17 March 2016	Diagnostic imaging dataset for November 2015	N
17 March 2016	Direct access audiology waiting times for January 2016	N
17 March 2016	Mixed sex accommodation breaches for February 2015	N
24 March 2016	Breastfeeding and 12 week risk assessment for Q3 2015/16***	N
24 March 2016****	Critical care bed capacity and cancelled urgent operations for February 2016	N

Notes

* The publication dates for these statistics have changed following the recommendations from Sir Bruce Keogh's review of waiting time standards. Statistics on A&E attendances and emergency admissions will be published monthly rather than weekly. Statistics on waiting times for suspected and diagnosed cancer patients will be published monthly rather than quarterly. All seven sets of statistics will be published on the same day each month.

**Following a review undertaken by NHS England the Lead Official for Statistics has concluded that the characteristics of the Friends and Family Test (FFT) data mean it should not be classed as Official Statistics. From October 2015 all FFT data will be published in a single release on the FFT data pages: <http://www.england.nhs.uk/ourwork/pe/fft/friends-and-family-test-data/>. Historic FFT data and dates for future FFT releases can also be found by following the link above to the FFT data pages. Releasing all FFT data on the same day of the month should be beneficial to users as it will provide a single clear and complete picture of monthly FFT data from all FFT care settings.

*** These statistics will not be released to this timetable pending further consideration by Public Health England and NHS England of future arrangements for production and publication. Further details will be provided as soon as they are available.

**** Due to 25th March 2016 is non-working day, for the critical care bed and cancelled operations has been changed to publish on 24th March 2016.

The list comprises statistical publications which are currently planned. Other publications may be announced in due course.
