

Manchester Access

City of Manchester

Number of patients covered: 590,000

Number of practices participating: 92

Names of CCGs covered: NHS North, Central and South Manchester CCGs

Our top three planned service improvements/innovations are:

Improved access

Manchester-wide high quality primary care access

Access to 15 sites across the city, 8:00am to 8:00pm 7 days a week

It delivers full population coverage

Inclusive of a wide range of health care commissioning and provider partners

Reduced demand on secondary care and other services

Using differing staff

As well as a planned increase of 131,040 additional GP appointments per year, the Manchester Access offer provides

- 52,416 additional Nurse appointments per year
- 52,416 additional HCA appointments per year

Patient records

Clinical access to the patient records of all patients registered at a Manchester practice

Better services for patients leading to improved outcomes and satisfaction
