, functional performance and satisfaction in all occupational domains of their lives.

CCLERS aims to provide a timely, cost effective quality intervention with a long term positive impact on health and utilisation of health care provision.

**REFERRAL CRITERIA**

- Unresolved persistent pain and reduced physical function due to the consequences of treatment for cancer (any tumour site).
- Already seen by local pain and rehabilitation services (i.e primary/ secondary physiotherapy services) without improvement and/or deterioration in symptoms.
- Considered complex/highly complex by local/regional services due to physical and/or psychological needs.
- Completed cancer treatment > 12 months ago (excluding hormone therapy)
WHAT DO WE OFFER?

On receipt of referral all individuals are assessed by telephone by our lead nurse specialist who is based in Bath at the Royal National Hospital for Rheumatic Diseases (RNHRD), part of the Royal United Hospital, NHS Foundation Trust. Following assessment, individuals are invited to attend a two day clinic. This two day clinic consists of individual consultations with specialists from the following areas:

- Pain
- Psychology
- Physiotherapy
- Occupational Therapy

The clinic also offers rehabilitation in a group setting which addresses topics such as exercise, and coping strategies.

Ongoing care and support management is provided by our nurse specialist. Where appropriate, people can be admitted for a period of inpatient rehabilitation to the Royal National Hospital for Rheumatic Diseases (RNHRD).

ALL REFERRALS SHOULD BE SENT TO:
Professor Candy McCabe
Royal National Hospital for Rheumatic Diseases
Upper Borough Walls, Bath BA1 1RL

Email: candy.mccabe@nhs.net
