

Cancer Waiting Times, July 2022 - Provider Based - Final

The latest monthly Official Statistics on waiting times for suspected and diagnosed cancer patients accessing NHS services, produced by NHS England and NHS Improvement, were released on 13/04/2023 according to the arrangements approved by the UK Statistics Authority.

Waiting Times for Cancer Services - July 2022

The key results for outpatient services and first definitive treatments show that, in England, during the period July 2022:

Two week Wait:

- 77.6% of people were seen by a specialist within two weeks of an urgent referral for suspected cancer (77.6% in June 2022)
- 68.0% of people urgently referred for breast symptoms (where cancer was not initially suspected) were seen within two weeks of referral (66.3% in June 2022)

One month (31-day) wait from diagnosis to first definitive treatment:

- 92.9% of people treated began first definitive treatment within 31 days of receiving their diagnosis, all cancers (91.9% in June 2022)
- 91.8% of people treated for breast cancer began first definitive treatment within 31 days of receiving their diagnosis (90.4% in June 2022)
- 94.8% of people treated for lung cancers began first definitive treatment within 31 days of receiving their diagnosis (93.5% in June 2022)
- 91.4% of people treated for lower gastrointestinal cancers began first definitive treatment within 31 days of receiving their diagnosis (89.7% in June 2022)
- 92.8% of people treated for urological cancers began first definitive treatment within 31 days of receiving their diagnosis (92.4% in June 2022)
- 90.6% of people treated for skin cancers began first definitive treatment within 31 days of receiving their diagnosis (89.9% in June 2022)

Two month (62-day) wait from urgent referral to first definitive treatment:

- 62.0% of people treated began first definitive treatment within 62 days of being urgently referred for suspected cancer, all cancers (60.3% in June 2022)
- 70.4% of people treated for breast cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (69.7% in June 2022)

- 52.5% of people treated for lung cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (51.6% in June 2022)
- 44.7% of people treated for lower gastrointestinal cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (41.4% in June 2022)
- 51.6% of people treated for urological cancers (excluding testicular cancer) received first definitive treatment within 62 days of being urgently referred for suspected cancer (50.3% in June 2022)
- 85.4% of people treated for skin cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (85.5% in June 2022)

62-day wait extensions

- 75.0% of patients began first definitive treatment within 62 days of a consultant's decision to upgrade their priority, all cancers (74.7% in June 2022)
- 70.4% of people began first definitive treatment for cancer within 62 days of referral from an NHS cancer screening service, all cancers (67.3% in June 2022)

The key results for waiting times for second or subsequent treatment show that, in England, during the period July 2022:

31-day wait for subsequent treatment

- 82.4% of people began treatment within 31 days where the subsequent treatment was surgery (80.5% in June 2022)
- 98.4% of people began treatment within 31 days where the subsequent treatment was an anti-cancer drug regimen (98.0% in June 2022)
- 92.3% of people began treatment within 31 days where the subsequent treatment was a course of radiotherapy (91.2% in June 2022)

The key results for waiting times for urgent referral to a patient being told they have cancer, or that cancer is definitively excluded show that, in England, during the period of July 2022:

28-day Faster Diagnosis (All Routes):

- 71% of people were told by a specialist if they had cancer, or if cancer was definitively excluded within four weeks (28-days) of an urgent referral (70.3% in June 2022)
