Work with DH to streamline approval procedures, and thus ensure an appropriate balance of tight control and responsiveness is continuing.

Actions required by Board Members:

- The Board is asked to note the work of the committee.

Efficiency Controls Committee Report

1. The objective of the committee is to approve expenditure on activities relating to NHS England's functions that are subject to DH and Cabinet Office controls utilising, where appropriate, the delegated financial limits set out in the Standing Financial Instructions for members in attendance (the committee has no delegated budgetary authority of its own).
2. Following the establishment of the finance & investment committee (FIC), the ECC is focused on approval of short term revenue business cases, with FIC scrutinising long term commitments, capital and property related business cases as well as wider issues of financial policy, performance and budgetary control.

The number of cases considered at each meeting, and their outcome is as follows:

3. Work is ongoing with the DH to ensure a consistent and efficient application of the controls appropriate to a major Arms Length Body (and specifically the requirements for NHS England, DH, Ministerial and/or Cabinet Office approval). This has shown dividends, with welcome steps to rationalise key processes and approval flows.
