

Cancer Waiting Times, June 2023 - Provider Based - Provisional

The latest monthly Official Statistics on waiting times for suspected and diagnosed cancer patients accessing NHS services, produced by NHS England and NHS Improvement, were released on 10/08/2023 according to the arrangements approved by the UK Statistics Authority.

Waiting Times for Cancer Services - June 2023

The key results for outpatient services and first definitive treatments show that, in England, during the period June 2023:

Two week Wait:

- 80.5% of people were seen by a specialist within two weeks of an urgent referral for suspected cancer (80.8% in May 2023)
- 74.7% of people urgently referred for breast symptoms (where cancer was not initially suspected) were seen within two weeks of referral (75.2% in May 2023)

One month (31-day) wait from diagnosis to first definitive treatment:

- 91.3% of people treated began first definitive treatment within 31 days of receiving their diagnosis, all cancers (90.3% in May 2023)
- 90.7% of people treated for breast cancer began first definitive treatment within 31 days of receiving their diagnosis (89.3% in May 2023)
- 92.4% of people treated for lung cancers began first definitive treatment within 31 days of receiving their diagnosis (90.9% in May 2023)
- 88.9% of people treated for lower gastrointestinal cancers began first definitive treatment within 31 days of receiving their diagnosis (87.5% in May 2023)
- 91.0% of people treated for urological cancers began first definitive treatment within 31 days of receiving their diagnosis (90.1% in May 2023)
- 89.5% of people treated for skin cancers began first definitive treatment within 31 days of receiving their diagnosis (88.6% in May 2023)

Two month (62-day) wait from urgent referral to first definitive treatment:

- 59.2% of people treated began first definitive treatment within 62 days of being urgently referred for suspected cancer, all cancers (58.7% in May 2023)
- 70.8% of people treated for breast cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (68.6% in May 2023)

- 47.1% of people treated for lung cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (45.2% in May 2023)
- 41.8% of people treated for lower gastrointestinal cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (38.2% in May 2023)
- 48.6% of people treated for urological cancers (excluding testicular cancer) received first definitive treatment within 62 days of being urgently referred for suspected cancer (49.4% in May 2023)
- 85.5% of people treated for skin cancers received first definitive treatment within 62 days of being urgently referred for suspected cancer (85.2% in May 2023)

62-day wait extensions

- 72.9% of patients began first definitive treatment within 62 days of a consultant's decision to upgrade their priority, all cancers (73.1% in May 2023)
- 62.2% of people began first definitive treatment for cancer within 62 days of referral from an NHS cancer screening service, all cancers (61.7% in May 2023)

The key results for waiting times for second or subsequent treatment show that, in England, during the period June 2023:

31-day wait for subsequent treatment

- 79.0% of people began treatment within 31 days where the subsequent treatment was surgery (76.6% in May 2023)
- 98.0% of people began treatment within 31 days where the subsequent treatment was an anti-cancer drug regimen (97.3% in May 2023)
- 86.6% of people began treatment within 31 days where the subsequent treatment was a course of radiotherapy (85.2% in May 2023)

The key results for waiting times for urgent referral to a patient being told they have cancer, or that cancer is definitively excluded show that, in England, during the period of June 2023:

28-day Faster Diagnosis (All Routes):

- 73.5% of people were told by a specialist if they had cancer, or if cancer was definitively excluded within four weeks (28-days) of an urgent referral (71.3% in May 2023)

More analyses are published as part of this statistical release on the NHS website.

Annex A: Missing and partial returns

The cancer waiting times system excludes records from the 62 day standards which do not contain a first seen provider. For the Two Month Wait from a GP Urgent Referral to a First Treatment for Cancer, University Hospitals Of Leicester NHS Trust (RWE), Mid And South Essex NHS Foundation Trust (RAJ) and Walsall Healthcare NHS Trust (RBK) have submitted some records without this information.

Due to technical issues with the Cancer Waiting Times data collection system, the Two Month Wait from GP Urgent Referral to a First Treatment for Cancer standard has some activity from non site specific referrals included in June 2023 provisional data. This activity is intended to be in scope from July 2023 data as detailed in the cancer waiting times guidance v11.1. The impact of this additional activity is to increase activity by 0.53% and decrease performance by 0.03 percentage points.

The estimated shortfall or excess of these missing, partial submissions and system issues on national activity volumes is given in the table below. The estimated impact on national performance is very small (on average it was 0.02 percentage points or less).

We are working with the providers concerned and system IT developers to resolve the issues and we will be publishing revisions later in the year.

Standard	Estimated shortfall in activity
Two Week Wait From GP Urgent Referral to First Consultant Appointment	0.00%
Two Week Wait Breast Symptomatic (where cancer not initially suspected) From GP Urgent Referral to First Consultant Appointment	0.00%
One Month Wait from a Decision to Treat to a First Treatment for Cancer	0.00%
One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Anti-Cancer Drug Regimen)	0.00%
One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Radiotherapy)	0.00%
One Month Wait from a Decision to Treat to a Subsequent Treatment for Cancer (Surgery)	0.00%
Two Month Wait from GP Urgent Referral to a First Treatment for Cancer	0.27%
Two Month Wait from a National Screening Service to a First Treatment for Cancer	0.16%
Two Month Wait Following a Consultant Upgrade to a First Treatment for Cancer	0.00%
Four Week (28 days) Wait From Urgent Referral to Patient Told they have Cancer, or Cancer is Definitively Excluded	0.00%
