1 Introduction

From 1 April 2013, the NHS Commissioning Board adopted the name NHS England, a name that gives people a greater sense of our role, scope and ambitions - as the organisation responsible for allocating the NHS budget, working to improve outcomes for people in England and ensuring high quality care for all, now and for future generations.

Our legal name remains the NHS Commissioning Board as set out in our establishment orders. While the NHS Commissioning Board will be known as NHS England in everything that we do, there are times when the statutory name is required for legal and contractual transactions. The following list provides some key examples of legal documentation which requires us to use our full legal name:

- Human resources (HR) contract of employment;
- Any documentation involving a court of law, e.g. litigation claims
- Contracts for directly commissioned services.

For ease of reference NHS England is the generic term used throughout this policy.

2 Aims

The standard operating procedure for primary care support (PCS) sets out the process to be followed to ensure a consistent approach is followed for processing applications for inclusion in NHS England’s national medical performers lists in accordance with the National Health Service (Performers Lists) (England) Regulations 2013.

The procedure details the steps to be taken in preparation of the assessment pack for consideration by area team’s medical director/RO or nominated deputy.

The aim of the procedure is to enable NHS England to make informed decisions about applications for inclusion in the national medical performers lists and assure itself of the suitability of NHS primary care medical performers it includes.

This procedure also includes details of how to manage the list in respect of changes in circumstance/status and transfer between area teams.

SOPs for PCS have also been developed for processing applications for inclusion in NHS England’s national ophthalmic and dental performers lists.
3 Background

Medical performers wishing to provide medical services in primary care within the NHS must be included in the national medical performers list.

NHS England’s Board has given delegated responsibility, currently to NHS England’s area teams, to assess applications from primary medical performers for inclusion in NHS England’s national performers lists.

Approval of the application rests with the medical director/RO or nominated deputy of NHS England’s area team, where an application is straightforward and without concerns or where mandatory refusal is required.

If the medical director/RO has any concerns, a meeting of the performance advisory group (PAG) will be arranged to consider the application. If a decision regarding conditional inclusion or refusal is required the application will then be passed to the performers list decision panel (PLDP) for consideration.

4 Governance arrangements

There are 27 area teams within NHS England; each has an appointed medical director/RO.

Performers are required to be connected to an appropriately qualified clinician in an area team who is currently the medical director/RO.

The area team to which the performer should be aligned may differ depending on their place of work or their place of residence.

Performers who work at more than one practice should apply and be assigned to the area team where they are based for the majority of their time.

In the case of performers who have not yet secured a place of work, the area team to which they are assigned will be determined by their UK home address as recorded by the General Medical Council (GMC). However it is possible that the performer may have provided the GMC with their home address in their country of origin when they first registered. In this case the applicant should be advised to notify the GMC to amend their records to reflect the UK home address.

Medical performers whose home address is outside of England and who have not secured a place of work but can demonstrate a significant plausible intention to
practise in England and are eligible to be on NHS England’s national performers list, will be linked to the area team as detailed in the table below:

<table>
<thead>
<tr>
<th>GMC registered address is in:</th>
<th>Area team Medical Director/RO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Scotland</td>
<td>Cumbria, Northumberland and Tyne and Wear</td>
</tr>
<tr>
<td>North Wales</td>
<td>Shropshire and Staffordshire</td>
</tr>
<tr>
<td>South Wales</td>
<td>Arden, Herefordshire and Worcestershire</td>
</tr>
<tr>
<td>Channel Islands</td>
<td>Wessex</td>
</tr>
<tr>
<td>Northern Ireland</td>
<td>Merseyside</td>
</tr>
<tr>
<td>Isle of Man</td>
<td>Merseyside</td>
</tr>
<tr>
<td>Elsewhere outside the UK</td>
<td>London North West</td>
</tr>
</tbody>
</table>

Once a performer has been included in the national performers lists and the performer changes the area or practice where he or she carries out the majority of his or her work, the performer is responsible for notifying the area team where they will be working, as soon as practical. Performers should complete the relevant change notification form (NPL 2 or 3) and submit this to the PCS office.

5 Scope

This SOP covers the steps to be taken from:

- Receipt of an application form for inclusion in the national medical performers list.
- Submission of the assessment pack to the area team medical director/RO with a summary of information provided and any information of note flagged.
- Notifying the applicant of the area team’s decision.
- Completing entries on the payments system and primary care information system (PCIS).
- Administering changes to the performers list regarding change of circumstance/ status and transfer between area teams.
6 Application process

The electronically completed application form should be sent to the PCS service who will check if the applicant has indicated under Section 3: Professional details – Performers List History if they are currently on the performers list in England by referring to the primary care performers directory (https://nww.openexeter.nhs.uk/nhsia/index.jsp) At this stage, the PCS service will also verify that the applicant is applying to the correct area team.

Applications received from performers who have been nationally disqualified from the performers list on the grounds of suitability or fraud cannot be considered until a minimum period of two years has past following the applicant’s removal from the list.

If following review of the application it is evident that the performer was nationally disqualified within the previous two years, the application should be returned to the applicant with an explanation why it cannot be progressed.

If an existing live entry for England is found on the primary care performers directory then process the application as a transfer to another area team, as detailed later within this document. This would not be considered as an application to join the performers list.

It should however be noted that a performer can have concurrent performer list entries with a Welsh, Northern Ireland or Scottish Health Board but only one list entry in England.

Once it has been established that the applicant does not have a live entry for England then the application may be processed as follows.

6.1 Meeting the applicant

Applicants must make an appointment with the PCS office to submit their supporting documentation in person in respect of their application for inclusion in the medical performers list.

All applicants must submit the following:

1. An electronically completed application form (hand written application forms will no longer be accepted). The application should have already been
received by the PCS office, however the applicant should have a copy with them when they attend the appointment.

2. An enhanced disclosure and barring certificate.

3. An occupational health clearance certificate from an NHS occupational health provider or from a Safe Effective Quality Occupational Health Service (SEQOHS) accredited occupational health provider.

4. Current passport (original) or (where the applicant does not have a passport) an acceptable photo ID (original) as defined on the Disclosure and Barring Service website.

5. Curriculum vitae.

6. Copy of most recent appraisal – where available.

7. Evidence of membership of a professional defence organisation, at appropriate level.

Applicants from outside the UK must also include with their application the following documents:

1. A certificate of good standing from their relevant professional body.

2. Work permit (non EEA applicants to UK after 1985 only).

Applicants who cannot provide UK residency details for last five years must also include with their application:

1. A police check to identify any criminal activity the applicant has been involved in while outside of the UK – this is required for all countries the applicant has been resident in their absence from the UK.

Documents demonstrating communication skills:

Applicants who have studied or trained in the UK or Irish Republic must provide:

1. A certificate of graduation or postgraduate training from a UK or Irish Republic medical school;

If applicants have not studied or trained in the UK or Irish Republic, they must provide one of:
1. A certificate indicating a pass obtained within the last two years of one of the current accepted language tests (or equivalent), at the required level of IELTS 7.5 or equivalent as defined by the regulator. (Details of the standard are found in the application form for inclusion in the national performers lists NPL1); or

1b A certificate of graduation or postgraduate training within the past two years from a recognised medical school taught and examined in English; (Please refer to the general information section of this document for a list of countries where the first and native language is English)

AND one of

2. Evidence of three months professional employment from the past two years in a country where English is the first language, and current English language capabilities necessary for the work which those included in the list could reasonably be expected to perform are documented in the references submitted as part of the application form; or

2b Agreement to a face to face oral assessment of English language skills in a clinical context with a clinician identified by the area team with a fee payable by the applicant to cover the cost of a face to face oral assessment.

6.2 Disclosure and Barring Service (DBS)

Previously, a certificate issued by the Criminal Records Bureau was a requirement. This certificate is no longer acceptable as it has been superseded by an enhanced disclosure and barring certificate issued by the DBS. Details can be found at: https://www.gov.uk/dbs-update-service.

The disclosure and barring update service applicant guide, dated January 2014 states that subscription to the online update service is not a requirement of the DBS but some organisations may make subscription a condition of employment. NHS England has placed this requirement on all applications to the performers list.

In addition it is a requirement that applicants must register for the online update service within 14 days of the certificate being issued. This subscription to the DBS online update service must be renewed every year and is at the cost of the applicant. Verbal or written consent must be obtained from the applicant for NHS England to undertake status checks on the DBS certificate. Alternatively the PCS office may request an enhanced disclosure and barring certificate from the DBS on the applicant’s behalf if they have provided a completed
DBS application form together with the relevant fee and written consent that NHS England may undertake status checks on the completed DBS certificate.

Applicants must then register themselves for the online update service either using the application form reference number or within 14 days of the certificate being issued, using the certificate number. As stated above, annual subscription to the DBS online update service is at the cost of the applicant.

Once the applicant has registered with the DBS online service and consent has been received from the applicant that the information held by the DBS may be directly accessed, an online check must be undertaken as part of the application process.

In the interest of NHS performers and patient safety, NHS England recommends that when the applicant attends the PCS offices an identity check is completed to the standard as set out on the DBS website. ([http://www.gov.uk/disclosure-barring-service-check](http://www.gov.uk/disclosure-barring-service-check)). This is the standard ID verification process recommended by the Home Office, NHS Employers and the DBS.

### 6.3 Police check and certificate of good standing

The police check to identify any criminal activity the applicant has been involved in while outside of the UK should be obtained by the applicant by contacting the Home Office or Embassy (guidance is available on the DBS website).

The certificate of good standing should be obtained by the applicant by contacting their registered professional body.

Where a police check or certificate of good standing is required, this should be supplied in English and if not in English, the applicant must provide a translation that has been issued in the UK and signed by an official translator.

All documents must be originals. However as some defence organisations now only issue electronic certificates, applicants may present their printed certificate as evidence of membership.

Photocopies cannot be accepted. A certified translation must be provided if the original documents are in a language other than English.

Please note: It is the responsibility of the applicant to obtain all information required for the application.

At the meeting with the applicant, the PCS service will:
1. Create a medical performers list admission checklist (Annex B) for use throughout the process. This checklist highlights all actions which need to be undertaken and records the responses received prior to submitting the assessment pack to the medical director/RO.

2. Check that NPL1 form is completed and signed. If the equality and diversity monitoring form is also submitted it should be detached from the form. The information should be scanned and stored electronically and the form subsequently shredded or disposed of in the confidential waste.

3. Check that the names of two clinical referees have been identified.

4. Review all the required supporting documents listed above to ensure that they are relevant and in date for the post applied for e.g. the professional indemnity must be commensurate with the post and in date. Particular attention should be paid to the visa, work permit and photo ID pages of the applicant’s passport. Record passport issue number on the medical performers list admission checklist.

5. Check that the applicant has provided a DBS enhanced disclosure certificate and subscribed to the online update service or supplied the relevant fees and documentation for an application to be made. The PCS service will use the online update service to undertake status checks for any information added to the applicant’s disclosure since the date of the certificate. Once the certificate has been checked online, if all categories are satisfactorily completed as ‘None Recorded’ this should be recorded on the medical performers list admission checklist. Where any other information is recorded on the certificate, a copy of the certificate should be included in the pack sent to the medical director/RO.

6. Complete the medical performers list admission checklist to show all required documents have been seen. Photocopy the original documents and endorse the copies ‘originals sighted’ together with the date and signature of verifier. Sensitive financial data should be obscured before copying. The original documents should then be handed back to the applicant, in line with NHS England’s information governance policy.

6.4 Review of the information on the medical performers list application (after meeting with applicant)

Throughout the review of the information on the medical performers list application, any information of note that is not specifically detailed below must be entered onto
the medical performers list admission checklist. This could include any concerns over communication skills.

Section 1 Personal details

Work permits/right to remain/highly skilled migrant programme

- If the applicant’s work permit/right to remain has an end date, note this on the medical performers list admission checklist and PCIS.

- It is the responsibility of all employers or contractors who subsequently employ or engage the applicant to check the validity of the work permit/right to remain.

- The applicant once admitted to the performers list has a duty to inform the area team should the work permit/right to remain status change.

If the applicant has supplied or is required to supply a certificate of good standing or police check, this should be noted on the medical performers list admission checklist. The documentation must be translated into English and should be included in the pack to be sent to the medical director/RO.

Section 2 Practice details

There are no actions under this section for the PCS service.

Section 3 Professional details

a) GMC registration

All practitioners’ registrations can be viewed on the GMC web site: http://www.gmc-uk.org/doctors/register/LRMP.asp

A print of the applicant’s information displayed on the screen should be taken for the file.

Should the website check not provide details of the doctor concerned, contact the GMC phone line – Tel: 0845 3573456 and follow the voicemail instructions, to check that the doctor:

- holds full and unrestricted registration;

- is “registered with a licence to practice”; and
is “included in the GP Register”

When prompted, request a fax reply (using a ‘safe haven’ fax number) to receive confirmation of the registration status.

If there are restrictions entered against the doctor you will be transferred from the automated line to a member of staff, who will confirm verbally that there are restrictions/information of note against the GP. The GMC will provide written confirmation of the advice given via the PCS safe haven fax number but a request for this information must be faxed or emailed to the GMC. Obtain a secure email address and send a request for the written confirmation of the restrictions/information of note.

Record the outcome of the GMC registration check on the medical performers list admission checklist.

b) Professional experience

Review against the information provided in the application form (NPL1) and in the applicant’s CV for consistency. Check for any unexplained gaps between appointments or any unusual patterns in employment e.g. return to UK after working abroad, a prolonged break between training and entry into practice. Where there are unexplained gaps in service, seek further explanation from the applicant.

Note any factual observations on the medical performers list admission checklist for inclusion in the assessment pack and submission to the responsible officer/medical director.

c) Performers list history

For any live inclusions in Scotland, Northern Ireland or Wales, check with the relevant health board(s) to ensure that there are no ongoing issues or areas of concern by emailing or posting an enquiry (Annex C) with a copy of the applicant’s consent by way of section 8: undertakings in the application pack. Note the date of the enquiry on the medical performers list admission checklist. If no reply received after two weeks, chase again and follow up in one week. If a reply has still not been received, chase again but also escalate to the head of the PCS team to contact the health board.

Check the form for the applicant’s disclosure of any refusals, conditions, suspensions or removals from performers lists and note on the medical performers list admission checklist.
Check the applicant’s response to any sanctions, conditions or suspensions by the registration body, employer or other NHS body and if a declaration has been made note on the medical performers list admission checklist.

d) Appraisal

Check that the applicant has provided information relating to the appraisal/revalidation cycle (if applicable) and if not, that reasons have been given.

Note these details on the medical performers list admission checklist.

Section 4

Communication skills

Verify the information provided by the applicant (see section 4: communication skills, in the national performers lists application form (NPL1)) with reference to the documents provided with the application.

Note the findings on the medical performers list admission checklist.

Section 5

Clinical references

If the applicant has provided NHS net email accounts for the referees, send a reference request (Annex D) to each of the two nominated persons via email from the section’s generic NHS net account. Alternatively, post the requests first class or if abroad, by airmail. If posting overseas, ensure that the covering letter includes the required paragraph regarding proof of professional status.

If a referee does not have an NHS net email address the applicant and the referee must be informed that NHS England cannot guarantee that information transferred is secure in accordance with NHS England’s information governance policy. If both the applicant and referee accept that the security of the information transferred cannot be guaranteed, this must be confirmed in writing (via email) by both parties and then the alternative email addresses provided may be used.

On the medical performers list admission checklist record the date the reference requests are sent and diarise to check in three weeks if replies have been received. If not, contact the referees again and follow up in seven days. If replies have still not
been received, send another reminder and ask applicant for an alternative referee in order to begin the process again.

References received by post must be the original document and authenticated by the practice stamp or be written on letter headed paper.

References received by email or fax may be accepted provided the email security guidance is complied with (as stated above).

On receipt of the references, check the GMC registration of the referee. Print a copy of the entry (as per GMC registration check previously outlined) and attach to the reference to send to the medical director/RO when forwarding the application for consideration.

If the referee is from overseas, ensure proof of professional status has been received and attach to the reference when sending to the medical director/RO.

Update medical performers list admission checklist.

If the reference contains any information of note these should be recorded on the medical performers list admission checklist.

Normally two references should be provided by appropriate clinicians, referring to the applicant’s recent work history and confirming that they have known the applicant in a professional capacity for a period of three months. However, if references do not relate to recent posts or for a period of at least three months employment, an explanation of why it is not possible to provide the required reference must be requested.

Occasionally an applicant may be unable to provide two recent clinical references. The acceptance of one clinical reference will only be made in exceptional circumstances and in these instances the area team should determine if this reference demonstrates sufficient clinical competence to allow conditional admission to the performers list. The condition should stipulate that the applicant must supply the second satisfactory clinical reference within three months of working in their new practice. Clinical references must be submitted with the application using NHS England’s standard reference template.

Section 6

Additional information
Carefully review any additional information provided and note any significant comments on the medical performers list admission checklist.

**Section 7**

Declarations

If the applicant has replied ‘yes’ to any of the conviction/investigation/disqualification questions in the declarations sections, these should be noted on the medical performers list admission checklist.

**6.5 Checks with fraud, litigation and other professional organisations (as required)**

**NHS Protect**

- Email NHS Protect (Annex E) at hsca@nhsprotect.gsi.gov.uk to check whether there are or have been investigations on the applicant. **This email MUST be sent from an NHS Net email account.**

  NHS Protect will reply by email within three working days. If a reply is not received send a second request by e-mail set with high importance requesting an urgent reply or ring NHS Protect on 0191 204 6307 or Fax 0191 204 6320.

- Note the outcome of the enquiry on the medical performers list admission checklist.

**NCAS**

- Email NCAS (Annex E) at ncas.listenquiries@nhs.net to check whether there are or have been any investigations on the applicant. **This email MUST be sent from an NHS Net email account.**

- NCAS are prompt with replies. If a reply is not received within five working days send a second request by e-mail set with high importance requesting an urgent reply.

- Note the outcome of the enquiry on the medical performers list admission checklist.

**NHS Litigation Authority (NHSLA)**

Access the NHSLA web site at www.fhsau.nhsla.nhs.uk.
Log in and search using the applicants GMC number, surname or date of birth and print off a copy of the findings for the file. If there is anything to report the NHSLA will email a link from which the details can be accessed.

These details may indicate if the performer:

- is the subject of a national disqualification or application;
- has been refused admission or conditionally included;
- has been removed; or
- is currently suspended from the NHS performers list.

Note the outcome of the enquiry on the medical performers list admission checklist.

6.6 Doctor’s national code (DI number)

A DI (prescribing) number is required for GP performers excluding GP trainees and locums.

Complete the D17 excel template (Annex F) and email to ‘enquiries@hscic.nhs.uk’ for confirmation of the GPs index number.

The forms are dealt with by the NHS Information Centre (NHS IC). Enter in the diary three weeks prior to the start date, and if the number has not been received, contact IC to chase response. On receipt of the DI number, make a note on the medical performers list admission checklist ready for use when the performer is admitted to this list.

Please note that the DI number should be communicated to the performer and where appropriate the NHS Business Support Authority (BSA), the practice, the PCS finance (payments) and patient data departments.

6.7 GP trainees

Inclusion on the medical performers list must take place within three months of starting a foundation training scheme with application submitted prior to starting.

6.8 Non-progressed applications

If the applicant withdraws their application or after three months, following the date of receipt of the application, the performer has failed to provide the necessary documentation, e.g. work permit, language certificate, the medical director/RO should
be notified. The medical director/RO may disclose information about an applicant, should they deem this appropriate to those parties set out in The National Health Service (Performers Lists) (England) Regulations 2013, part 21 (1).

The medical director/RO should then inform the PCS service that it is authorised to notify the applicant that the application is closed and will not be proceeding (Annex G). This action should be recorded on the medical performers list admission checklist.

6.9 Sending the application to the medical director/RO

All details of the application must be noted on the medical performers list admission checklist, which must be signed as complete and counter signed by the PCS section manager to confirm the process has been satisfactorily followed. The following information should then be sent electronically, from an NHS.net email account, to the medical director/RO’s NHS.net email account or an appropriate designated NHS.net email account as directed by the medical director/RO.

The information sent must include:

- the completed and signed medical performers list admission checklist;
- the completed application form;
- two clinical references;
- most recent appraisal (as appropriate);
- occupational health clearance certificate; and
- any information where there is information of note.

The medical director/RO will review the information received, note their decision, sign and date the medical performers list admission checklist accordingly.

Incomplete packs sent to the medical director/RO will be returned and not considered.

On receipt of a decision to include the applicant on the list by the medical director/RO, the applicant should be informed of the decision (Annex G). If a decision has been taken to conditionally include, refuse or defer the application, the area team will provide details for a suitable letter to be sent to the applicant. Once
the applicant has been informed of the outcome this should be entered onto the medical performers list admission checklist.

Where the applicant has been included/conditional included in the performers list, enter their details onto payments system and PCIS, send BSA memo, contact the Pension Agency and update the medical performers list admission checklist including national code.

On completion of the application process, all hard copy correspondence should be scanned, filed electronically as outlined on the medical performers list admission checklist and the hard copies should then be shredded or disposed of in the confidential waste.

7 Management of the performers list

7.1 Change of circumstance/status

A change to a performer’s circumstances may come to the attention of the PCS service in a number of ways. This may be on receipt of a completed change notification form (NPL3), letter or email.

7.2 Processing a change of name

On receipt of a notification from the performer that they have changed their name, the PCS service will:

- send an acknowledgement letter to the performer confirming receipt of the notification of change if the change cannot be processed within five working days. (Annex I) and then proceed with the following checks. In circumstances where the change can be processed within five working days, an acknowledgement letter would not be required; and
- check GMC web site (http://www.gmc-uk.org/doctors/register/LRMP.asp) to ensure the change of name has been notified and made on the performers registration.

If the change of name has been made by the GMC, save an electronic copy of the performer’s information displayed on the screen to the performer’s file.

Update all relevant databases and directorates as appropriate and send a confirmation letter to the performer, stating that the change had been made. (Annex J)

If the change in name has not been made to the GMC registration details, then the template letter (Annex K) should be sent to the performer to advise that their details
as held by NHS England cannot be changed until the change has been affected by the GMC.

7.3 Processing a change of address

On receipt of a notification from the performer that they have changed their address the PCS service will update all relevant databases and directorates as appropriate and send a confirmation letter to the performer, stating that the change had been made. (Annex J)

7.4 Processing a change of status

On receipt of a notification from the performer that they have now qualified, the PCS service will:

- send an acknowledgement letter to the performer confirming receipt of the notification of change if the change cannot be processed within five working days. (Annex I) and then proceed with the following checks. In circumstances where the change can be processed within five working days, an acknowledgement letter would not be required; and

- check GMC web site (http://www.gmc-uk.org/doctors/register/LRMP.asp) to ensure that a change in status has been notified and made on the performer’s registration.

If the change of status has been made by the GMC, save an electronic copy of the performer’s information displayed on the screen to the performer’s file.

Update all relevant databases and directorates as appropriate and send a confirmation letter to the performer, stating that the change had been affected. (Annex J)

If the change in status has not been made to the GMC registration details, then the PCS service should write to the performer to advise that their details as held by NHS England cannot be changed until the change has been affected by the GMC. (Annex K)

7.5 Processing a transfer of practice within existing area team

On receipt of a notification from the performer that they are moving to another practice within their current area team, the PCS service will:

- send an acknowledgement letter to the performer confirming receipt of the notification that they are moving practice. (Annex L); and
write to the current practice and new practice to seek confirmation as to end and start dates respectively. (Annex M).

Once confirmation has been received, notify the BSA of the change of practice. Note on the file and send a confirmation letter to the performer, stating that the change has been made. (Annex J).

7.6 Resignation and retirement

As detailed in the regulations, a performer must give three months’ notice if they wish to withdraw from the performers list. A performer may only withdraw from the performers list with authorisation from the medical director/RO and authorisation is not automatically granted.

On receipt of a notification, the PCS service will:

- send an acknowledgement letter to the performer confirming receipt of the notification that they wish to be removed from the performers list. (Annex N);
- write to the practice where the performer currently practises (if applicable) to seek confirmation of leaving date. (Annex M); and
- contact the medical director/RO to establish that there are no on-going performance issues and that they authorise the removal from the performers list.

If the PCS service receives confirmation from the medical director/RO that there are no on-going investigations or known reason to prohibit removal, the PCS service will write to the performer to confirm that they will be removed three months from the date of the notification.

Make a diary note for three months’ time to check again with the medical director/RO to ensure nothing has changed in respect of performance issues and remove the performer from the performers list if informed same to do so.

Write to the performer to confirm that they have now been removed from the performers list. (Annex O)

If the medical director/RO advises that the performer is currently under investigation, the PCS service will write to performer to notify them that they cannot be removed until the medical director/RO grants approval. If the performer requires further information they should be advised to contact the medical director/RO or area team case manager directly. (Annex P)
7.7 Death of a performer

On receipt of a notification that a performer has passed away, the PCS service will:

- escalate this information immediately to their head of section;
- inform the medical director/RO that the PCS service has received this information; and
- await further instructions from medical director/RO.

7.8 Removal or suspension of those already on the performers list and inclusion with conditions or refusal to be admitted for those applying to join the performers list

The PCS service will be notified of any removals or suspensions by the area team and be sent a copy of any correspondence which has been sent to the performer. The PCS service will also be notified of any inclusions on the performers list with conditions or where the performer has been refused inclusion by the area team and be sent a copy of any correspondence which has been sent to the performer.

The PCS service will:

- write to advise the organisations as specified by regulation 18 of this change to the performers status (Annex Q); and
- write to the performer to advise the specified organisations have been notified enclosing a copy of the letter that has been sent. (Annex R).

As the performer has 28 days in which to appeal the area team decision, the PCS service will make a diary entry to contact the medical director/RO in 28 days to ask if an appeal has been made. If an appeal has been made, no action is to be taken until further advice received.

If an appeal was made but was unsuccessful, the PCS service would update databases and confirm by email to relevant departments who must be notified.

7.9 Transfers between area teams

Notification of a performer leaving one area team and joining another may come to the attention of the PCS service in a number of ways. For example, a completed change notification form (NPL2), by telephone call, letter or email.
A transfer can also be instigated by an area team in order to align a performer with the most appropriate area team where their contracts are held. This will assist in the alignment of contractual issues and performance issues being managed by the same area team.

On receipt of a notification that a performer wishes to move to their area, or is notified by the area team that a transfer is required, the PCS service will:

- ensure the performer has completed a change notification form (NPL2); and

- open a transfer check list (Annex S)

Write to the performer’s responsible area team and request that they:

- complete the declaration form, attaching this for completion (Annex T) (making a diary entry to check its return in two weeks (note this on the check list);

- send a copy of the performer’s original application to join the performers list (if available); and

- send a PCIS performer’s screenshot; and

- send a copy of the medical performers list admission checklist that contains the signatures of the administrator, section manager and medical director/RO responsible for processing the original application, recognising that this may not be available for transfers of performers processed prior to the checklist being implemented.

All documents **must** be sent electronically from and to NHS.net accounts only.

If there is any information of note in respect of the performer, the PCS service should advise the medical director/RO immediately. This action is simply to inform the medical director/RO and must not delay the transfer process. Transfer to a new area team cannot be refused.

Once all documentation received:

- add the performer to the payments system and the PCIS;

- write to the existing area team to advise them of the date on which the performer will transfer to the new area team and request that they “end” the performers on the day before (Annex U);

- write to the performer (Annex V) to advise that they have been transferred providing a ‘with effect from’ date and send a copy of this correspondence to the
medical director/RO with a copy of the declaration received from the previous area team; and

- file all correspondence electronically as outlined on the transfer checklist – in the event that hard copy correspondence is received this should be scanned and then be shredded or disposed of in the confidential waste.

7.10 Actions required by the PCS service that the performer is currently aligned to, when notification is received that a performer is moving to a new area team:

The PCS service will:

- open a transfer check list (Annex S);

- enter the date of inclusion that the performer joined the performers list on the declaration request received by the requesting area team; and

- send the declaration to the medical director/RO for completion with a request that the completed declaration is emailed to the requesting area team as indicated on page two.

While the declaration is being completed by the medical director/RO, the PCS service must email the documents requested by the new area team. This must take place within two weeks of the request and all documents must be sent electronically from and to NHS.net accounts.

When the new area team confirms the performer has been transferred, the PCS service must “end” the performer on the payments system and PCIS or diarise for this to take place as instructed.

Any hard copy documentation held should be scanned and filed electronically as outlined on the transfer checklist – all hard copy correspondence should then be shredded or disposed of in the confidential waste.

8 Monitoring and review of procedure note

8.1 Monitoring arrangements

The SOP has been reviewed in conjunction with the Framework for Managing Performer Concerns and the National Health Service (Performers Lists) (England) Regulations 2013.

8.2 Equality impact assessment

This document forms part of NHS England’s commitment to create a positive culture of respect for all staff and service users. The intention is to identify, remove or minimize discriminatory practice in relation to the protected characteristics (race, disability, gender, sexual orientation, age, religious or other belief, marriage and civil partnership, gender reassignment and pregnancy and maternity) as well as to promote positive practice and value the diversity of individuals and communities.

As part of its development this document and its impact on equality has been analysed and no detriment identified.

8.3 Associated documents

The policy should be read in conjunction with:

- Framework for managing performer concerns.
- Prescribed connections to NHS England.
- NHS England’s confidentiality and information governance policies.

8.4 References

- Standard operating procedure for primary care support – ophthalmic and dental.
- Framework for managing performer concerns.
- NHS England performers lists change notification form – movement between area teams (NPL2).
- NHS England performers lists change notification form – change of status (NPL3).

General information for the primary care support service

Countries where the first and native language is English. Please note that first and native language is not the same as official language.

- Australia
- Bermuda
- British Virgin Islands
- Canada
- Guyana (formerly the colony of British Guiana)
- Ireland
- New Zealand
- South Africa
- Singapore
- United Kingdom
- US Virgin Islands
- United States of America
- The following Caribbean Islands:
  - Antigua and Barbuda
  - Bahamas
  - Barbados
  - Grenada
  - Jamaica
  - St Vincent
  - Grenadines
  - St Lucia
  - St Kitts and Nevis
  - Dominica
  - Anguilla
  - Trinidad and Tobago

‘Information of note’ could relate to (this list is not exhaustive):

- Professional details – gaps in service, regulatory body registration
- DBS certificate
- English language
- Declarations from Scotland, Wales or Northern Ireland health boards
- Declarations in application form
- Responses from NHS Protect, NHSLA
- Certificates of good standing or police checks
The primary care support service should take every opportunity to encourage performers to set up an NHS.net account if you are aware that they do not have one. Note: actual set up of the account is the performers responsibility and is not for the PCS service to undertake.

When electronically filing performer correspondence, set up the folder as follows:

An electronic folder should be created in the performers name by using surname, forename and GMC number e.g. blogs joe 1234567

Within this folder, three sub folders should be created as follows:

- Transferable documents
- Documents supporting the application
- General correspondence
Tel: 
Fax: 
Letter and declaration to be sent if performer has a concurrent live entry on a Scotland, Northern Ireland or Wales list

Please ask for <Name of Sender>
Our Ref:

Dear <Organisation Contact>

<Name of applicant> <GMC number>

The above-named has submitted an application to join England’s medical performers list.

The National Health Service (Performers Lists) (England) Regulations 2013 provides for requests to be made to any current or former employer including licensing, regulatory or other bodies in the United Kingdom or elsewhere for information relating to a current investigation where there was information of note.

The applicant has given consent to allow us to make a request for information, a copy of which is enclosed.

Could you please complete the attached declaration and return it to <sender organisation> at your earliest convenience.

If you have any queries regarding this matter, please do not hesitate to contact <name of sender> on the above telephone number.

Yours sincerely

Sample letter and standard clinical reference form to be used

Dear <organisation contact>

**Clinical reference for Dr <insert name>**

Dr <insert name> has applied for inclusion to the NHS medical performers list (England) as a <insert status>.

Under the regulations it is required that two clinical references are obtained in respect of the last two recent clinical posts undertaken by the applicant. Dr <insert name> has given your name as one of the clinical referees. This doctor cannot be included in the National Health Service performers list until the references are received and approved.

Please find attached a clinical reference form which I would be grateful if you could complete and return to me as soon as possible.

Under the remit of the Data Protection Act 1998, any information provided by you in the reference is deemed confidential and will not be communicated to the applicant without your written consent. Please be advised that you may be contacted by the medical directorate to verify completion of the reference.

**Section to be included for overseas referees only**

It is standard practice for NHS England to verify the professional status of all referees and therefore I would be grateful if you would supply a copy of your entry on your professional register, translated into English, if appropriate.

With thanks for your assistance in this matter.

Yours sincerely

<Insert name>
<Insert title>
This professional reference should verify factual information and comment on the strengths and weaknesses of the applicant as an indicator of his/her suitability for appointment. This is not a personal testimonial but an objective assessment of competencies. Please note that we require a clinical reference relating to a recent post, which has lasted at least three months without a significant break.

This reference has been developed with the General Medical Council publication “Good Medical Practice” in mind. Your attention is drawn to the following paragraph:

“When providing references for colleagues, your comments must be honest and justifiable; you must include all relevant information which has a bearing on the colleague’s competence, performance, reliability and conduct”

<table>
<thead>
<tr>
<th>Applicant’s name</th>

</tr>
</tbody>
</table>

Was the applicant subject to any disciplinary procedure, formal or otherwise, during their time with you?

YES □ NO □ If Yes, please give details:

Please give your opinion regarding the applicant’s present knowledge, skills and personal attributes by ticking the appropriate boxes on the next three pages. Statements are provided to give examples of behaviours that would constitute different levels of performance, though this is not intended to be an exhaustive list. Please use the space provided to give examples of the applicants behaviour that support the rating you have given them in each area, this is essential if you have given a rating of 1 or 2.

**Clinical expertise:** Capacity to apply sound clinical knowledge and an awareness of the need to fully investigate problems. Makes clear, sound and proactive decisions, reflecting good clinical judgement.

<table>
<thead>
<tr>
<th>1 □</th>

Non progressed application – sample letter to inform performer

<date>

Our ref:

Dear <name of performer>

Non-progressed application for inclusion on the medical performers list

Three months have passed since we received your application for inclusion on the medical performers list. In this time you have not provided the necessary documentation required for NHS England to determine your application.

On <insert date> we reminded you of the need to provide this information, but no response has been received. Consequently your application has been closed and no further action will be taken.

Yours sincerely,

<insert name>
<insert title>

Cc: medical director/RO

</tr>
</tbody>
</table>

Please note that if you intend to withdraw from the above list you are required to give three months notice in writing unless impracticable to do so.

It is a requirement that you give the primary care support (PCS) service on behalf of the NHS Commissioning Board (herein after known as NHS England), 28 days written notice of any changes in your permanent address or personal details. It is also a requirement that you notify the PCS service, on behalf of NHS England of any criminal offence of which you are charged, any new investigations into professional practice by a regulatory, licensing, other body, or an investigation by the NHS Counter Fraud & Security Management Services within seven days of the event.

You have been approved to work the maximum number of sessions per week as specified on your professional indemnity insurance certificate. If you wish to work additional sessions, you must increase your cover and submit an updated certificate immediately. If you have a Smartcard, please remember to complete an RA02 form to revoke this if applicable (e.g. changing practices or retiring/resigning from a practice or the medical performers list).

Please keep this letter safe, as you may need to refer to it at a later date.

Yours sincerely

Sample letter to performer informing that the requested change cannot be made

Dear <name of performer>

**Medical performers list – change of name/status**

Thank you for your email/letter/change notification form dated <insert date> informing us that you have changed your name/status from <insert name/status> to <insert name/status>.

We have checked the GMC website which still cites your name as <insert name> and therefore we are unable to make this change at the present time. Please ensure that you inform the GMC of this change and once it has been changed on their register, you should contact us again and we can then make the necessary change to your entry on the performers list.

Please do not hesitate to contact me if you have any queries.

Yours sincerely

<Insert Title>
Dear <name of performer>

Withdrawal from the medical performers list

Thank you for your notice to withdraw from the medical performers list under regulation 19(2) National Health Service (Performers List) (England) Regulations 2013.

I confirm that your name has been withdrawn from the medical performers list with effect from <insert date>.

May I remind you that from this date you will no longer be able to work as an NHS general practitioner in a surgery or for an out of hours service provider unless you apply and rejoin the NHS England medical performers list.

Yours sincerely

<insert name>
<insert title>
Sample letter to performer informing that they cannot be removed at the present time

<date>

Dear <name of performer>

Withdrawal from the medical performers list - restriction

I write further to my letter dated <insert date> regarding your request to be removed from the performers list. I have been informed by the medical director/RO that there are currently issues that are being considered by the area team that may result in your removal from the performers list being delayed. Until these issues have been resolved, it is not possible to remove you from the performers list.

If you require any further information regarding this matter, please contact:

Dear <organisation contact>

Notification under regulation 18 NHS (Performers lists) (England) regulations 2013
Name: [insert name]
Address: [insert address]
Postcode: [insert postcode]
Date of birth: [insert date of birth]
Registration number: [insert registration number]

As you are aware, the NHS Commissioning Board (herein known as NHS England) is obliged by Regulation 18 of the NHS (Performers Lists) (England) Regulations 2013, to advise certain organisations of any action taken under those regulations.

NHS England has recently taken a decision to:

- refuse to include a practitioner in a performers list on the grounds referred to in regulation 7(1), 27(1), 34(1) or (2) or 40(1);
- impose conditions under regulation 10 or 12;
- vary conditions or impose new conditions under regulation 11;
- suspend a practitioner from a performers list under regulation 12; or
- remove a practitioner from a performers list under regulation 11(1)(c), 14 or 17(6)(b)

in respect of the above named performer. I have enclosed a copy of the notice issued to the practitioner, which details the regulations under which the action was taken and the reasons it was considered necessary.

Should you have any queries or concerns regarding this notification, please do not hesitate to contact me.

Yours faithfully

Notification under regulation 18 NHS (Performers lists) (England) regulations 2013

Name:  
Address:  
Postcode:  
Date of birth:  
Registration number:

As you are aware, NHS England is obliged by Regulation 18 of the NHS (Performers Lists) (England) Regulations 2013 to advise certain organisations of any action taken under those Regulations.

I notified you on <insert date> that NHS England had made the decision to <insert as appropriate> the above practitioner in the medical performers list. Following a review, NHS England has decided to remove the conditions attached to this listing.

Please note that the conditions were removed with effect from <insert date>

Should you have any queries or concerns regarding this notification, please do not hesitate to contact me.

Yours faithfully

Sample letter to performer of notification under regulation 18

Dear <name of performer>

Notice of intended <insert as appropriate> under National Health Service (Performers Lists) (England) Regulations 2013

Further to the letter that you have received in which you were informed of NHS England's decision to <insert as appropriate>, I am now writing to inform you that NHS England is also required under paragraph 18(2) of the NHS (Performers Lists) (England) Regulations 2013, to notify other organisations that this action has been taken.

When doing so the regulations state that NHS England shall send to the practitioner concerned a copy of the information about them provided to those organisations listed in regulation 18(2) and I am therefore enclosing copies of those letters.

Yours sincerely

<insert name>

Signed: ___________________________ Date: ______________ Administrator name: ___________________________

Signed: ___________________________ Date: ______________ Section manager name: ___________________________
The primary care support service should take every opportunity to encourage performers to set up an NHS.net account if you are aware that they do not have one. Note: actual set up of the account is the performers responsibility and is not for the PCS service to undertake.

When electronically filing performer correspondence, set up the folder as follows:

An electronic folder should be created in the performers name by using surname, forename and GMC number e.g. blogs joe 1234567

Within this folder, three sub folders should be created as follows:

- Transferable documents
- Documents supporting the application
- General correspondence
Dear <organisation contact>  

<Insert performer name and GMC number>  

The above named performer has notified us of their intention to provide services in the <insert area> area with effect from <insert date>.  

According to the information supplied, they are included in the medical performers list practising within your geographical area of responsibility.  

Please would you arrange for the medical director/RO at the area team to complete the enclosed declaration and return it to this office as quickly as possible.  

Please will you also email electronic copies of:  

- the performers original application to join the performers list (where available); and  
- a PCIS performer screen print; and  
- the medical performers list admission checklist that contains the signatures of the administrator, section manager and medical director/RO responsible for processing the original application (where available)  

This information should be emailed from an NHS net account to <insert receiving NHS net account address>.  

If you have any queries regarding this matter, please do not hesitate to contact <insert name of sender> on the above telephone number.  

Yours sincerely  

<insert name>

<td>A1234 &lt;insert as appropriate&gt;</td>
</tr>
</tbody>
</table>

National Health Service (Performers List) (England) Regulations 2013 allow for the movement of performers without the need for fresh application. However, the regulations provide that a performer must inform NHS England within 28 days if any of their details change. These changes can include:

- changes to the area where the performer works;
- changes to personal details;
- potential changes to the occupational health status; and
- factors that could impact on inclusion to the performer list
If you join a new practice, move to a new area or wish to change the status of your inclusion in the list i.e. from salaried GP to GP principal, it will be necessary for you to complete a notification of change form. If you wish to withdraw from the national list, you should give notice at least three months before the event. Documentation is available on request should any of these circumstances occur.

If we can be of any further assistance, please do not hesitate to contact <insert name of sender> at the above address.

Yours sincerely
