

# What have we considered in prioritising clinical areas?

## Priority

*Encompassing national and clinical priorities*

---

### National Action Plan Commitments

Open Government Partnership  
National Information Board

### NHS England Commitments

Mandate  
Business Plan  
NHS Outcomes Framework

### Medical and Nursing Directorates' priorities

National Directors' priorities

### NHS key challenges

Emergency admissions

- High volume of admissions
- High programme spend

## Feasibility

*Encompassing quality of data and achievability*

---

### Data quality and availability

Coverage  
Completeness  
Timeliness  
Frequency of collection  
Source

### Indicators availability

Analytically sound and/or 'assured'  
Transparent methodologies  
Easy to interpret

### Achievability

Similar work already developed/in progress  
Existing networks to progress the work  
Pragmatism
