## Local CQUIN Menu 2016/17

There are 7 priority areas in the menu and a total of 29 indicators. The priority areas are as follows:

- Integration
- Learning Disabilities
- Mental Health
- Person Centred Care
- Physical health
- Productivity
- Urgent and Emergency Care

A pre-populated indicator template is provided for each goal. These can be downloaded and used as is or commissioners can adapt them to better suit their local circumstances.

Priority Area	Goal number	Goal name	Goal Description
<a href="#">Click for templates</a>	1	Workforce Development	Improved system-wide integration of workforce.
	2	End of Life Care Pathways	Improved integration of providers along the End of Life Care pathway.
	3	Care Homes	Improvement of waiting times for care home admission eligibility

**Gateway Reference Number: 04225**

**NB:** This document forms part of the **CQUIN Guidance for 2016/17** which can be found here: <https://www.england.nhs.uk/nhs-standard-contract/cquin/cquin-16-17/>

Priority Area	Goal number	Goal name	Goal Description
		Assessments	assessments.
	4	Avoidable Hospital Admissions from Care Homes	Prevention of avoidable hospital admissions originating from care homes.
Learning Disabilities  <a href="#">Click for templates</a>	5	Health Checks	Increased signposting of annual health checks by Community Learning Disability Teams for people with learning disabilities.
	6	Health Action Plans	Increased number of health action plans developed for people with learning disability who have had an annual health check.
	7	Flagging of Patients with Learning Disabilities	Increased flagging and coding of learning disability status with subsequent reasonable adjustments to services.
	8	Care Co-ordination	Increased identification of a care co-ordinator for people with a learning disability accessing healthcare who have more than one long term condition.
	9	Breast Screening	Increased identification of, and reasonable adjustments made for women with learning disabilities eligible for breast screening.
	10	Health Equality Framework	To implement use of the Health Equality Framework, using it to capture salient outcome measures for people with learning disabilities using the service.
Mental Health  <a href="#">Click for templates</a>	11	Depression in Older People	Improved screening, assessment and further clinical investigation of depression in older people.
	12	Mental Health of People with Long Term Conditions	Improvement of screening for common mental health disorders among inpatient admissions of people with long-term conditions (LTCs).
	13	CAMHS Transition	Improvement of patient & carer involvement, experience and outcomes in transitions out of Child and Adolescent Mental Health Services (CAMHS).
	14	Avoidable Mental Health Act Detentions	Safe reduction of the number of avoidable repeat detentions under the Mental Health Act.
	15	Discharge Planning	Optimisation of patient flow through collaborative discharge planning and continuity of care between in-patient and community mental health services.

**Gateway Reference Number: 04225**

**NB:** This document forms part of the **CQUIN Guidance for 2016/17** which can be found here: <https://www.england.nhs.uk/nhs-standard-contract/cquin/cquin-16-17/>

Priority Area	Goal number	Goal name	Goal Description
	16	Dementia Discharge Summaries	Improving discharge summaries with follow-up recommendations for older people with dementia or delirium.
	17	Dementia: John's Campaign	Development and implementation of provider policy on welcoming carers and family members of people with dementia according to patient's needs and not restricted by visiting hours.
	18	Improving Access to Psychological Therapies	Enhancing recovery through improved access to psychological therapies (IAPT).
Person Centred Care  <a href="#">Click for templates</a>	19	Motivational Interviewing	Increased training of staff in core skills of motivational interviewing for improved care planning.
	20	Patient Activation Measures	Introducing an Activation System for patients with Long Term Conditions (LTCs).
Physical health  <a href="#">Click for templates</a>	21	Frailty Identification and Care Planning	Promote a system of timely identification and proactive management of frailty based on CGA, with information on severity grades recorded and discharge summaries shared, and care plan developed in community, mental health and acute providers.
	22	Faecal Incontinence	Improving faecal incontinence care by identifying contributing factors of faecal incontinence with baseline assessment and providing initial management plan.
	23	Urinary Incontinence	Increased assessment, treatment and management for inpatients aged 75 and over.
	24	Acute Kidney Injury	To focus on AKI diagnosis and treatment in hospital and care planning, to monitor kidney function after discharge.
