

Gloucestershire School Aged Immunisation Pathways for the 2020/21 academic year

Introduction

This information aims to support local practices in understanding the school aged immunisations programme for the 2020/21 academic year, including any changes to the schedule. We hope you find this information useful and clear: if you have any comments, suggestions or queries please contact the South West Screening and Immunisations Team on england.swscreeningandimms@nhs.net.

COVID-19

Due to the impact of COVID-19 and school closures in the first half of 2020, the school aged immunisation provider will be offering catch-up doses of Meningitis ACWY, Td/IPV and HPV during the 2020/21 academic year to those cohorts that missed their scheduled doses in the 2019/20 academic year – see below for further details.

Overview of school aged immunisations

From September 2020, the following immunisations will be delivered by the school aged immunisation provider:

- Influenza: Reception to year 7 in mainstream schools, and reception to 18 years old in special schools
- HPV dose 1: Year 8 girls and boys (and catch-up doses to girls and boys who missed a dose in 2019/20 and are now in year 9)
- HPV dose 2: Year 9 girls and boys (and catch-up doses to girls only who missed a dose in 2019/20 and are now in year 10)
- Men ACWY: Year 9 (and catch-up doses to girls and boys who missed a dose in 2019/20 and are now in year 10)
- Td/IPV: Year 9 (and catch-up doses to girls and boys who missed a dose in 2019/20 and are now in year 10)

In Gloucestershire the school aged immunisation provider will continue to follow up all secondary aged children who have missed any vaccinations at school until they leave in Year 11. Every effort will be taken to vaccinate children in school or alternatively appointments will be offered in community clinics.

Gloucestershire school aged immunisation clinic schedule

Please note that the school clinic schedule is shared by Gloucestershire CCG to all GP practices and will be available on the school aged immunisation provider's website: <https://www.ghc.nhs.uk/our-teams-and-services/immunisation/>

The 2020/21 school flu clinic dates are available at the end of this document.

GP checklist

- ☐ **Check that all data on immunisations delivered by the school aged immunisation provider that has been sent to you has been uploaded onto your GP practice patient records.**
- ☐ **Check that all data on immunisations you have given in your practice has been sent to the Child Health (CHIS) team.** This includes any vaccination from the routine schedule given as a travel vaccination. If you are unsure, send it again or contact the Child Health (CHIS) team to discuss this with them.
- ☐ **You will receive a bi-monthly report from CHIS detailing any outstanding immunisations for children and young people aged 6–19.**
- ☐ **Review how young people are invited for vaccinations at your surgery and whether this meets their needs.** Points to consider:
 - Are the sessions outside of school hours?
 - Can the young people get to your surgery for the appointments?
 - Consider evening or weekend sessions for parents to be able to attend appointments too.
 - Are you sending patient information leaflets (PILs) to ensure young people are aware of what they are being invited for?
 - Are you using text messaging reminders?
- ☐ **Make sure you are promoting school aged immunisations through leaflets, posters and through links on your website.**

Vaccination process for HPV

(see page 1 for COVID-19 catch-up cohort details)

The vaccine will be offered to girls and boys in school year 8 (12 to 13-year olds) as part of the school-aged immunisation programme from 1 September 2020.

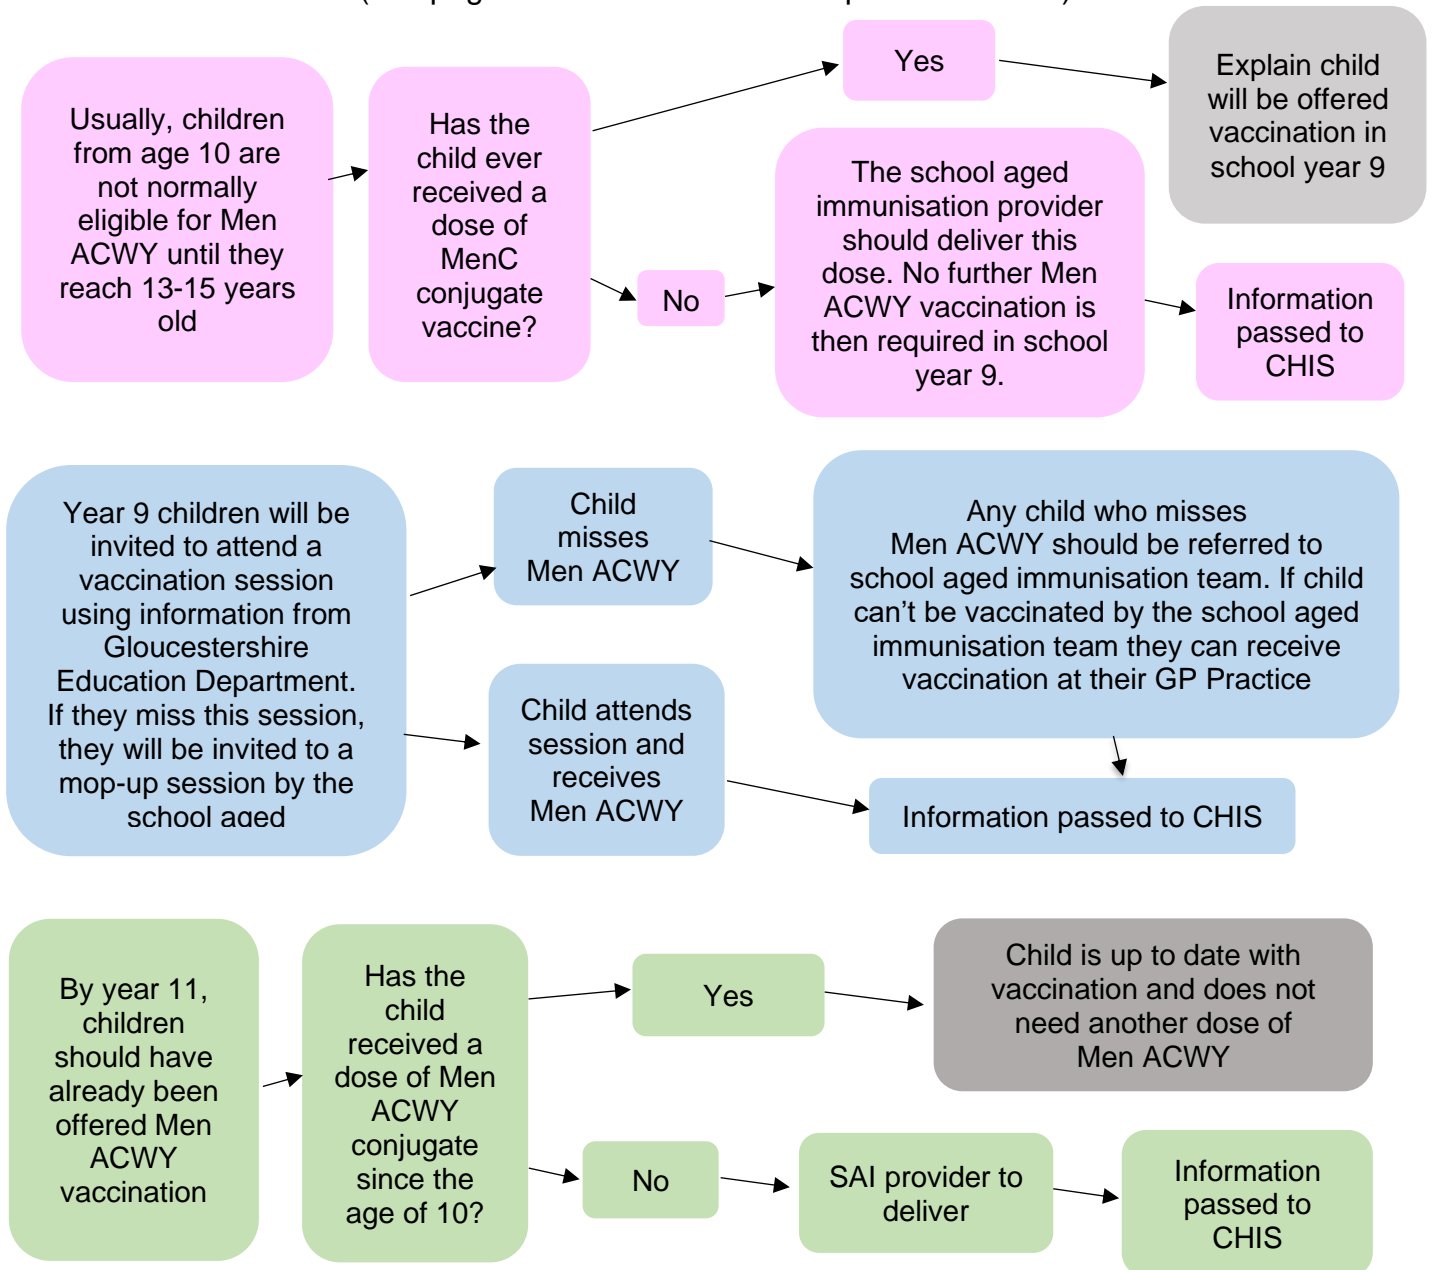

The school aged immunisation provider will deliver any outstanding HPV doses up until Year 11 or a child turns 16.

Young women from the age of 16 to 24 years and 364 days who have missed their HPV vaccination through the school-based programme are eligible to receive the vaccine free of charge from their GP practice.

GP practices will be reimbursed for vaccinations delivered to this cohort.

Vaccination Process for Meningitis ACWY

(see page 1 for COVID-19 catch-up cohort details)

Older groups eligible through opportunistic vaccination

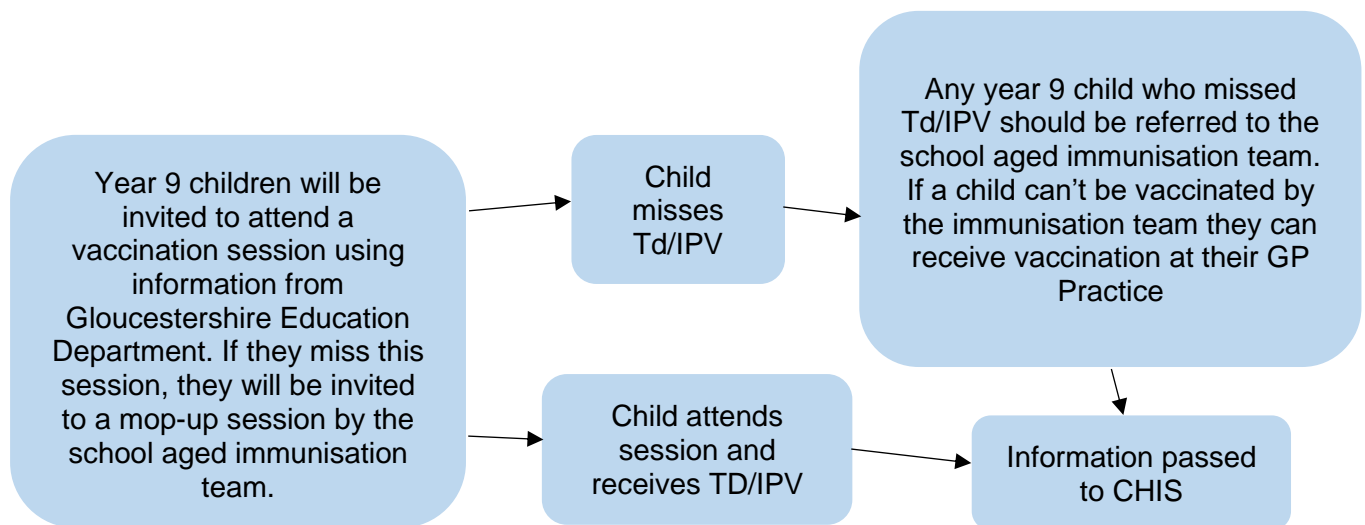

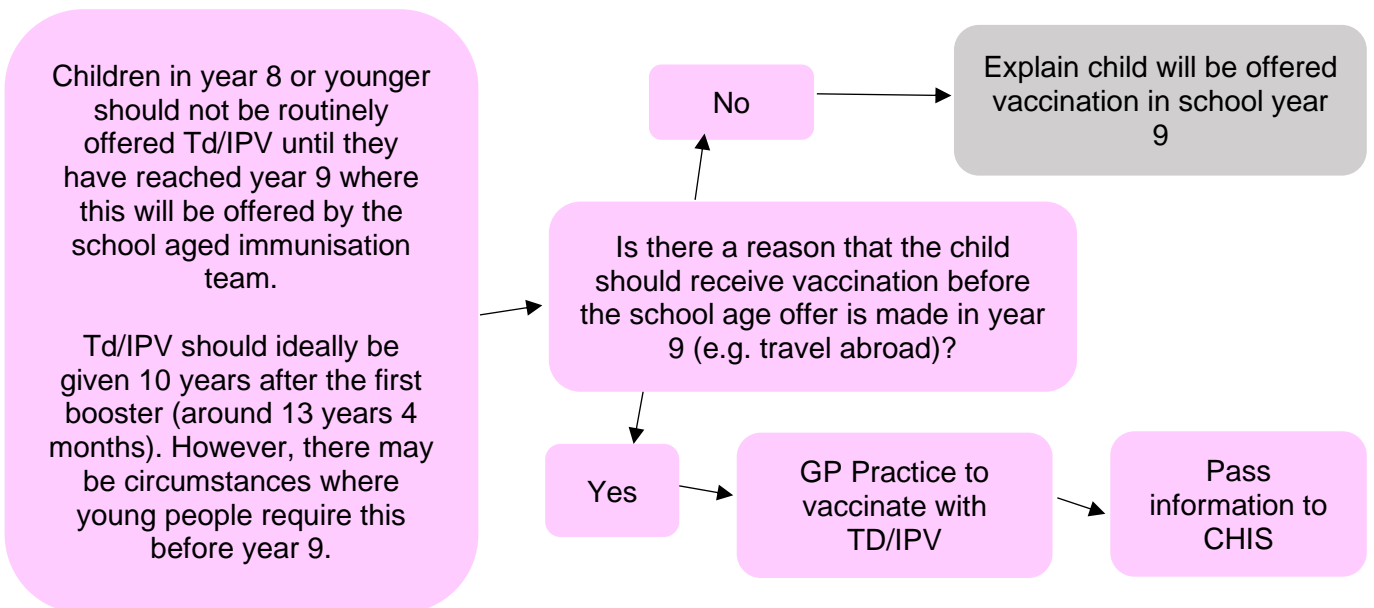

Men ACWY vaccination should be offered by GP practices to eligible young adults aged 17 or older on an opportunistic basis or who self-present at the GP practice; unless immunisation is contraindicated.

Eligible patients must be under the age of 25 years at the time of vaccination and include:

1. those attending university/further education for the first time at the time of vaccination;
2. those aged 19 years on 31 August 2020;
3. those eligible from August 2015 remain eligible up to the day before their 25th birthday;
4. those vaccinated at any time during the period 1 April 2020 to 31 March 2021.

Vaccination Process for Td/IPV (Teenage Booster)

(see page 1 for COVID-19 catch-up cohort details)

Any older children, young people or adults who have missed any dose of Td/IPV should be vaccinated opportunistically in general practice.

Please refer to the [Green Book](#) and the [incomplete vaccination schedule](#) for further information.
