

## **Cancer Waiting Times, September 2018 – Provider Based - Provisional**

The latest monthly Official Statistics on waiting times for suspected and diagnosed cancer patients accessing NHS services, produced by NHS England, were released on 08/11/2018 according to the arrangements approved by the UK Statistics Authority.

### **Waiting Times for Cancer Services – September 2018**

The key results for outpatient services and first definitive treatments show that, in England, during the period September 2018:

#### **Two week wait:**

- 91.2% of people were seen by a specialist within two weeks of an urgent GP referral for suspected cancer (91.7% in August 2018)
- 91.8% of people urgently referred for breast symptoms (where cancer was not initially suspected) were seen within two weeks of referral (90.6% in August 2018)

#### **One month (31-day) wait from diagnosis to first definitive treatment:**

- 96.2% of people treated began first definitive treatment within 31 days of receiving their diagnosis, all cancers (97.0% in August 2018)
- 98.1% of people treated for breast cancer began first definitive treatment within 31 days of receiving their diagnosis (98.4% in August 2018)
- 98.9% of people treated for lung cancers began first definitive treatment within 31 days of receiving their diagnosis (98.5% in August 2018)
- 96.6% of people treated for lower gastrointestinal cancers began first definitive treatment within 31 days of receiving their diagnosis (97.1% in August 2018)
- 91.8% of people treated for urological cancers began first definitive treatment within 31 days of receiving their diagnosis (93.6% in August 2018)
- 96.3% of people treated for skin cancers began first definitive treatment within 31 days of receiving their diagnosis (97.3% in August 2018)

#### **Two month (62-day) wait from urgent GP referral to first definitive treatment:**

- 78.2% of people treated began first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP, all cancers (79.4% in August 2018)

- 90.9% of people treated for breast cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP (92.0% in August 2018)
- 72.2% of people treated for lung cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP (74.2% in August 2018)
- 67.8% of people treated for lower gastrointestinal cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP (71.7% in August 2018)
- 67.2% of people treated for urological cancers (excluding testicular cancer) received first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP (67.3% in August 2018)
- 94.4% of people treated for skin cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer by their GP (95.8% in August 2018)

#### **62-day wait extensions**

- 84.8% of patients began first definitive treatment within 62 days of a consultant's decision to upgrade their priority, all cancers (86.3% in August 2018)
- 88.9% of people began first definitive treatment for cancer within 62 days of referral from an NHS cancer screening service, all cancers (90.0% in August 2018)

The key results for waiting times for second or subsequent treatment show that, in England, during the period September 2018:

#### **31-day wait for subsequent treatment:**

- 92.6% of people began treatment within 31 days where the subsequent treatment was surgery (93.8% in August 2018)
- 99.5% of people began treatment within 31 days where the subsequent treatment was an anti-cancer drug regimen (99.5% in August 2018)
- 96.4% of people began treatment within 31 days where the subsequent treatment was a course of radiotherapy (97.1% in August 2018)

More analyses are published as part of this statistical release on the NHS England website.

## **Annex: Missing and partial returns**

SUSSEX COMMUNITY DERMATOLOGY SERVICE (NYG) did not make a submission to the cancer waiting times national portal by the advertised submission deadline for September data for: Two Week Wait From GP Urgent Referral to First Consultant Appointment; One Month Wait from a Decision to Treat to a First Treatment for Cancer; One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Surgery); Two Month Wait from GP Urgent Referral to a First Treatment for Cancer; Two Month Wait Following a Consultant Upgrade to a First Treatment for Cancer.

CONCORDIA COMMUNITY OUTPATIENTS LTD (NHT) did not make a submission to the cancer waiting times national portal by the advertised submission deadline for September data for: Two Week Wait From GP Urgent Referral to First Consultant Appointment; One Month Wait from a Decision to Treat to a First Treatment for Cancer; Two Month Wait from GP Urgent Referral to a First Treatment for Cancer; Two Month Wait Following a Consultant Upgrade to a First Treatment for Cancer.

SOUTH TEES HOSPITALS NHS FOUNDATION TRUST (RTR) made a partial data submission for the following standards: One Month Wait from a Decision to Treat to a First Treatment for Cancer; One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Anti-Cancer Drug Regimen); One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Surgery).

UNIVERSITY HOSPITAL SOUTHAMPTON NHS FOUNDATION TRUST (RHM) made a partial data submission for the following standards: Two Week Wait From GP Urgent Referral to First Consultant Appointment; Two Week Wait Breast Symptomatic (where cancer not initially suspected) From GP Urgent Referral to First Consultant Appointment

CHESTERFIELD ROYAL HOSPITAL NHS FOUNDATION TRUST (RFS) made a partial data submission for the following standards: One Month Wait from a Decision to Treat to a First Treatment for Cancer.

The cancer waiting times system excludes records from the 62 day standards which do not contain a first seen provider. A number of providers have submitted some records without this information. This issue affects data from April 2018. In most cases, the number of records affected is very small.

For the Two Month Wait from GP Urgent Referral to a First Treatment for Cancer, the following providers had more than five records affected where those records contribute to more than 5% of the provider's activity: GUY'S AND ST THOMAS' NHS FOUNDATION TRUST (RJ1), SANDWELL AND WEST BIRMINGHAM HOSPITALS NHS TRUST (RXK), NORTH BRISTOL NHS TRUST (RVJ), UNIVERSITY HOSPITALS BIRMINGHAM NHS FOUNDATION TRUST (RRK), THE NEWCASTLE UPON TYNE HOSPITALS NHS FOUNDATION TRUST (RTD).

For the Two Month Wait from a National Screening Service to a First Treatment for Cancer, the following providers had more than five records affected where those records contribute to more than 5% of the provider's activity: GLOUCESTERSHIRE HOSPITALS NHS FOUNDATION TRUST (RTE).

The combined estimated shortfall of these missing and partial submissions on national activity volumes is given in the table below, excluding UNIVERSITY HOSPITAL SOUTHAMPTON NHS FOUNDATION TRUST (RHM) who provided the notice after the deadline for impact estimation. The estimated impact on national performance is very small (for all measures it was less than 0.3 percentage points and for all but one it was less than 0.1 percentage points)

We are working with the providers concerned to resolve the issues and we will be publishing revisions later this financial year.

<b>Standard</b>	<b>Estimated shortfall in activity</b>
<b>Two Week Wait From GP Urgent Referral to First Consultant Appointment</b>	0.28%
<b>Two Week Wait Breast Symptomatic (where cancer not initially suspected) From GP Urgent Referral to First Consultant Appointment</b>	0.00%
<b>One Month Wait from a Decision to Treat to a First Treatment for Cancer</b>	0.57%
<b>One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Anti-Cancer Drug Regimen)</b>	0.43%
<b>One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Radiotherapy)</b>	0.00%
<b>One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Surgery)</b>	0.31%
<b>Two Month Wait from GP Urgent Referral to a First Treatment for Cancer</b>	1.26%
<b>Two Month Wait from a National Screening Service to a First Treatment for Cancer</b>	0.58%
<b>Two Month Wait Following a Consultant Upgrade to a First Treatment for Cancer</b>	0.65%
