

# Staying Well in South Worcestershire

## Worcestershire

Number of patients covered: 297,251

Number of practices participating: 32

Names of CCGs covered: South Worcestershire CCG

## Our top three planned service improvements/innovations are:

### Multi-disciplinary Virtual Locality Hubs

Our new virtual hub will support all practices in South Worcestershire providing a focal point for primary care and offering a range of wrap around services for patients.

Complemented by four locality hubs delivering physical appointments providing extended access to primary care.

### Sharing of Patient Record

Our multi-disciplinary virtual and locality hubs will be supported by the development of data sharing.

All practices in South Worcestershire CCG area have agreed to the formation of a central repository of patient records managed by Stay Well Healthcare with appropriate information governance.

### Technology

Patients will be able to access the virtual hub via a new interactive website and area-wide telephone number which will provide online access to self-help technology to reduce demand.

Patients will also be able to access consultations via email and appropriate video conferencing mechanisms.
