## Pregnant?

**Have your COVID-19 vaccines!**

It is important to have both doses of your COVID-19 vaccine to protect you and your unborn baby.

COVID-19 infection is currently circulating and can be serious for pregnant women.

Thousands of pregnant women have been safely vaccinated in the UK and worldwide.

Call 119 or go online to [www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/](https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/) to register for your vaccination appointment. You can also attend walk in, mobile or pop up vaccination clinics in your area.

**COVID-19 immunisation**

Helping to protect you and your pregnancy
