NHSE/CCG Open Exeter payment analysis

There is functionality in Open Exeter that will show the split of the originator of the payments, as the nett payment will often be the result of payments from either your CCG and/or NHS England.

In Open Exeter, below the GP Statements area, there is a section titled NHS England/CCG Payment Statements.

Under “Set payment Date”, select the “Month of:” and select the month of the statement you would like to interrogate, then click “Get Statement Dates”.

Then, under “Select Payment Statement”, click the drop down and select the statement date, click “View Statement”.

The following screen should show the CCG codes, CCG Names and amounts. Further service item details can be obtained by clicking the CCG codes in the list, which are coloured blue.
