Time for Care
Quality Improvement for General Practice Nurses

Free two day programme for the South West Region
19 and 20 November 2019
Taunton Conference Centre at Taunton RFC, TA2 8BU

“I gained a lot from attending the Quality Improvement workshop. It has been the highlight of my training this year. This should be offered to all nurses working in General Practice”. General Practice Nurse, Derby.

This programme is designed for all nurses working in general practice across the South West of England. It is one of a series being held across the country. As part of the Time for Care offer it is available through the General Practice Forward View and in support of the NHS Long Term Plan.

Attending the programme will provide you with:
- an opportunity to try out quality improvement tools and techniques and apply them to a change challenge of your choice
- reflection and learning with likeminded colleagues from across the country
- an understanding of creating effective relationships to support your work.

It will show step-by-step how to use a number of tools and techniques, helping to build skills and confidence to make changes in your practice. Participants will need to bring a change challenge to work on during the programme - something you really want to improve back at your practice.

Your tutors will be experts in training and using quality improvement to make change happen. They are nurses, practice managers, GPs and coaches with a wealth of training experience.

This two day programme is run on consecutive days with accommodation provided for the middle night. Please note we are unable to reimburse costs for travel expenses and your evening meal.

Our programme received extremely positive feedback and demand is expected to be high so we would encourage you to request a place as soon as possible. A maximum of 35 delegate places are available, once these are filled, we will operate a reserve list.

To request a place please complete the online booking form by 18th October 2019. Link to online booking form: https://www.events.england.nhs.uk/events/time-for-care-quality-improvement-for-general-practice-nurses-66666
