

Securing Excellence in GP IT Services: Operating Model, 2nd edition (2014-16)

GP IT Financial Allocations for 2014-15

April 2014

Introduction

1. This document confirms the financial allocations for CCGs and area teams for GP IT during 2014-15, in line with *Securing Excellence in GP IT Services: Operating Model, 2nd edition (2014-16)* (the GP IT operating model). Allocations will be made as month 1 or 2 adjustments to operating budgets.
2. This allocation is made on the basis that the CCG will deliver *Securing Excellence in GP IT Services: Operating Model, 2nd edition (2014-16)*.
3. Funds allocated for GP IT investment must be used only for primary care IT as defined in the GP IT operating model.
4. CCGs are accountable for any financial risks associated with over-spending.
5. If CCGs forecast underspending in-year, NHS England may decide to reallocate the funding. Clear standing financial instructions must be established between commissioners and delivery organisations.
6. CCGs and their GP IT delivery partners must follow all necessary financial guidance and processes in relation to provision of GP IT services e.g. NHS England's Capital Accounting Guidance. Additionally, CCGs must comply with NHS England Standing Financial Instructions (SFIs) when expending/deploying GP IT funds and exploit appropriate national framework contracts to ensure value for money.
7. CCGs will be expected to share their detailed GP IT spend with NHS England as part of the Primary Care Digital Maturity Index (PCDMI) exercise.
