1 Annual assessment 2014

NHS England conducts an annual performance assessment of CCGs. The process is set out in the [CCG Assurance Framework](#). The annual assessment may conclude that the CCG is assured, or is not assured in which case intervention will be required. Assured CCGs may be in receipt of support from NHS England. NHS England provides a survey of CCG partners and a summary of the results is published [here](#)

At the end of their first year of operation 210 CCGs have been judged to be assured. One CCG, Barnet has required the exercise of intervention powers in order to secure future performance in respect of one issue. The table below shows each CCG and their status. Further details of assurance outputs may be available for public review by the CCG itself.
