FURTHER INFORMATION

SCREENING:

Cervical Screening Management System (CSMS) Update

The CSMS holding page is now available via <https://cervicalscreening.nhs.uk>. The dashboard shows that many colleagues have been testing and checking the configuration of their devices (PC / laptop) and their smartcards using this link already. If you have not already done so, please check your access via the link so any access issues can be resolved promptly.

- If there are issues with smartcards not being recognised or authentication then it is likely to be a software issue (the device will need the correct version of Identity Agent and Credential Management installed on the machine. The link [Guidance for IT support - NHS Digital](#) can be passed on to the IT team to check and install the software if required).
- If the error states there is no or an incorrect workgroup on the card then RAs (Registration Authority) and Smartcard Sponsors can resolve the problem – please use the [Guidance for registration authorities - NHS Digital](#) if the following prompts on screen do not help.
- It is vitally important that the workgroup attached to a smartcard is spelt correctly (**cervicalscreening**). In some instances, the workgroup has been spelt incorrectly and gone unnoticed, or the workgroup name has been changed at some point. Simply renaming the workgroup will not work; the

workgroup needs to be removed from the users' card, and the user then readded to the correctly named workgroup.

Data is being collated to confirm that users have successfully managed to check their cards prior to go-live across all organisations. This information is then fed back to the programme for assurance purposes. If the dashboard indicates that no checks have occurred for an organisation, then the Team will be in touch to offer support.

Training (Part 1 – Introduction to CSMS)

The first part of the training for CSMS is now available to users via the NHS Learning Hub ([Learning Hub - Home](#) and search for CSMS). If users have a current e-LfH login, these credentials can be used to access the Learning Hub. Part 2 of the training (more role specific training) will become available in the coming weeks prior to go-live.

VACCINATIONS:

MMR Comms Toolkits, FAQs and Guidance

Please visit our [South West Vaccination & Screening Team FutureNHS site](#) to access a range of national and regional resources to support MMR delivery in your practice, including:

- Our [regional MMR FAQs](#) document (also attached)
- National NHS England MMR FAQs
- Communications resources and toolkits
- Information for primary care, stakeholders and regional teams regarding the MMR call/recall campaign
- Advice on coding and recoding MMR vaccinations

If you have not visited this site before, you will be asked to request access – simply click on the link above, tell us your practice name or code and your job title, and we will grant access as quickly as possible (within working hours). If you require support in registering for a FutureNHS account please visit <https://future.nhs.uk/>.

COVID-19:

No items.

FURTHER INFORMATION

- If you have any questions or feedback about this bulletin, please contact the SW Vaccination & Screening Team at england.swvast@nhs.net. Back issues are available [here](#).
- For advice about Section 7A or COVID-19 vaccinations, or for support following an immunisation incident, please contact ICARS at england.swicars@nhs.net. For more information, please click [here](#).
- For general enquiries, screening related matters or Section 7A public health contracts, please contact england.swvast@nhs.net or [visit our website](#).
- For CQRS payment queries, please contact england.swcqr@nhs.net.
- **Please note:** if there are no items for your information, a Bulletin will not be circulated.
