

All-Party Parliamentary Group Meeting

New congenital heart disease review

**Professor Sir Bruce Keogh,
National Medical Director
Michael Wilson, Programme
Director**

The Challenge

- The Best Outcomes
- Consistently Meeting Standards
- The Best Patient Experience

The Challenge (2)

- Standards Driven
- No Pre-conceived Answers
- The Health of the Service
- Delivery at Pace ↔ Inclusivity
- Scope

Scope

In scope

- a) Improving the quality of care for people with suspected or diagnosed CHD along the whole patient pathway:
 - Fetal diagnosis of CHD
 - Pre-natal care
 - Care for children and young people
 - Transition from children's services to adult
 - Care for adults
 - End of life care
- b) Care and support for families suffering bereavement or poor outcomes
- c) All care for CHD commissioned by the NHS for people living in England.

Scope (2)

To be decided

- Relationship to devolved administrations?
- Intensive care services?
- Other related clinical services?

Developing the Proposition

No decisions have been taken

What do we need to do?

1. Service specification
2. Activity / Capacity
3. Change management approach

Openness & Transparency

- Blog
- Publication Scheme
- Managing Interests
- Seeking Input As We Go
- Engagement Groups
- Targeted Engagement
- Consultation on Specification

Decisions and advice
