About this bulletin
To minimise the number of emails sent to practices, NHS England and NHS Improvement – South West is using this weekly bulletin as its main method of communicating with practice managers covering the 350 practices in Bristol, Somerset, North Somerset, South Gloucestershire, Devon, Cornwall and the Isles of Scilly. The bulletins contain important information for practice managers, which might include requests for information and deadlines affecting payments, as well as updates on issues relating to GP contracts. We recognise that CCGs with delegated authority may also issue information to practices regarding their areas of specific responsibility, however, the bulletin remains relevant to the practices in those areas in terms of the public health areas for which NHS England and Improvement remain responsible.

Copies of the bulletins and attachments are available on our website: https://www.england.nhs.uk/south/info-professional/medical/dcis/gp-bulletin/

Childhood Vaccination and Immunisation Target Payment Adjustments on May Payment Statements

It has been noted in the May PMS statements there lines for "V&I adjustments for June 2017/2019", we can confirm that these are national adjustments that relate to an error in the original calculation of Childhood Targeted Payments for Q4 2016/17 and Q4 2018/19.

- In respect of quarter 4 2016/17 the 2 year old payment has been underpaid and the pre-school (5year old) has been overpaid
- In respect of quarter 4 2018/19 the pre-school (5 year olds) have been overpaid

These payments were made to GP Practices in June 2017 and June 2019 as per the normal cycle of data collection and processing. No other payments have been impacted and the calculation engine and parameters for the future payments have been validated to provide assurance that the issue will not reoccur. Most Practices have been underpaid and these corrections are what you can see reflected in your May statement. For GMS Practices you may also see similar adjustments in your next statement.
