FOI-009415 05/01/2016

- 1) A list of the inpatient facilities for people with learning disabilities that will be covered by NHS England's Transforming Care programme.
- 2) A list of the assessment and treatment units in England for people with learning disabilities and the name of the providers of the units.
- 3) Copies of correspondence between NHS England and Southern Health NHS Foundation Trust between 1 November 2015 and 31 Dec 2015 relating to the Mazars review of deaths of people with mental health and learning disabilities.

FOI-009416 01/01/2016

- 1) The number of patients registered at Princes Park Health Centre who left between 1 April 2009 and 1 April 2010

2) The number of patients registered at Princes Park Health Centre who left between 1 April 2010 and 1 April 2011

3) The number of patients registered at Princes Park Health Centre who left between 1 April 2012 and 1 April 2013.

FOI-009417 04/01/2016

Can you tell me, how many false claims were made last year? What do you do to prevent this?

FOI-009418 01/01/2016

A statement from Liverpool CCG published on 5 August 2015, entitled "Update on practices currently provided by SSP" noted that Princes Park Health Centre "had a contract breach" and that this was the reason why the contract with SSP had not been extended beyond March 2016. Thus I would wish to ask the following: 1) What was the "contract breach" referred to in the above statement? 2) What action was taken to address the contract breach? 3) Were any penalties levelled on SSP for the contract breach?

FOI-009419 05/01/2016

Please see the correspondence below which I sent on the 9th December 2015 and as of today still have not had a response. I am disappointed by the lack of an acknowledgment of receipt since as Pharmacy contractor we must ourselves respond to all written complaints within 48 hours!

I would therefore like to make a FOI request for all details of the correspondence leading to this decision.

I would like to know which persons were involved in the decision on my case.

In addition I would like to know if any contractor has ever had a incorrectly submitted item refunded in NHS England SouthWest area.

FOI-009420 05/01/2016

1) In a recent finance board paper (see https://www.england.nhs.uk/wp-content/uploads/2015/12/04.PB_.17.12.15-Allocations.pdf) it shows, on page 6 Table 2, CCGs 15/16 Allocation as £69,484m and it growing by 3.4% to £71,853m.

2) In the guidance on how 2015/16 was to work (see <https://www.england.nhs.uk/wp-content/uploads/2015/04/tariff-arrangements-1516-qa-v9.pdf>) it says, on page 6 Q1.14, that additional funding will be made available to CCGs to help offset their share of the £500m additional cost of NHS Englands proposals.

Was that additional funding referred to in 2)

- a) a one off assistance
- b) a recurrent assistance and is part of the £69,484m figure
- c) a recurrent assistance and is part of the 3.4% growth figure?

FOI-009421 05/01/2016

please can I request that you provide with information you hold regarding

1) any active management consultancy organisation contracting/procurement register, framework of framework agreement or lists,

and 2) any active marketing service organisations contracting/procurement register, framework of framework agreement or lists.

For both, I am specifically interested in:

- What is the nature of the register, list or framework and what services does they cover
- What monetary value has been procured through the register, list or framework
- Who manages or administrates the register, list or framework
- If confidentiality allows, the names of the organisations that are already registered on the register, list or framework
- What contracting terms are associated with these registers, lists or frameworks
- If there are any specific criteria for registration or inclusion of the register, list or framework, and indeed, if there are any specific exclusion criteria that might prevent an SME from entering the list
- How long the register, list or framework is deemed to be in active and place
- If there are any specific future dates for calls for submissions or inclusions, PPQ, etc, that would lead to the recruitment of additional organisations to this list, and if so, what is the notification process and where will notifications be published

I would also like to know if there are any specific criteria that enables NHS England to procure from any active register, framework or list, that enables NHS England to not have to tender or publicise the work being contracted.

If NHS England does not hold an active register, framework or framework agreement, or list itself, please can you notify me of the organisation who holds the relevant list which NHS England chooses to contract from, the name of the contact

that administrates or operates the list, and can you confirm the nature of the relationship between NHS England and this organisation.

FOI-009422 05/01/2016

In the 2014/15 financial year what was the total cost to NHS England of providing lease vehicles to managers? Please provide the cost figure so that it shows how much of the amount is VAT and how many vehicles this represents.

For each vehicle that has a monthly cost in excess of £500+VAT please state the monthly cost and the make and model of the vehicle involved.

FOI-009423 05/01/2016

Please clarify how a patient, especially a vulnerable service user

is able to decipher which NHS department in Suffolk is run by a
Public or Private sector agency?

I am forced to make a public FOI because my attempts to gain
clarity as to who was in charge of which department became more
perplexing and confusing following a presentation by the Barrister
Alex Ustych on 23rd December 2015.

Since April 2013 who has been responsible for;

- A) Patient Registration in Suffolk?
- B) Primary Care Services in Suffolk
- C) SERCO Patient Services in Suffolk?
- D) "Patient Registration" in Suffolk?

Please bring transparency to SERCO's connection to A, B, C and D.

FOI-009425 06/01/2016

I request details of the staff structure of the Corporate Affairs Team at the Midlands and Lancashire CSU, including all the post titles and associated pay grades.

FOI-009426 05/01/2016

Please provide the following: All papers, minutes, emails or other material from 1 April 2015 to 1 August 2015 relating to the commissioning of a national minor ailments service from community pharmacies in England.

I refer you to a series of comments made by the public in response to the announcement of the following appointments to the Directors of Commissioning Operations roles in NHS England:

<https://www.england.nhs.uk/2014/11/28/director-appointments/>

The announcement was posted in November 2014 but nobody from the NHS has answered the legitimate queries as yet.

- A) Who is responsible for the protection of data and transparency for this website?
- B) Which job role was tasked with best acknowledging and then responding the open enquiries from members of the public?
- C) Why was this comment ignored?

NHS Employee says: 3 December, 2014 at 8:14 pm

"I don't understand what this really means to the people on the ground such as patients, GP practices, hospitals and even CCG's. NHS England seem to go from re-structure to re-structure to reduce duplication and become more efficient yet each time this organisation redesigns itself it becomes more inefficient and its distance to real core values of improving the health service become even further away. I also don't understand how NHS England can reduce duplication when it has CCG's acting on its behalf."

- D) Why was these 2 postings ignored too?

Dave says: 3 December, 2014 at 9:55 am

"There are a number of commissioning directors already at NHS England, HQ. Why do we need directors to report to the directors? – another layer of directors? more jobs for the boys? This is streamlining!"

Brian Gale says: 1 December, 2014 at 5:17 pm

"Do not work in the health service but thought Clinical Commissioning Groups commissioned local health services so what will these regional commissioners actually do? What will they be commissioning? This article describes the features of this structure but is it possible to have a little more on the benefits to the community"

Recently, The Right Hon Jeremy Hunt MP made a public request for the NHS to be more transparent.

- E) Since then, on which dates and/or when did the NHS review whether it best responds with TRANSPARENCY to the comments posted on your NHS website?

FOI-009428 06/01/2016

Could I please request to see figures for the number of students (patients who are record as being a "student") who have been issued with food bank vouchers by the NHS throughout England during the year 2015? This is from the 1st January to the 31st December 2015, or at least close to these dates.

FOI-009429 05/01/2016

Please provide all risk registers held by NHS England centrally which relate to the implementation of the equitable funding policy for general practice (including the withdrawal of GMS MPIG and PMS premium payments) which were created between April 2013 and April 2015.

FOI-009430 05/01/2016

please disclose to me the numbers of General Practitioners (GPs) who originally qualified and trained as GPs in the European Union or EEA (excluding UK):

1. Who were included on the National Medical Performers List between 01/01/2003 - 31/12/2015 in London in the rest of the UK
2. Who were included on National Medical Performers List between 01/03/2015 - 31/12/2015 in London in the rest of the UK

FOI-009431 06/01/2016

How many people within the North West have been admitted to hospital due to medication non-compliance within the last 3 years?

FOI-009432 06/01/2016

I refer to a letter dated 3rd December from the Woodlands Health Centre which indicated that as a result of the current lease on the surgery in East Peckham expiring a decision has been taken by NHS England to no longer provide funding for the said "satellite surgery", citing that the building (that has been in use for many years) no longer complied with the current regulatory standards.

We have been asked to contact the surgery to advise them of any specific concerns regarding this situation by January 10th 2016.

Having attended an two meetings called by the local Parish Council it feels that the closure has already been written in stone and anything any patient in East Peckham has to say will make no difference to the situation. So much for the Governments statements that local issues should be solved by local people!

It would appear that whilst the "statutes" regarding the condition of the premises are going to be strictly applied those regarding the time span for the withdrawal of services are being ignored.

The meetings showed there are many concerns held by local people and a few are listed below along with my own questions and worries.

1. With the poor bus service between the village and Paddock Wood those without their own transport would be unable to ensure they could keep appointments and even if the bus runs on time it would probably take a good part of the day to complete the round trip which is far from ideal for anyone not in the best of health. What will be the cost in missed appointments?
2. What will be the hidden cost of transporting elderly or infirm patients who do not have the means to get to Woodlands Surgery and have to be collected from and returned to the village?
3. How is it that for decades past 60 years or so the village always needed and had a doctors surgery, but it is now longer a priority, despite the fact that the population has expanded. What efforts are made to link with planning departments when building developments are made to ensure infrastructure is adequate for the growing population?
4. The extremely short notice of closure looks to the casual observer to have been a deliberate ploy to avoid any organised opposition getting off the ground even though it was stated at the meeting that the Woodlands Surgery have been fighting the case on our behalf for sometime!
5. East Peckham is not part of Paddock Wood and surely cannot be considered to be so!
6. Is there any chance that we will be able to put our arguments face to face with any representative from National Health England?
7. I understand that NHS England earlier this year ran a process for grants to upgrade surgery premises. I would like to ask if the East Peckham surgery was put forward under this scheme?
9. I also believe that there are companies who provide portakabins fully fitted to health specifications. Has this option been considered?
10. Mothers with more than one young child will obviously face great difficulty in attending the surgery at Paddock Wood.

I hope you will reconsider this matter and prevent the imminent closure of this important village facility.

Under the Freedom of Information Act, please could you fill out the following Freedom of Information Survey online with the information for your CCG.

Survey Link: <https://www.surveymonkey.co.uk/r/XCLSSJD>

Please also find attached a pdf version of the survey and the questioned are copied at the bottom of this e-mail.

FOI-009434 06/01/2016

I am aware England has recently enacted a joint collaboration program called the NHS Diabetes Prevention Programme. I would like to gather some contact information of clinical leads, if possible, for the following:

- Birmingham South and Central CCG
- Bradford City CCG
- Durham County Council
- Herefordshire CCG/LA
- Medway CCG/LA
- Salford CCG/LA
- Southwark Council and CCG
- London City and Hackney CCG
- Central London CCG

FOI-009435 06/01/2016

I'm trying to find the Freedom of Information Disclosure Log on your website – could you direct me to it?

(At this point, I'm particularly interested in seeing the response to the FOI request discussed in this article, about GP practices closing to new patients, but it would be useful to know generally).

FOI-009436 06/01/2016

I am trying to collect data regarding Deaf people making NHS complaints. I am interested in knowing how many Deaf British Sign Language Users have made a complaint about any type of service commissioned by NHS England within the last five years; ideally I would like the data for the South West of England but if you only have nationwide statistics then they will still be of some use.

I work as an NHS complaints advocate with Deaf people and I am trying to understand more about the nature of complaints made by Deaf people and whether they have proportional access to advocacy within the NHS complaints remit.

Could you please give me the relevant information or let me know where I can go to access such data?

FOI-009437 06/01/2016

East Peckham is facing the closure of its rural branch surgery, I would be grateful if you could provide me with information on the numbers and locations of rural branch closures over the past five years.

I look forward to hearing from you at the earliest opportunity

FOI-009439 06/01/2016

I would appreciate it if you would kindly supply me information on all the minor ailment schemes in the Greater Manchester Area under freedom of information for the the year 2015. I am collecting this information on behalf of Bolton LPC.

Please can you provide the following information for the Minor Ailment Schemes for all the pharmacies in Greater Manchester:

- The total spend on the service per area
- The breakdown of this spend into service fees and spend on medicines dispensed per area
- The total budget for the service per area
- The number of pharmacies commissioned to provide the service per area
- The fee paid to pharmacists per patient treated, or details on the fee amount and structure if it is not paid per patient per area

FOI-009440 06/01/2016

Summary: number of GPs employed in Torbay and South Devon with full time or part time contracts.

FOI-009441 06/01/2016

I would like to make a formal request under the FOI to receive details as to the injury mechanisms for patients admitted into Major Trauma hospitals in England.

FOI-009442 07/01/2016

You have released for YHCS Document 3 - Questions and Submissions Booklet for Commissioning Support Services Framework Agreement: Invitation to Tender Stage End-to-End Commissioning Support Services: Lot 1 only I am requesting the information for lot 2b

I would like to submit a new freedom of information request. you do not have to separate for all buildings.

3. Contracts/Agreements relating to the supply of Water which may include the following:

- a. Supply of Water
- b. Waste Water

Contract Information- For each of the types of the contract that I am requesting please can you send me the following information. Please remember if there is more than one provider can you please split the contract information up for each individual provider?

1. Unique Contract Key: Please can you provide me with a unique reference quote that relates to each contract.
2. Current Provider: If there is more than one provider please split the contract information individually.
3. Annual Average Spend: Please can you send me the average spends over the last three years. Approximate spend is also acceptable.
4. Contract Duration: Duration of the contract/agreement and can you please include any extension periods that could be executed
5. Contract Commence Date: The date the contract/agreement commenced

6. Contract Expiry Date: The date the contract/agreement expired
7. Contract Description: A brief description of the contract of what support/service is involved
8. Responsible Officer: Who within the organisation is responsible for this contract. Please can you send me the full names, actual job title, internal contact number and the officers direct email address.

If there is more than one supplier please split each profile of the above data types for each supplier. E.g. separate spend, expiry date, responsible officer.

In some cases I have been told that some requests may take of the period of collating this information. If this is the case please can you only concentrate on part two of my request (Contracts/Agreements relating to the supply of Electricity).

FOI-009444 07/01/2016

Following on from a notice I have had for charges for not holding a valid maternity exemption card (despite sending in the certificate), I would like to find out some statistics about these cards. Can you please tell me for the year past:

How many pregnant women were eligible to claim maternity exemption?

How many women actually claimed the exemption (as per your processing numbers)?

How many women were charged penalties for not having a valid certificate?

How many complaints you received about penalty charges?

The revenue generated from penalty charges, a separate figure for those with a valid claim if possible (I.e a pregnancy/baby in that period)

FOI-009445 07/01/2016

I would like to request some information about the Royal United Hospital (RUH) in Bath, Somerset and their procurement arrangement for provision of hairdressing services on site at the hospital.

The salon is called "Frazurs" and is sited within RUH in Bath.

Please see below for details of hairdressing which appear on the RUH website and a map showing the salon location.

I recently contacted PALs at RUH to ask for more information and have been told that the hairdresser is a "Staff amenity"

Please let me know if you would like to see these emails.

However, I was verbally told by the hairdresser that her services are available to visitors and staff but not to patients at RUH.

The salon would therefore seem to be open to the public - other than patients – and is not a “staff amenity”.

The hairdresser told me she has been at RUH for 30 years.

I would like to request the following information under the Freedom of Information act:

- What year was the procurement contract first awarded to “Frazurs” at RUH?
- What are the terms of this contract, specifically, is there a clause allowing the salon to refuse to cut patients’ hair?
- Or is this matter not covered within the contract?
- What is the length of the current contract between RUH / NHS and Frazurs, i.e. when does it expire? Or is it a rolling contract?
- When was the salon space last openly competed? Or is no open competition held for this space?
- If no open competition is held, what are the procurement arrangements for this commercial space within the hospital?
- How is the decision made to award the salon space to “Frazurs” as opposed to any other salon or operator?
- Who makes this decision?
- What is the annual value of the contract? What is the lifetime value of the contract (from beginning to date)?
- What is the ‘commercial rent’ that is paid by the salon to the RUH / NHS?
- How is this commercial rent determined? How often is it reviewed?
- When is the contract next due for review?
- Is there a framework under which it will be competed? Which framework is this?

FOI-009446 07/01/2016

It appears that when a GP partnership dissolves and one partner becomes the sole contractor for a practice, they have to register this with NHS England (<https://www.england.nhs.uk/wp-content/uploads/2013/07/mng-reg-con-vari.pdf> see p.17)

FOI 1: Can I please request data for how many times this happened in each of the last three years? (by calendar year)

And please, IF FEASIBLE WITHIN THE FOI REMIT BUT NOT IF WILL DELAY RESPONSE TO Q1:

FOI 2: For each of these applications, how many patients did the practice in question have?

FOI-009447 06/01/2016

why were any applications for a pharmacy refused in the halling area before April 2013?

FOI-009450 06/01/2016

I request that all and any correspondence of any kind, including letters, emails, faxes and file notes sent or received by Clare Cox of your organisation containing the words PJ Care, and/or Eagle Wood or any variation thereof."

I would be very grateful if you can provide the information for the period from 1st July to today.

FOI-009451 07/01/2016

In terms of the workshop we are running on 8th March for Healthcare Conference UK's part of that will focus on investment in clinical audit in the last ten years. With this in mind could we ask for three sets of information under Freedom of Information as follows:

1. What benchmarks do NHSE use to assess if clinical audit is being reinvigorated?
2. Can we have NHSE/DOH annual spend on clinical audit for 2007-15? We appreciate this may be tricky as we assume there may be different components to this. If so, NHS transfer of public funds to HQIP on an annual basis would be just as good

3. Can we have annual spend on each National Audit per year from 2013/14 onwards? I have attached a spreadsheet we stumbled on online that was released following a previous FOI request.

FOI-009452 07/01/2016

I would be grateful if you would advise me of the annual number of diagnosed terminally ill patients who are removed from Hospices and put into 'long term' nursing home care for failing to pass away within a reasonable time period.

FOI-009453 06/01/2016

please could you provide me with the Winter Sit Reps data for December 7 2015 to December 13 2015 for the following items

- Ambulance handover delays of over 30 minutes
- Urgent operations cancelled for the second or subsequent time in previous 24 hours
- Urgent operations cancelled in previous 24 hours
- Number of cancelled operations in previous 24 hours
- Non-clinical critical care transfers
- Delayed transfers of care
- A&E performance including Total number of patients who have a total time in A&E over 4 hours from arrival to admission, transfer or discharge

broken down for each hospital trust that has been required to complete these parts of the return.

I have been asked to find data on the use of 'base metal alloys' for crown/teeth restorations. I have looked through the statistics provided on your website, although it provides statistics on how many crowns were used. It does not confirm the types of materials used.

I was wondering if you will be able to provide any sort of data on how many 'base metal alloys' were used in the past couple of years on patients. I would really appreciate it

We are instructed by our above named client to investigate a potential claim for negligence against her former dentist, [REMOVED] arising from treatment provided at the following practice: [REMOVED]

[REMOVED] treated our client between 2012 and 2013. [REMOVED] has since left and we are unable to trace her.

In order to assist with our investigations please would you provide complete details of [REMOVED] insurance/indemnity arrangements for the entirety of 2012 and 2013 including indemnifying organisation or insurance company, relevant Defence Organisation membership number of [REMOVED] or insurance contract details including reference numbers.

FOI-009458 07/01/2016

In July NHS England published details of the national support package for vanguards. <https://www.england.nhs.uk/wp-content/uploads/2015/07/ncm-support-package.pdf>

The document said: In December 2015, vanguards will also have the opportunity to learn from international partners to gain insight and knowledge from leaders elsewhere. This has been a successful scheme for the pioneers, and vanguards will be invited to take part in a series of study tours to the EU. The first of these will take place in Spain to learn from the Alzira care model. Under the Freedom of Information Act please send me:

1. Full details of any such study tours already undertaken, including dates, venues, attendees and a breakdown of costs.
2. Full details of any such study tours scheduled.

<https://www.england.nhs.uk/about/board-meetings/board-committees/> shows that the Directly commissioned services committee (DCSC) was scheduled to meet in May, September and December 2014. If any of these meetings in Feb 2014 onwards (incl 2015) happened could you please let me know when the meeting notes are to be published and if they are not to be published could I please have a copy of them under FoI?

FOI-009462 08/01/2016

Please direct this FOI request to NHS South, Central and West Commissioning Support Unit.

Please would you send me the agenda, all circulated items, attachments and documents, and the minutes (draft or approved) of any and all Hampshire Health Record Operational Group Meeting/Board Meeting and/or equivalent regular operational meetings held after or on the 1st March 2015 and before or on 31st December 2015.

These would include information regarding:

- Information & IT Steering Group (IITSG) Meetings

- Hampshire Health Records Programme Board Meetings

- Hampshire Health Record Delivery Board Meetings

- HHRA Updates for HHR Board Meetings

My request is not directed at any one particular CCG, but feel free to "nominate" NEHFCCG if you feel that is necessary to process my FOI request.

I am writing to make a formal freedom of information request for any and all communication, written or electronic, between Sir Bruce Keogh's office and the Department of Health regarding the 2015 Freemantle et al study entitled : "Increased mortality associated with weekend hospital admission: a case for expanded 7 day services?", which was commissioned by Sir Bruce Keogh, from the period Jan 1st 2012, to Jan 1st, 2016, inclusive.

FOI-009470 09/01/2016

Individual GP's are able to appeal to a local panel if they feel their patient should receive treatment that is excluded from their CCG's list of approved procedures. Nationally, how many of these appeals have been made split into the years 2012-13, 2013-14, 2014-15, 2015-2016.

GP's sitting on CCG governing bodies are expected to excuse themselves when a contract is being awarded in which they have a possible conflict of interest. Are records kept of this? If so how many GP's excused themselves for from meetings for the years 2012-13, 2013-14, 2014-15, 2015-2016.

FOI-009472 10/01/2016

The information I seek relates to reports in the media that many GP surgeries are closing their 'patient lists' and not taking on any more NHS patients and I am looking at the impact any closures will have on our GP Practice.

The information I seek is as follows:

1. How many GP practices, within the whole Haringey catchment area, have already closed their patient lists?
2. How many GP's have announced their intention to close their lists within the next 6 months?
3. Of those who have closed their lists, or intend to do so within the next 6 months, what are the top 3 reasons for doing so?
4. How many practices, within Haringey, have closed their lists without the approval of NHS England?
5. Is there any indication that there is a shortage of doctors, within the Haringey area, and what is being done to resolve this situation?"

FOI-009473 09/01/2016

How many commissioning contracts were there in total and how many of these contracts were put out to tender by all CCG's in 2012-13, 2013-14, 2014-15. 2015-2016 (if available).

How many contracts were awarded to the private sector(non-state provider) and what was the monetary value for the years:2012-13, 2013-14, 2014-15. 2015-2016.

How were these services rated by the Care Quality Commission split into private provider(non state) and state provider for the years :2012-13, 2013-14, 2014-15. 2015-2016.

The website for the FOI Commission set up by the Cabinet Office to review FOI contains a copy of all evidence submitted by organisations and individuals to the Commission. The website states that evidence provided by NHS England was removed at NHS England's request.

I would like to request the following information.

- 1) A copy of NHS England's submission to the FOI Commission
- 2) Information contained in emails or other correspondence that explains why NHS England requested that the evidence be removed, and who decided that this should happen. I am not requesting a summary, but copies of any correspondence containing this information, and who sent them

FOI-009476 11/01/2016

I would like to request the grant documentation for the grant made between Gloucestershire Health authority & Cheltenham Family Health Care Centre Ltd. This was made in the late 1990s, I believe 1997 or 1998.

It was for approximately £846,000. There were certain provisions that went with the granting of the money. I would like to know what these provisions were and any other conditions made by the health authority.

FOI-009477 07/01/2016

I'm currently trying to wrap my head around the board paper mentioned in the subject line ([accessed here](#)) and have a few questions – please let me know if you can help or who I should otherwise contact.

My questions chiefly revolve around Table 2 on page 6 of the paper.

- Does the Primary Care (GP) line only refer to GP services, i.e. excluding Primary Care (Other)? (if it includes other primary care, how much is GP services only?)
- Does the Primary Care (GP) line include dispensing fees and reimbursement of drugs? (if so, how much per year?)
- Does the Total figure include any social care spending? (If so, how much per year?)
- How much of the sustainability fund and transformation fund will be allocated to GP services each year?

- Is the Total figure in this table comparable to the Total figure in the Programme Budgeting data? This is accessible here for years 2003/4 – 2013/4 and for example has total £94.78 billion for 2013/4.

FOI-009478 11/01/2016

Under the Freedom of Information Act 2000, please can you provide me with:

The titles and publication dates of all reports or documents produced by Mazars (the audit firm) for NHS England. If the reports weren't published, please say when they were delivered or sent to NHS England.

Thanks for this but I knew when NHS England came in to formation and thought it was apparent the request referred to the entire (albeit short) period NHS England had come in to being. Even without the clarification I would have expected the authority to have fully reviewed their records in this time. To wait an entire month before providing a fairly redundant clarification is a bit frustrating! Please proceed with a full response

Can you please advise me on where to acquire specialist statistics on the diagnosis of patients nationally. To be precise I am trying to establish the number of people in the UK (or England) who have been diagnosed with Fahr's disease, a very rare neurological brain disease?

FOI-009481 11/01/2016

Please could you provide the NAME and EMAIL ADDRESS for the following roles within your organisation;

- Senior Information Risk Owner (SIRO)
- Information Governance Lead / Head of IG
- Director responsible for FOI
- Director responsible for IG

FOI-009482 11/01/2016

I would like to know more about the statistics on people receiving continuing healthcare. I found this document incredibly helpful:

<https://www.england.nhs.uk/wp-content/uploads/2015/03/ops-model-cont-hlthcr.pdf>

My understanding is that 62,535 patients were eligible for are currently in receipt of NHS Continuing Healthcare, and 25,677 patients could be eligible.

1. Can I clarify the two numbers I have - 62,535 + 25,677 patients in England - either have or are eligible for CHC please?
2. Of these people (those who already have CHC, or are eligible), how many residents of care homes are in receipt of CHC?

FOI-009483 11/01/2016

Good afternoon,

I believe that the below goes to you. It is regarding a request of contractual information.

Please see attached letter Re: Information request under the Freedom of Information Act 2008

FOI-009484 12/01/2016

Dear Freedom of information officer for NHS North Kirklees CCG

This request concerns implementation of the 0 to 25 special needs (SEN) system. Its objective is to gather data from multiple agencies involved in coordinating and commissioning SEN services to understand relative progress being made towards achieving the reforms set out in the Children & Families Act 2014. The following data items are requested of the CGG,

1. Whether or not the CCG currently has a designated Medical / Clinical Officer to support the coordination and implementation of SEND reforms,
2. Regarding the current designated Medical / Clinical Office, the following,
 1. The name and contact details of the Officer,
 2. The time the current Officer has spent in-post,
 3. Any and all clinical posts simultaneously held by the current Officer,
 3. A list of all Local Authorities with whom the current Officer is coordinating SEN provision with.

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/320224/Operational_resilience_and_capacity_planning_for_2014-15.pdf

I give above the link to the capacity planning guidance for 2014/15. You will note that the sentence on page 17 at second last bullet, box on left entitled 'retained funding' says "supporting flu vaccinations for clinical staff in the independent sector".

This letter is sent under the Freedom of Information and Care England would like an answer to the questions below:

How much money was set aside to fund the NHS planning guidance commitment for 2014/15 to fund flu vaccinations for clinical staff in the independent sector and to have a breakdown of how it was spent between independent residential and domiciliary care services?

How many staff in independent care homes and domiciliary services received a flu vaccination funded as part of the retained funding noted in the planning guidance?

FOI-009487 12/01/2016

"I am requesting information on Direct Access Non Obstetric Ultrasound Service provided by private organisations between 2008 and 2013 in London NHS according to the Freedom of Information Act 2000:

- 1) What are the names of these companies that provided Direct Access Non Obstetric Ultrasound Service in London Area?
- 2) Kindly provide a spread sheet showing a) the number of ultrasound patient images that were reported lost or unaccounted for by each company in each year from 2008 to 2013. b) What were the reasons given by each company for losing ultrasound images in each year?"

FOI-009488 12/01/2016

I am requesting NHS information on their position with regard to Prevention of Work Related Upper Limb Disorders for Sonographers according to the Freedom of Information Act 2000:

- 1) Does the NHS have a policy on the Prevention Work Related Upper Limb Disorders(WRULD) for sonographers ?

Kindly provide a copy.

- 2) Are companies that provide direct non obstetric ultrasound service given a policy or information about the role of Prevention of Work Related Upper Limb Disorders for Sonographers when they get tenders/contracts for providing ultrasound to NHS?

Please provide a copy.

- 3) Kindly provide a copy of a standard NHS job description for sonographers.

Kindly provide this information by post.

FOI-009491 12/01/2016

Please provide a copy of the “raw data” which enabled Depuy Synthes Joint Reconstruction (the Supplier) to perform the “subset analysis” referenced in the Urgent Field Safety Notice (FSN) published during January 2014; i.e. the “NJR Supplier Feedback data downloaded to 10 August 2013” as referenced below:

“Analysis of the NJR Supplier Feedback data downloaded to 10 August 2013 shows that revision rates are higher for head sizes less than 48mm in diameter compared to larger head sizes. The estimated revision rate at 7 years is 11.64% (95% CI 8.81, 15.28%) for head sizes less than 48mm”.

We note that some survivorship data for the Finsbury Adept Resurfacing is reported in T3.9 of the NJR 2015, however, this information relates to all head sizes and not the sub-48mm heads to which this specific request relates. We further note that NHS England is unable/unwilling to provide bespoke analyses in response to requests and it is on this basis that the applicant now seeks access to the “raw data” collected through the NJR and provided originally to the Supplier.

We would request that the “raw data” is redacted as necessary to avoid any confidentiality issues arising (re surgeon, unit, patient identifiers). Further we do not anticipate any issues regarding “commercial sensitivity” in light of the fact that this data is the subject of the Supplier’s Urgent FSN dated January 2014.

FOI-009492 12/01/2016

Could you please provide me with the following information?

I would like to be sent a list of every GP practice in the Ipswich and East Suffolk CCG area.

For each practice I would also like to see the most up to date figures available for the number of GPs working at the practice. If some GPs are working part time, I would like that identified. Ideally, I would like to see a total number of full-time equivalent GPs working at the practice. E.g. if there were four fulltime GPs and a part time working half the hours of a fulltime equivalent that would be 4.5 GPs.

For each practice I would also like to see the most up to date figures available for the patient lists – e.g. the total number of patients registered with the practice,.

Could I also request you send me the same information for the West Suffolk CCG, the North East Essex CCG and the Waveney and Great Yarmouth CCG?

FOI-009493 12/01/2016

I was wondering if you could help me. I am looking for a statistic on the amount of people with chronic conditions who are treated at home. Does this exist? If so, would you be able to point me in the right direction to get this?

FOI-009494 12/01/2016

Please could you provide me with a list of all GP Practices in the UK, with the Practice Manager name, email address and phone number?

2010

And what percentage of all medical staff is this?

FOI-009504 13/01/2016

Good afternoon,

I am writing to make a Freedom of Information request. I would like to find out the following:

- How much has been spent on plastic surgery operations at Basildon Hospital in the last five years?
- What individual operations have been undertaken?

I request for this information to be supplied in a table with the operations and costs running either side and, if applicable, the dates or rough time of which they were carried out.

I appreciate all your help with this matter.

FOI-009505 13/01/2016

Would it be possible to have the 2014/15 outturn Qipp saving? At the moment I only have the forecast value of £4.8bn as of last year. (the line highlighted in table below)

Year Outturn/forecast Saving (£ billion), cash terms

2011-12 Outturn 5.8

2012-13 Outturn 5.0

2013-14 Outturn 4.3

2014-15 Forecast 4.8

TOTAL 19.9

FOI-009506 12/01/2016

Are you able to send me details of medical appraisal rates by designated bodies in England for the 2014/15 year?

FOI-009507 13/01/2016

I must apologise as i did not specify the area I was interested in, I'm only looking at the Kingston-Upon-Hull area so I would be interested in the information mentioned below but specifically for patients admitted to the Hull Royal Infirmary.

To further clarify, when I say I am interested in information regarding the patients area of residence I do not require anything more specific than the borough they came from, so that I can get a rough idea of whether they live in an upper, middle or lower class area.

I would like to make a request for any information I can get regarding dog bites within the last 5 years. I am interested in numbers of admissions due to dog bites, the age, gender and area of residence for the victim (if possible) and any information about the offending dog that may be available.

FOI-009508 13/01/2016

Please may I request the number of prescription items issued to attendees at Grantham out of hours service, as a supply direct to the patient as opposed to issuing of an FP10 prescription to be dispensed elsewhere between 1 October 2014 to 31 January 2015.

FOI-009509 13/01/2016

Please provide all emails between Sir Bruce Keogh and the Department of Health regarding his papers on weekend mortality for June and July 2015.

FOI-009510 13/01/2016

Good afternoon, I'm trying to trace as much information as I can relating to a dentist I had several years ago in Cambridge. The dentist name is [REMOVED]

At the time of my treatment he was falsely claiming money from the Nhs for works carried out. There was a court case around 2006 however I have failed to find any information online about this including the outcome of the case. I've spoken with the GDC and they have confirmed he is still registered with them.

FOI-009511 13/01/2016

Could you tell me where I could find out the cost of treatment for cervical cancer per patient?

FOI-009512 14/01/2016

I would like to request information on the basis of payments to GP practices in Dorset and how the payments are calculated. I am particularly interested in whether they are based on number of patients registered or on number of hours worked by specific doctors or what/how the calculation is made. How they are paid for services that they provide such as blood tests, nursing duties, special clinics, receptionists, etc.

I also would like information on how this information is audited and how often the audits are carried out.

FOI-009513 13/01/2016

Could you please send me contract information relating to Banking Services, Audit Services and Card Processing Services. If you do not understand what each of these mean please see below:

FOI-009516 14/01/2016

Relating to data available on Southampton Hospitals.

How many complaints are received that are related to incidents pre 1996.

How many complaints against nurses and doctors between 1980 and 1996 have resulted in an investigation that has been subsequently audited and found to have stood a pressure test of how complaints are handled today.

How many complaints pre 1996, were actually investigated by colleagues or people in question.

Please split the complaints in this same period have been made against specific doctors or nurses; Simply labeling names with Name A or Name B is adequate

How many complaints have resulted in a meditative settlement.

When was the last time the SGH complaints was audited, statistics.

How does SGH control access to data and notes; when have these controls been put in place

How many complaints are repeat complaints. i.e. where substandard treatment has been generations of family members or minorities, and shows a track of racism, prejudice and hubris.

How many cases have been recorded by NHS England in which doctors operated on the wrong person for each of the following financial years: 2010-11; 2011-12; 2012-13; 2013-14; 2014-15, as well as the current financial year so far, i.e. from April 1 2015 until the point in time at which you are responding to this email.

For each year, please specify how many of the people wrongly operated on took legal action against the NHS and received a compensation payout as a result.

For each case, please specify the following information:

- How many times was a surgery on the wrong person carried out?
- Was the wrong site surgery carried on on the same 'wrong' person or were there several different people wrongly operated on, in which case, how many people?
- What was the reason for the wrong site surgery - i.e. similar names, ages, etc?
- Roughly what type of surgery was it?
- Which hospital was it recorded in?
- What action was taken, if any, in response to the mistake - i.e. conversations, disciplinary procedures, dismissal or anything like that?

I am a patient at Sutherland Lodge Surgery, Baddow Road, Chelmsford.

As I understand, the cause of the resignation of the 4 partner G.P.s is in part due to the withdrawal of funds from this practise in order it can be more equitably shared between all practices and the G.P.s believing they would be unable to maintain the same standard of care.

I would be grateful for some information, as my web search has not been able to reveal this:

1. How many of the other practices in the Chelmsford area are due to suffer the same (or similar) reduction of funds- is it just Sutherland Lodge Surgery partners who reacting in this way?
2. I suspect that Chelmsford Surgeries are all above average in their funding, and there are poorer surgeries in the country. Am I right in this supposition, and can you give me any kind of statistics to understand this better - or give me a website address which do so.
3. Can you advise me of any websites which help me understand the situation further.

FOI-009583 20/01/2016

I write to request data on GP and dental surgeries' capacity in Barnet, for the most recent year for which data is held.

I am conducting a socio-economic impact assessment, which examines the potential effects of a proposed new development upon local GP and dental surgeries' capacity. My proposed methodology is to assess the number of people generated by the proposed development against the existing capacity of the GP and dental surgeries.

In order to conduct this assessment, I will require data on existing GP and dental surgeries' capacity. Please could you advise whether you hold such data, or where this might be obtained?

I propose to use the study area below to consider local educational capacity, on the basis that these are reasonable distances to travel:

- Within 1 mile of the site for GP surgeries

- Within 3 miles of the site for dental surgeries

Please could you advise me whether you think these study areas are suitable, or whether other relevant guidance exists? I would also welcome any comment on the proposed methodology.

You wrote;

1)" We also have mechanisms for public review of policy. For example, last year, members of the primary care working group have had the opportunity to review the primary care policy manual which has just been published."

a) Who are these members?

b) Were they paid for their time? How many meetings took place and who chaired the meeting(s)?

Transparency please!

You wrote;

2) "For example, a patient workshop was held in July 2015 and individual patients and patient organisations were invited"

a) Where were these workshops held?

b) I belong to an NHS Complaints Pressure Group called PHSO-the-facts; when were members of this group or other citizen led groups invited to these workshops?

You wrote;

3 – Serco provides primary care support services to the East of England and will continue to do so until the end of their current contract on 31st March 2016. At this point the service will transfer to the Capita arrangements.

a) How can the public view the contract with SERCO and what are the Capita arrangements?

b) Why has the contract with SERCO not been renewed?

c) Where within SERCO's remit does the word "care" configure with the service provided to "patients"?

You wrote that you require more clarity to my FOI question (4)

4) If the data being used to remove a patient from a GP's list is false; what procedures are in place for challenging the progression of misleading data in respect of The Data Protection Act?

What clarity do you require?

FACT; The letters distributed by SERCO and a GP's Surgery in Victoria Street, Bury St Edmunds failed to provide a Complaints Protocol. Neither SERCO or Victoria Surgery progressed any of the complaints delivered to them in May 2014.

I understand that between May 2014 and October 2014, no attempt was made to progress a complaint when a patient tried to progress one. Therefore, it is NHS England that need to provide clarity as to why NHS sites overseeing patient records

in West Suffolk failed to provide no complaints procedure when a patient complained that their complaint has not been progressed.

Regarding FOI-009249, that should have read: please now apply this request to records of incidents logged in the last three months.

FOI-009604 22/01/2016

Thank you for your response to FOI-009248, following our request for a list of the serious incidents requiring investigation (SIRIs) that were reported by each 111 service area in the 2014/15 financial year, as well as summaries of each case.

I am pleased to hear that NHS England does hold the information requested. However, given you cited section 12 as grounds to withhold the data requested, I am now revising the time frame of my request - from the 2014/2015 financial year to the last five months.

As I am conscious of the time/cost limit involved in locating and retrieving the information requested, in order to reduce the time you spend on each SIRI, please provide information on all of the records/incidents you locate within the last five months - regardless of whether they were classed as a SIRI or reported on STEIS.

Statement of Truth;

Your response to the linked FOI confirms that NHS England is clueless as to how many UK citizens have no access to a GP's Surgery?

QUESTIONS; Public Safety

A) How does the lack of knowledge about how many patients have no access to a GP Surgery comply with the list of recommendations outlined in the Francis Report published in 2013?

B) Where in the i) NHS Act and ii) Safeguarding Vulnerable Groups Act does it condone NHS England not to be provided with or seeking for itself the statistics on who is unable to register with a GP service in the UK?

C) Since 2013, has NHS England bothered to check how many UK citizens do not have access to a GP Surgery?

During initial reception screening are prisoners routinely screened for Tuberculosis (TB)?

If yes- do you screen for latent TB and active TB?

If yes- please describe what this screening procedure entails (i.e. questions asked/ procedures and who carries this out)

What is the follow-on protocol for further investigation? (Please include if applicable information on GP appointment, isolation if necessary, initial tests carried out)

Is this protocol standardised by Public Health England or has it been tailored for your prison establishment?

Do you offer further opportunities for screening for TB after reception screening? (i.e. within wellman or wellwoman clinics)

When did TB screening begin within your prison establishment?

From January 2015 to December 2015 how many individuals have been identified as having TB (both latent and active TB if applicable)?

Has a TB prevalence study ever been carried out within your prison establishment to assess latent or active TB?

Would it be possible to have a copy of the questions asked at reception screening in relation to TB and the follow up protocol for those individuals requiring further investigation?

FOI-009631 26/01/2016 In a letter from Nick Brook IFR Manager NHS England (Midlands & East (Central Midlands) I was informed of the following: -

"NHS England does not have a formal policy relating to this treatment (Rituximab for relapsing Minimal Change Nephropathy) but there is a Clinical Commissioning Policy in development for rituximab in standard treatment resistant idiopathic membranous nephropathy which is a common cause of nephrotic syndrome in adults".

I am aware that there is now a policy in place regarding the use of Rituximab for the treatment of relapsing steroid sensitive nephrotic syndrome in children and I would like to ascertain the current position regarding the development of a similar policy for adults.

As a consequence I would like to submit a freedom of information request as detailed below: -

1) Please can you confirm if there is a policy currently in development (or already developed) for the use of the drug Rituximab (Roche MabThera) in cases of Minimal Change Disease, FSGS (focal segmental glomerulo sclerosis), or any other similar diseases of the kidney and in particular for the treatment of relapsing steroid sensitive nephrotic syndrome in adults.

2) Please can you send a copy of any such policy, or alternatively give me an update as to when any such policy is likely to be issued and a copy of any draft in existence

3) If the policy is currently being developed, please can you send details of any work already undertaken, formal discussions which have taken place and minutes of meetings connected with the formulation of the policy.

4) Please will you send a copy of any statistics or data used or considered in the formulation of the policy, or otherwise held by NHS England. Although the data will include patient specific details, I am not asking for patient identifiable information.

5) If no work has been undertaken, please can you confirm if there is currently any intention to develop a policy for the treatment of relapsing steroid sensitive nephrotic syndrome in adults and if so, when is it likely to be available.

6) If there is no current intention to develop a policy regarding the use of Rituximab for the treatment of relapsing steroid sensitive nephrotic syndrome in adults, please can you explain how this meets the terms of the NHS policy in respect of non age discrimination, taking into account that there is already a policy in existence for children.

7) Please will you provide details in the table format below of the number of adult patients in each of the NHS Commissioning Board Areas for whom a request was made under the auspices of the Individual Funding Request mechanism for treatment using Rituximab in cases of relapsing steroid sensitive nephrotic syndrome. Please indicate how many of these requests were rejected at the screening stage and how many were referred to the IFR Panel and of those referred to the panel, whether they were successful or otherwise. This information is requested for a full twelve month period and should be based on the latest information available - please identify what dates have been used, ie January to December 2015 etc

I am a GP. Are members of the public, or myself, able to read the report into William Mead's death which has made headlines today?

This enquiry relates to an information request concerning the Royal Crescent Surgery, 25 Crescent Street, Weymouth DT4 7BY. In particular it relates to activities at the surgery on Friday 18th December 2015. This request is made under the provisions of The Freedom of Information Act 2000.

The information I request to be disclosed is as follows:

1. Between what hours was the surgery closed on the occasion of the Staff Christmas Lunch on Friday 18th December 2015?
2. What time was the last appointment prior to the lunch scheduled?
3. At what time was the first appointment commenced after the lunch?
4. How many staff attended the lunch?* And of these:
5. How many were General Practitioners (GP's) or other qualified doctors?*
6. How many were nursing or other qualified medical staff (such as physiotherapists)?*
7. How many were administrators (managers, receptionists, etc.)*
8. How many were other ancillary staff (building services, cleaners, etc.)*
9. How many were non staff guests?*
10. How much was the total wage bill for the extended lunch break (see question 1) for all staff (salaried and non-salaried) during which the public were excluded?**
11. How was lunch catered?
12. What was the total cost?
13. How much did staff contribute towards the catering?
14. How much did staff contribute to heating, lighting and other utilities during the extended lunch break?
15. How much did staff contribute to rent/mortgage/local taxes and other non-specified building running costs during the extended lunch break?

* If exact numbers are unknown an estimation will be acceptable.

** An estimation of the separate average hourly rate for GP's, other qualified medical employees, administrative staff and ancillary staff will suffice.

If yes please can you confirm who to contact if the patient does not have a registration card. If no can you please disclose what proof is provided to patients to confirm they are registered with a family doctor?

FOI-009637 26/01/2016

A NHS doctors surgery - Rydal Health Practice in Woodford, Essex - today issued a blanket text message to its patients that were registered as smokers advising them of its help to quit.

The text came from a NHS "no reply" number.

I would please like to know if this was issued UK-wide and how much this service cost.

Please send me:

The number of missed appointments at Southport hospital in the calendar years Jan 1-December 31 2011, Jan 1-December 31 2012, Jan 1-December 31 2013, Jan 1-December 31 2014 and Jan 1-December 31 2015

Can you also tell me on average how much (on average) a new appointment costs? And also how much (on average) a follow-up appointment costs?

If possible do you have an estimate of how much missed appointments at Southport Hospital has cost the NHS in total, over the calendar years Jan 1-December 31 2011, Jan 1-December 31 2012, Jan 1-December 31 2013, Jan 1-December 31 2014 and Jan 1-December 31 2015?

FOI-009644 27/01/2016

Trends in serious incidents in English mental health trusts

It has been reported by the BBC that NHS England has recently disclosed, via FOI, the numbers of serious incidents in 58 mental health trusts in financial years 2012-2013, 2013-2014 and 2014-2015: <http://www.bbc.co.uk/news/health-35403827> It is also reported that the breakdown of numbers includes the number of suicides and unexpected deaths. I would be grateful for a copy of the information disclosed by NHS England.

If NHS England has not already given any breakdown as regards Mental Health Act (MHA) status, please advise, for each of the years 2012-2013, 2013-2014 and 2014-2015:

- 1) How many of the serious incidents related to patients detained under the MHA?
- 2) How many of the unexpected deaths related to patients detained under the MHA?

It is reported that NHS England asserts that the apparent rise in serious incidents in mental health trusts is an artefact of improved reporting, and that this was "intentionally" so. Based on the Mazars report and other evidence, I wonder how NHS England is in a position to fully, confidently and accurately judge levels of under-reporting of serious incidents.

Please disclose the evidence upon which NHS England relies to make the assertion that the increased numbers of mental health serious incidents are due only to improved reporting, and the methodology used to gather this evidence. Please advise if, and how, NHS England is measuring levels of under-reporting of serious incidents across the NHS, and the size of any samples measured.

It was good to see you yesterday – and obtain some clarity on some of my questions about Brent CCG's actual role in co-commissioning.

You mentioned that impact assessments were undertaken in respect of the practices in Tranche 4. We asked if it was possible to obtain these impact assessments, please, and you asked us to go through the FOI process for good order. I would hope, however, that these could be supplied – in particular in relation to Intergrated Health CIC, Acton Lane and Harness Harlesden (Hilltop) – without w waiting for the 20 working day deadline, in accordance with ICO guidance to public authorities.

However, please formally accept this as a FOI request for the provision of the 5 impact assessments and taken in connection with the Brent practices currently (or originally) forming part of tranche 4, together with the brief for those impact assessments, the date of the (respective) briefs, and the date of provision to NHSE/within NHSE of the impact assessments, and any accompanying documentation relating to those impact assessments.

1) I enclose as an attachment to this email a Microsoft Excel template file. I would be grateful if you could insert the name of your Trust below the column marked 'Q1' and provide answers to the following questions into the same Excel file:

2) What was the average number of days waiting time between referral to CAMHS and first appointment in each of the last three calender years and for each tier of CAMHS care? Please insert the answers into the supplied Microsoft Excel template file to the right of the rows marked: 'Q1 - 2013 '; 'Q1 - 2014'; 'Q1 - 2015'; and under the appropriate column for each of the four tiers of CAMHS care.

3) What was the single longest number of days waiting time between referral to CAMHS and first appointment in each of the last three calender years and for each tier of CAMHS care? Please insert the answers into the supplied Microsoft Excel template file to the right of the rows marked: 'Q2 - 2013 '; 'Q2 - 2014'; 'Q2 - 2015'; and under the appropriate column for each of the four tiers of CAMHS care.

4) What information do you hold or have access to showing, or having the potential to show, the following:

a) patient incidents in the time between referral to CAMHS and first appointment?

b) serious case investigations in the time between referral to CAMHS and first appointment?

c) patient suicides in the time between referral to CAMHS and first appointment?

5) How many a) patient incidents b) serious case investigations c) patient suicides have there been between the date of first referral to CAMHS and the date of first appointment in the last three calender years?

6) Please provide me with a copy of the CAMHS referrals dataset, including (but not limited to) the following fields of information (where available): the date of the referral; the date of the first appointment; the tier and type of CAMHS care the referral was for; whether or not the patient attended the first appointment; the reasons for non attendance; the severity of the case; any other non-exempt field of information. Please provide this as a linked dataset in a machine-readable format, as you are required to under the dataset provisions of the Act.

I have been told that the grant was made to cfhcc to help in the building of the St. Paul's medical centre in Cheltenham. The company was given the money to allow further space to be developed for health activities. Cfhcc may have had certain provisos to get this money, I believe they may have had to provide free space for nags activities, one example being physiotherapy.

I believe this grant is noted against the lease.

I refer to the publication

"Making health and social care information accessible

Update July 2015 – accessible information standard approved".

This is potentially places a huge financial burden on the NHS organisations required to comply with the requirements of the publication. I am inquiring under the Freedom of Information Act for disclosure of all documentation relating to how the requirements of this publication are expected to be funded. In particular details of what this is expected to cost the NHS on a Trust by Trust or any other basis used in reaching the final total,

I also require details of exactly who ratified this publication on behalf of the NHS. The normal terms and conditions of the Freedom of Information Act apply to this request.

Is it possible to ask who passed the data onto Deloitte and see any records relating to this please?

FOI-009657 28/01/2016

It relates to NHS England's most recent information on the compliance of specialised services with its key requirements/standards, and on the "derogation" of these services.

The previous iteration dates from June 2014 and was published on NHS England's website in 2014. See for example the information for women's and children's services: <https://www.england.nhs.uk/wp-content/uploads/2014/10/derogations-women-children-040614.pdf>

Please provide:

1. Dates when the last updates were made in NHS England to NHS England's information on compliance with and derogation from the requirements, and/or changes were made to the standards, across all programmes/disease areas.
2. All the information on compliance/derogation of all commissioned specialised services, ideally in a spreadsheet format (See attached example). Please make clear the date when the information has been updated.

Firstly, I need to correct the dates presented to you. I referred to the time frame; 17th November 2015 and 23rd November 2015 In fact the data being progressed by SERCO went on to 23rd December 2015 when it was presented to District Judge Rodgers Claim numbers B78YM197 & BM78YM197.

I ask this FOI because it is challenging to know when and how Medical Officers are able to view a person's medical notes without the person's permission? Or when the NHS Medical Officers access a person's Health Records on behalf of a private company under contract with NHS?

I mean ... you are supposed to be the "caring" department that is supposed to put people's health and well being at a priority right?

FOI-009671 28/01/2016

Please direct this FOI request to NHS South, Central and West Commissioning Support Unit.

I would like to make another request under the FOI Act.

You have kindly provided me with a previous FOI response concerning the sum that NHS South Commissioning Support Unit (CSU) invoiced NHS North East Hampshire and Farnham CCG (£66,862) for the Hampshire Health Record service.

I would like an update on such costs.

- Please could you inform of the estimated sum that NHS South, Central and West Commissioning Support Unit is planning to invoice NHS North East Hampshire and Farnham CCG, for the financial year 2015/6, for the Hampshire Health Record service.

FOI-009672 26/01/2016

I would like to make a request under the Freedom of Information Act.

Please could you provide a copy of your threshold criteria for access to community (Tier 2) specialist community (Tier 3) and inpatient (Tier 4) (whichever is applicable) child and adolescent mental health services in your area, including any specific service thresholds for certain conditions such as eating disorders?

Please could you also answer the following brief survey:

What percentage of referrals to Camhs services have been refused in the last year for which figures are available and for each of the last ten years?

Please tick the reasons for refusal:

- Condition not serious enough to meet threshold for access to service
- Duration of condition not long enough (please state if you have a specific time limit)
- Condition or situation not suitable for camhs service intervention (eg child does not have a diagnosable mental health condition)
- Service lacks capacity to support the patient at this time
- Existence of co-morbidity which excludes support from your service (eg substance misuse)
- Young person above 18
- Other (please state)

Do you wish to make any further comments on the issue of referral to childrens mental health services?

- i. NHS England/NHS Commissioning Board 01 April 2000 through to the present day
- ii. NHS Primary Care Trusts (PCT's) between 01 April 2000 and 31 March 2013.
- iii. NHS England 01 2013 to present day.
- iv. NHS General Practitioner(s) 01 April 2000 through to the present day
- v. NHS General Practitioner surgeries and all other NHS General Practitioner services 01 April 2000 through to the present day
- vi. Other NHS employees working for, on behalf of and/or representing NHS General Practitioners (Practice Managers, Administration Staff etc.) 01 April 2000 through to the present day.

2. Information that explains NHS England's handling, processing, assessing, responding to and assisting the ICO in relation to an compliant [sic], or complaints that has been made to the ICO by a patient, 'data subject' of their nominated representatives in relation to the NHS General Practitioner's own or another's (e.g. someone or an organisation supposedly action for, on behalf of or representing an NHS GP or NHS GP services) non compliance with the DPA (and/or other UK laws) and the actions and/or other UK laws) and the actions and/or inactions involving any or all of those identified above, i.e. numbers 1 i to vi

3. Information about any grace, fear or favour, exemptions or agreements from compliance with, adherence to and respect of the Data Protection Act, that have over the years been awarded afforded, offered or proffered by the ICO or its officers or staff members to any or all of those identified above, i.e. number 1 i to vi.

My initial request was regarding finding out the number of people at immigration removal centres who have been given access to receive treatment for issues with their mental health. You responded with the following.

We have been piloting a system for data collection at two centres since July and a further one will come on line this month.

Therefore, I would like to request access to the data from the two pilots you have run since July. I appreciate you cannot give me the national picture, this is not what I am asking for. I am after the data you have told me you have below - from July.

Please send me:

The total amount in pounds sterling spent upon "Sleep positioning systems" for the financial year 2014-2015.

The number of requests for funding of "Sleep positioning systems" during the financial year 2014-2015.

The list of diagnoses where funding for "Sleep positioning systems" has been requested during the financial year 2014-2015.

The number of times funding for "Sleep positioning systems" has been requested for the diagnosis of scoliosis in the financial year 2014-2015.

I would like the above information to be provided to me as electronic copies.

If this request is too wide or unclear, I would be grateful if you could contact me as I understand that under the Act, you are required to advise and assist requesters. If any of this information is already in the public domain, please can you direct me to it, with page references and URLs if necessary.

I have attached a document that defines sleep positioning systems.

If the release of any of this information is prohibited on the grounds of breach of confidence, I ask that you supply me with copies of the confidentiality agreement and remind you that information should not be treated as confidential if such an agreement has not been signed.

I understand that you are required to respond to my request within the 20 working days after you receive this letter. I would be grateful if you could confirm in writing that you have received this request.

Q1. We have never been informed that Trafford practices receive payment increases for list size increases but do not have payment reductions when their list size reduces. When was this implemented?. Please let me have a copy of the contract documentation from Trafford that specifies this.

Q2. What is the range and mean average £pp uplift for list size adjustments for PMS practices across Greater Manchester.

Q3. As you are aware, neither [REMOVED] nor I received the letter from [REMOVED]. This was specifically mentioned at our PMS review meeting on 8 October 2015. Funding was removed from our contract without any consultation, negotiation or agreement. At the PMS review meeting we were informed that guidance had been provided from NHS England centrally to area teams about how the uplift should be applied to PMS practices earning above £78 per patient. Please forward a copy of this guidance as I have searched but cannot find anything that states this. I originally requested this guidance in June last year. It is still my understanding that PMS reviews need to take place before any funding is removed.

In January's NHS England board papers, in the finance report, there is a £19.3m year to date overspend on primary care support services.

I asked the NHS England press office about this. They said:

“PCS is showing as overspent due to one off transition costs associated with the service. These costs were expected and are covered within the overall budgets set for 2015/16 but are not directly funded within the PCS line on NHS England running cost budgets. The PCS programme is favourable to budget overall, once you take into account the release of a specified central programme budget.”

Under the Freedom of Information Act, please provide me with a full breakdown of what those transition costs were, and where/who the money went to.

Please provide your and NHS England's complaint reference numbers for my complaint made to you on 23rd July 2015 at 12:58. As you are aware this was a complaint re a referral letter to an expert and as such I believe it fell within the responsibility of Hastings and Rother CCG to investigate this complaint. I understand Hastings and Rother CCG has a contract with NHS England and under that contract NHS England investigates all complaints made to the CCG.

Please take this as a freedom of information request please supply a copy of the contract between Hastings and Rother CCG under which NHS England takes on the responsibility of investigating complaints.

I understand from emails received in response to my subject access request that you say that you [REMOVED] referred my complaints to another part of NHS England for them to investigate those parts of my complaints which you believe should be investigated by NHS England. The subject access request response fails to reveal that you actually referred them to NHS England or confirmation from NHS England that they agreed that it was their responsibility to and that they would investigate this complaint or the other complaints that you disputed were the responsibility of NHS England.

Please provide copies of NHS England's response to your claim that they should investigate my complaints (in particular the complaint made on 23rd July 2015) and provide copies of the investigations that took place and the response to me. I am not aware of any investigation into this and the subject access responses from all parties fails to reveal that any investigation took place. This 31/12/14 letter to [REMOVED] had been deliberately concealed from me, and from the CCG, from NHS England and from my new GP have been fraudulently and deliberately deleted from my Patient Notes. The letter was a deliberate attempt to cause me harm and did cause me harm, and was a major part of [REMOVED] "out to get me policy" which my wife asked Hastings and Rother CCG / NHS England to investigate. Again there has been no investigation. The information only came to light in June 2015 (the 30th December 2014 entry by [REMOVED] in my Patient notes) and on 18th July 2015 (the letter from [REMOVED] to [REMOVED]) following deliberate concealment and willful neglect by [REMOVED], aided it would appear by the other Station Practice GPs and the Practice Manager. The Practice manager of The Station Practice confirmed to me that she was aware of, and a party to, the deletions but refused to confirm why the deletions took place or who else was involved. See my Chronology Cross referenced timeline for full details of the events. See also the letter from [REMOVED] to me of 30th December 2014 and his apology letter re the orchidectomy. I attended the surgery in hypertension crisis on 31st December 2014

(the date of [REMOVED] letter to [REMOVED]) and was willfully neglected by [REMOVED] and had to self prescribe on that day to avoid a stroke or death.

Instead of protecting me you breached my patient confidentiality passing the email and copy letter to [REMOVED] with the intention that she used the letter for a purpose other than the investigation of my complaints. You thereby breached the first data protection principle of the data protection act and should have sought my consent and provided me with a fair processing notice at the earliest opportunity and usually before the intended processing had occurred.

Please copy me in on all correspondence and make a full file note of all conversations and copy me in with a copy of the file note in connection with this and my other complaints.

Please explain exactly who has accepted responsibility to investigate my complain re the 31st December 2014 letter to [REMOVED] and the complaint (from my wife) that Dr Reid was out to get me. Please let me have a full response to this within seven days and take this as notice that if I do not receive a satisfactory response within seven days I may apply to the Court for a Judicial Review of how my complaints and in particular this complaint has been handled and will hold you responsible for all costs that I incur.

I'm wondering if you have a contact or know where I can find out the individual UK countries Government Health Expenditure for 2010. I've been trying to break down the UK into its individual countries on this parameter and HM Treasury have send me back to the individual NHS Stats sections of each country. Health Spending may be an interesting observation to place alongside our data. I have accessed UK 2010 Government Health Expenditure per capita (ppp international \$) from the Gapminder website which utilises WHO datasets. In checking through this the United Kingdom is lumped as one country. I would love to have the individual UK country health expenditure spends for 2010 as these four: England, Wales, Scotland and Northern Ireland are ones whose data I have used in my data.

FOI-009760 04/02/2016

On 13th October 2015 my mother-[REMOVED] suffered an accident in her home. She was a member of Life Line run by Halton Borough Council and managed to press her buzzer for their help. Once they had arrived at her home realised that she needed a 999 call and fortunately at that time a Rapid Response Ambulance was in the area and was immediately at her home. Could I possibly have a copy of the report from Rapid Response and Ambulance Crew which attended. The reason for this is that we have had a copy of Life Line report but this does not give me closure on the accident.

FOI-009761 05/02/2016

Please confirm the name and contact details of the body to whom you sent my freedom of information request (the body that holds the records for Eastbourne Hospital) and the date when you forwarded my request and their acknowledgement of receipt.

It has now been over seven months since I made my complaint re Kidney Stone blasting in June 2015 and I have asked, and hereby ask, to be copied in on all correspondence sent and received in connection with all of my and my wife's complaints. I have also asked that a full file note is made of all conversations and that I am sent copies of all these file notes as they occur. So far I have not received one copy showing that you have done anything. I waited 23 weeks and 1 day from the date of diagnosis to the date of first treatment (blasting in Eastbourne), I have given you the name of someone who waited about 10 months.

Re Triaging

Please urgently confirm by return the answer to the questions re my blood pressure medication in particular should I take an extra 80 mg Valsartan next Wednesday? Due to the time difference and travel plans it is essential that I now receive this information by return. Please also confirm that the GGC / Prevent who remain responsible for preventing any further harm happening to me have arranged for me

to be triaged on Friday 12th February and let me have the contact details including email address of where I should go, the time and who I should see.

My Wife [REMOVED] complaint re DVT and suspected pulmonary embolism caused by NHS negligence.

My wife has also received no reply to her requests that medication and an expert are provided for her to be available upon her arrival back in the UK. As you know as a result of NHS negligence she has now got DVT and she has had a possible pulmonary embolism and has a very long flight home. You have not provided details of the material used in the previous temporary repair or who is investigating her complaint and their qualifications. Please provide a full response by return today. You have an experts report which says:-

Recommendation

[REMOVED] should be reviewed by a vascular surgeon upon her arrival back in the UK

Medication

Take 2 x 150mg Pradaxa per day one with breakfast and one with evening meal to be continued until advised to stop by a vascular surgeon in the UK

As you know she arrives back in the UK on 10th February 2016 and her medication will probably not be in stock and need to be ordered. Please ensure that a prescription for the Pradaxa has been sent from her GP Little Ridge Surgery to Laycocks Pharmacy (next door to the surgery) and confirm that the medication will be available for collection by a relative on Monday 8th February 2016.

Freedom of Information request please forward to the correct body

Please take this as a freedom of information request for details of the make and model number and cuff size of the Blood pressure cuff used on my wife for her shoulder operation and the name of the anesthetist and whether he/she still works for Epsom Hospital. Please also confirm the maximum pressure of the cuff and the time period this stays inflated at maximum pressure if it fails to detect properly (for example due to involuntary muscle spasms). Please confirm whether Epsom Hospital and/or Hastings and Rother CCG are aware of any other instances of vein damage due to a blood pressure cuff during an operation and provide copies of all error reports and investigations including both the original error report and investigation into my wife's damage which was reported by my wife before she left hospital and a copy of the new error report into the serious and life threatening damage that this has turned into years later following what we now know was only a temporary repair. She was given no warning that this may be the eventual result of the original negligent damage.

New complaints requiring investigation

Please investigate my claims that I have been repeatedly wilfully neglected by Hastings and Rother CCG (on and after 25th January 2015 and again on and around 21/9/2015) and NHS England (on and after 25th January 2015) and by [REMOVED] GP at the Station Plaza (on and after 31st December 2014) and by [REMOVED] of Little Ridge Surgery (on 17th June 2015) and by [REMOVED] of Little Ridge Surgery (during August 2015) and by Sussex Prevent and all its members in particular [REMOVED] and Sussex Partnership (Cavendish House psychiatrists) (From June 2015 with the wilful neglect by East Sussex County Council Chairman of Prevent and other Prevent members which wilful neglect and harm is continuing).

I also claim and ask to be investigated my complaint that Hastings and Rother CCG and NHS England's complaints procedures and/or the procedure following in my complaints has failed to protect me from harm and has failed to properly investigate my complaints. In particular I believe that NHS England (as the body responsible for both investigating complaints re itself and the body contracted to investigate complaints on behalf of Hastings and Rother CCG continue to fail to properly investigate my complaints in particular those made on 11th January 2016 re triaging for which time was of the essence in that triaging is required to take place on Friday 12th February 2016 (and as a Prevent member has a duty together with all the other Protect members to act to protect me from harm and has failed to do so and that failure has been deliberate and wilful neglect and also that they and other Prevent members have breached the Mental Health Crisis Care Concordat (attached to email sent to [REMOVED] and [REMOVED] and Harold Road Surgery (who I had been wrongly informed were the CCG Caldecott Guardian) on 21st September 2015 at 12:49 of which they are a member) and my complaint sent on 18th January 2016 sent to [REMOVED] and complaints.kmcs@nhs.net (an NHS England complaints email address) and [REMOVED] of Hastings and Rother CCG at 10:32am (Thailand time which is seven hours ahead) and forwarded to Hastings and Rother CCG governing board member [REMOVED] at 22.14.

They have also failed to investigate my complaints sent on 18th January 2016. I have received no reference number for my complaints and have asked to be copied in on all correspondence and that a file note be made of all conversations and that I be copied in on the file note. As I have received no copies of any correspondence I assume that nobody has been instructed to investigate my very serious complaints. Please provide copies of all correspondence and file notes of conversations to date re this and my other complaints and explain who is the investigating officer appointed to investigate my complaints and arrange a meeting between me and the investigating officer for as soon as possible on or after 11th February 2016.

Please provide a reference number for this new complaint and copy me in on all correspondence and make a file note of all conversations and at the time of the

conversation provide me with a copy of the file note. You must not breach my patient confidentiality without my consent.

On a typical Saturday or Bank Holiday approximately how many junior doctors would be expected to be in work?

FOI-009820 11/02/2016

I am curious to know in more detail, the breakdown of the figures released by NHS England regarding the number of junior doctors who went on strike on the 12th January and 10th February 2016.

For the 12th January strike I have seen figures of 39-47.4 % of junior doctors turned up to work used in the media:

-<http://www.theguardian.com/society/2016/jan/13/nearly-half-of-junior-doctors-worked-during-strike-nhs-says> - 47.4% did work, according to NHS England figures

- <http://www.telegraph.co.uk/news/nhs/12149527/Junior-doctors-stage-second-strike-as-last-ditch-talks-fail.html> - 39 per cent during January's walkout.

For the 10th February strike I have seen the figures 40-43% of junior doctors turned up to work used in the media:

- <http://www.bbc.co.uk/news/health-35542911> - NHS England said just over 40% of junior doctors had turned up to work

- <http://www.theguardian.com/society/2016/feb/10/nhs-providers-junior-doctor-contracts-strike> - 43% turning up for work

I am interested knowing what the actual figures are that NHS England has released (for both strike days) regarding:

- 1) the number of junior doctors expected to work on each strike day
- 2) the number of junior doctors that went on strike on each strike day
- 3) the number of junior doctors that were at work on each strike day

FOI-009825 10/02/2016

These questions are for Bruce Keogh/Simon Bennett - whoever fancies answering.

As regards the data upon which the Pagano et al BMJ study published in Sept 2015 is based. From looking back through the HSCIC data requests it appears the data used by the authors came from applications by University of Birmingham (in april to june 2014 - row id 18 - University Hospitals Birmingham - ONS Mortality data - Commissioned by SoS for health

AND

in jan to apr 2015 - row id 003 - University Hospitals Birmingham - HES-ONS linked data - Commissioned by SoS for health data releases can be found here <http://www.hscic.gov.uk/dataregister>)

May I ask Bruce Keogh/Simon Bennett to confirm which applications relate to their BMJ mortality study's data and if it indeed the two cited above?

If their data was from these applications, then it states that these applications were 'commissioned' by the SoS - why was this not mentioned in the BMJ study? The BMJ study mentions nothing about the DH/SoS's involvement in the research including the data application/s.

Is there anything else Bruce Keogh or Simon Bennett would like to add,

FOI-009875 15/02/2016

As regards the data upon which the Pagano et al BMJ study published in Sept 2015 is based. From looking back through the HSCIC data requests it appears the data used by the authors came from applications by University of Birmingham

(in april to june 2014 - row id 18 - University Hospitals Birmingham - ONS Mortality data - Commissioned by SoS for health

AND

in jan to apr 2015 - row id 003 - University Hospitals Birmingham - HES-ONS linked data - Commissioned by SoS for health data releases can be found here <http://www.hscic.gov.uk/dataregister>)

May I ask you to confirm which applications relate to their BMJ mortality study's data and if it indeed the two cited above?

If their data was from these applications, then it states that these applications were 'commissioned' by the SoS - why was this not mentioned in the BMJ study? The BMJ study mentions nothing about the DH/SoS's involvement in the research including the data application/s.

Is there anything else you would like to add, perhaps you would also care to clarify who funded the data request to the HSCIC?

I would like information regarding the oral surgery service for England. It is the team who look after the dental contracts who I am wanting information about

I would be grateful if you are able to provide with the names, the area who commission the service and contact details of the managers who look after the dental contracts in England

Also for each of the these areas, how many oral surgery contracts are in current operations in their area.

How are the performers paid? If they are paid fee per item, how many hold this contract? what is the cost? For example the East Lancashire Blackburn with Darwen Oral Surgery service the fee per item is £120.00. There are five providers on this contract.

If it is Unit of Surgical Activity (USA) how many hold this contract, what is the cost. For Example in Derbyshire: Approximately 12,200 Units of Surgical Dentistry (USAs), equating to approximately 4,060 minor oral surgery cases, are commissioned in Derbyshire. This is for four performer practices.

The right to choose is only applicable for primary care services, provided a patient has not already had treatment from NHS for the same condition?

That being the case, in terms of primary care services for OCD for example we are talking about IAPT provided services? That being the case these points are what I am keen to clarify:

- It states 'you have the legal right to choose which provider and team you're referred to by your GP for your first outpatient appointment'. When it comes to IAPT services, if a patient is referred to IAPT by their GP and they have a telephone assessment (which is what happens) they are then placed on a CBT waiting list which varies in length. Is the telephone assessment classes as the first outpatient appointment or would that be the first CBT session? If the former, at that point can the patient then go back and ask to be referred to another IAPT provider with shorter waiting lists for treatment?
- If a patient chooses treatment with an out-of-area IAPT service, at the end of the IAPT course of treatment (6-10 sessions) they need to be referred up the ladder to secondary care, would they then have to go back to their own local area secondary care service or can they choose to stay out-of-area secondary care service?

Do you fund neuropsychiatric services for Brighton Sussex & Hove NHS Trust (BSUH)?

If you do, can you please inform me what services this should cover? In particular should the Trust be providing psychological support for medically unexplained neurological symptoms such as Non epileptic attack disorder and functional movement disorders as well as support for anatomical neurological conditions?

How much is the annual budget that you send to the Trust for neuropsychiatry?

From what date did you start to fund this service?

By funding BSUH does that mean that Sussex Foundation Partnership Trust will not be funded for such conditions?

Please provide copies of all email and written correspondence between the following NHS England employees – Simon Stevens, Jane Cummings and Jan Fowler - and Southern Health NHS Foundation Trust between 1 November 2015 and 31 January 2016 relating to the Mazars review of deaths of people with mental health and learning disabilities. I have refined my request following your response to my previous request below.

Please provide copies of any NHS England-commissioned review or analysis of the Mazars review's contents.

Please also provide details on the total cost of the 'Winterbourne View – Time for Change' project NHS England commissioned Sir Stephen Bubb to lead. Please also specify how much was paid specifically to Sir Stephen, or ACEVO, for this work.

FOI-009937 17/02/2016

may I ask if NHS England has any data on how many probable, suspected suicides are not being reported via NRLS, or if not, does it have plans to establish how many probable, suspected suicides are not being reported via NRLS?

I see that some trusts have apparently returned data to NHS England that indicated that they had zero, or near zero suicides in recent years, when in fact they had substantially more. Some of these were suicides that were confirmed by inquest.

May I ask if there are any circumstances in which NHS England would consider that proven suicide is not a reportable serious incident requiring investigation?

If NHS England considers that all confirmed suicides should be reported as serious investigations requiring investigation, will it now review why some trusts apparently did not report confirmed suicides in recent years?

NHS England's data shows that some trusts apparently reported more suicides than unexpected deaths in recent years.

Does NHS England categorise all suicides as "unexpected" deaths, or does NHS England consider it permissible in some circumstances to classify some suicides as "expected deaths"?

If NHS England considers that all suicides are unexpected deaths, will it now review why some trusts appear not to have been counted as all suicides as “unexpected” deaths?

Please provide a breakdown of how many suicides in 2013, 2014 and 2015, were reported to have been possibly linked to “work and environmental factors”, featured in the NRLS reporting requirements as follows:

“Apparent contributing factors

....Work and environment factors (poor/ excess administration, physical environment, workload and hours of work, time pressures)”

Please also indicate how many of the suicides reported to NHS England in each of years 2013, 2014, 2015 were inpatient suicides.

Please advise if NHS England holds any central data on whether and how many inpatient suicides in these years were subject to independent investigation, given its guidance that inpatient suicides are more serious incidents that may require independent investigation.

FOI-009938 08/02/2016

1. Under what terms – to all appearances nationally – has Lloyds Pharmacy been accorded a monopoly, with sole dispensing rights to HM prisons?
2. Do those terms, contractual or otherwise, permit Lloyds Pharmacy the power to dispense the more expensive brands of prescribed medications, such as Tamsulosin, when other far cheaper brands, with greater perceived effectiveness, have been requested by the prescribing GP?
3. At a time when the NHS is accruing massive deficits, is the Trust content to allow Lloyds to profit from such a monopoly at a loss to the NHS of £5.95 per single 30-day prescriptions, a disparity annualised, upwards of £72.39?
4. With 1600 inmates at the gaol alone, and a national prison population rising 85,000, has the NHS the means to come even near computing the extent of its financial loss if Lloyds monopoly power to dispense unnecessarily expensive medications passes unchallenged, and is being repeated across the prison estate?

FOI-009940 18/02/2016

I write regarding the following organisations:

A.

NHS England South London Primary Care Support Services

First Floor Cantilever House

Eltham Road

London

SE12 8RN

And

B.

NHS England – London Region

4th Floor Southside

105 Victoria Street

London

SW1E 6QT

It has been claimed (not by NHS England employees, who have to date avoided the issues) that that both of the above organisations form part of NHS England's registration with the Information Commissioners Office (ICO).

While the claims have been made there has however been no substantive evidence forthcoming in response to a number of Freedom of Information Act requests that shows and supports one, other or both of the two offices (A and B) above were, are or have at anytime in fact been notified to, and/or in anyway registered with the ICO.

NHS England's registration (Z2950066) with the ICO provides no information whatsoever about either to the two offices, nor it seems has the registration, or other registration or notification, ever done so.

However if one, other or both of the offices were, are or have at anytime been notified to, an/or in anyway registered with the ICO it won't, or it shouldn't, be difficult to provide certified substantive evidence to support the various claims and information that explains the following;

1. The date(s) when NHS England (NHS Commissioning Board) informed/notified the ICO each of the offices (A and B above) as being, or being part of NHS England's (NHS Commissioning Board) registration with the ICO?

2. As a result of the events that have occurred and or been perpetuated by a number of NHS employees (holders of public office) to date it is equality unfortunate that I expect copies of the substantive evidence to be certified i.e. signed by you, or another senior executive of NHS England's board confirming the veracity of any supporting/substantiating information or documentation.

I look forward to receiving the signed, certified copies of evidence both supporting and substantiating the various unsupported and unsubstantiated claims that have been made to date.

The following Freedom of Information request relates to a limited timeframe, extending from January 1, 2013, to November 30, 2015.

Please provide:

- the number and dates of meetings held by representatives of NHS England with representatives of pharmaceutical company Gilead Sciences in connection with the use and/or pricing of its drug Sofosbuvir (Sovaldi) and its related product Ledipasvir-Sofosbuvir (Harvoni).

- all correspondence, including emails, to and from NHS England and Gilead, and internally within NHS England, regarding these meetings and their outcomes.

- all correspondence, including emails, to and from NHS England and the Clinical Reference sub-Group on hepatitis C in relation to NHS England's request to NICE that implementation of the NICE guidance recommending sofosbuvir be delayed.

- any resignation letters from members of the CRG related to this issue.

- all internal NHS England correspondence, including emails, between Simon Stevens, James Palmer and Richard Jeavons regarding:

- a) NHS England's request that implementation of the NICE guidance recommending sofosbuvir be delayed and;

- b) the position of the Clinical Reference Group on this issue.

- all correspondence, including emails, to and from NHS England and NICE regarding NICE's appraisal of sofosbuvir and harvoni. Please exclude from this request all documents already in the public domain, such as NHS England's submissions to consultations.

I would like to make a request under the Freedom of Information Act 2000 regarding the Glenlyn Medical Centre in Molesey Park Road, East Molesey, Surrey.

If I am contacting the wrong authority please let me know as soon as you are able.

- Can you tell me the number of complaints the surgery has had, per month, from January 1 2012 to January 31 2016.

- And please add a brief summary of the nature of the complaint and what action was taken to remedy it.

FOI-009958 22/02/2016

In the statement attached to its mental health taskforce report earlier this month NHS England stated: "The taskforce suggests, and the NHS accepts, investing over £1bn a year of additional funding in NHS care by 2020/21 to reach one million more people - this investment is in addition to the previously announced new funding for children, young people and perinatal care."

NHS England has indicated it means by this that, by 2020-21, the annual spending by NHS commissioners (NHS England and CCGs) on mental health will have increased by more than £1bn. It is unclear whether the increase of at least £1bn is intended to be in real terms, and what the baseline year is intended to be.

Please provide:

- Information on whether the planned increase is in real terms or cash terms
- Information on what the intended baseline year for the £1bn increase from, is intended to be.
- Spending on mental health services (those intended to be covered by the £1bn category) in 2014-15 by NHS commissioners, broken down between CCGs (total spent by CCGs) and NHS England.
- Expected/Planned spending on mental health services (those intended to be covered by the £1bn category) by NHS commissioners, broken down between CCGs (total spent by CCGs) and NHS England, for each of the years: 2015-16; 2016-17; 2017-18; 2018-19; 2019-20; 2020-21.

I would like to know how many under 18s have been referred for residential treatment for eating disorders in total in Cumbria and the North East between 2010 - 2016?

FOI-009974 22/02/2016

I am writing to you today to request information about how priority is given to people trying to access eating disorder treatment. This is an important aspect in helping people get treatment at the right time and hence why I am looking into the area. The information I am looking for is, at what BMI are people offered outpatient treatment with a specialist eating disorder team within each different mental health trust in

England. I am aware that there is no set rule for this however some trusts have published criteria for entry to treatment such as a BMI below 15. I would be grateful for all the information you could provide.

FOI-009975 22/02/2016

If you're able to give the information for the hospitals that would be great, but if the detail isn't broken down that far then trust will do.

- The number of "never events" at the hospital for each of the last 3 years (up to the end of January 2016) broken down by month
- The name of the consultant / manager in charge at the time of each "never event"
- The consequence of each "never event" to the patient ie did they require further treatment / did they suffer complications or serious illness / death as a result
- The consequence for the consultant / manager in charge at the time, or any other connected staff member

These are the trusts for which we need the information:

“This is a formal request under the Freedom of Information Act for the following information related to the NHS in England over the last 3 years:

Question 1: How many General Practitioner (GP) surgeries are there in England?

Question 2: How many GP surgeries have served notice that they have closed their list to new patients registering ?

Question 3: How many GP surgeries have warned the NHS that they are at risk of closing as businesses?

Question 4: How many GP surgeries have closed in the period and are no longer functioning?.”

Thank you for your e mail seeking to clarify my question 3. I am content for you to interpret my question as seeking both the number of formal early warnings regarding imminent closure of a GP surgery and also as informal discussions around the potential closure of a GPs practice- assuming that such records are kept in the case of informal discussions.

In summary I am happy to clarify that it is both questions which you have identified.

I recently submitted an application to apply for voluntary redundancy and was turned down. Therefore could I please put in a freedom of information request to see the paperwork and scoring for my VR application that went to the panel on February 10th 2016, as I would like to see the scoring and process followed as to why my application was turned down.

I would also like to ask whether the application was considered using my substantive post (comms and engagement lead for Stafford and Surround CCG), or on the interim post I am currently working in (comms and engagement lead for Telford and Wrekin). I need this information as soon as possible as I am considering raising a grievance against the CSU.

An NHS England press release from 23/2/2016 reads:

""In November 2014, Deloitte were invited to a meeting of the NHS England Medical Directorate Senior Management Team (SMT) to update on progress.

The same update was then presented to the senior leadership of NHS England in February 2015, where further information and analysis was requested.

Consequently, on 5 February 2015, University Hospital Birmingham was asked by NHS England to re-run the analysis used in the 2012 paper on 2013/14 data to assess if there was still a weekend effect.

In March 2015, Professor Sir Bruce Keogh was asked to give evidence to the DDRB on the case for improving seven day services, where the top level findings of the latest analysis were shared. A copy of the report can be found [here](#).

From March 2015, high level findings from the latest analysis were also shared by the programme leads with policy colleagues at NHS England, Department of Health, health unions including the British Medical Association, Royal Colleges, Deloitte and the Health Select Committee. "

May I ask the following:

1. May I see the minutes of the November 2015 meeting with Deloitte and the SMT - and who was present.
2. May I see the minutes and correspondence relating to the February 2015 meeting involving the 'senior leadership' of NHS England - and who was present.

I have a small and simple enquiry - that I asked locally 3 weeks ago. It involves one key question and a 2nd that seems a logical follow-on improvement.

After contacting the local Healthwatch Organisation twice and then being referred to the CCG, I have been asked to put the simple question into a "Freedom of Information" process. So be it.

I'm a concerned local citizen. My enquiry concerns the overall ownership of GP practices in Brighton & Hove.

(I'm aware of the group of 5 surgeries run by "The Practice" and of the Walk-In GP service near Brighton Station run by Care UK.)

My two questions:-

1. Can you please let me know the ownership of any GP practices that are not simply partnerships of medical doctors at their own practice (ie that involve "outside" companies or organisations) ?
2. Can you tell me of any reason why this ownership information should not be made clear on the CCG Website detailing local GP Surgeries?

(Before speaking to anyone, I had gone on the CCG Website & found extensive information about B & H GP practices - but found nothing on ownership. Given NHS England's responsibility for GP Services, I assume such a basic addition would need to be organised by yourselves).

Regarding the news of [REMOVED] who has a rare kidney disease and in the need of a drug called Eculizumab. Her specialist [REMOVED] breaks the news that she cannot have Eculizumab after a transplant because the illness does not feature on the NHS England funding list. I understand that her application for funding has been denied in the basis of NHS England A07/P/b Eculizumab for treatment of organ rejection post kidney transplantation, it was stated that Eculizumab will not be funded for the treatment of refractory AMR through routine commissioning and therefore there are no criteria that can be defined which would merit the use of Eculizumab in this setting. However, recently I found out that NHS England decided to grant her funding for the drug.

Therefore, I would like to request information of how she eventually managed to fulfil the criteria in order to receive the funding to get the drug even if there are no such criteria mentioned in previous NHS report?

The minutes of the Maternity Risk Summit for Homerton University Hospital NHS Foundation Trust held on Monday 28th September 2015 (City and Hackney CCG) included the following:

- "1. Welcome to the meeting and introductions Andy Mitchell [Chair] welcomed everyone to the meeting and introductions were made
2. Scene Setting, rationale for the meeting and briefing materials

The Chair outlined the aim of the meeting which was to gain assurance that maternity services delivered by the Homerton (HUHFT) were safe and of high quality and, if so decided, what further actions needed to be taken to provide this assurance.

The context of the discussion was five maternal deaths over a period of 18 months, the recent CQC report and an additional maternity serious incident reported in July 2015 which appeared to raise safety issues for the service.”

As Andy Mitchell is the Regional Medical Director and Responsible Officer on The NHS England London Revalidation Team -

Please provide me with the following information:

1. What was the nature of the “additional maternity serious incident reported in July 2015”?

Please note that I am not requesting for any confidential details - such as names etc. I am simply requesting for the nature of this additional serious incident i.e. maternal death, neonatal death, intrapartum death, etc.

would you be able to search from archives to see if you have any evidence sent by the whalleyrange pharmacy since opening (dec 2006) regarding accreditation documentation for pharmacist working at the branch. What we require is evidence that pct were provided a list of pharmacist accredited to provide all enhanced and advanced services as currently Riaz and Moonier Hinglotwala are claiming in a court statement that they were the only pharmacists accredited to provide any services yet all three other pharmacist had certification and training (myself, sajid must, iqbal kazi) . It is an important piece of evidence to support our court evidence to prove that we had provided proof of accreditation to pct.

Dear [REMOVED]

We would suggest that you contact your local Clinical Commissioning Group (CCG) who will be able to provide you with more detailed information.

We provided the links below believing that they would answer some of your queries, please accept our apologies if this is not the case. We are unable to find any central guidance or toolkit, hence we suggest that you contact your local CCG and Practice Manager for guidance as terms of reference and objectives can vary from practice to practice and geographical areas.

From your postcode we would suggest that you contact the Southend CCG directly, their contact details are as follows:

NHS Southend CCG

Harcourt House

5-15 Harcourt Avenue

Southend on sea

I am writing to request information regarding seven-day services in the NHS – specifically a Deloitte report commissioned by NHS England in 2015 exploring the cost of delivering seven-day services in hospital. I would like access to the final report and modelling work from the 2015 NHS England commission to Deloitte exploring the cost of delivering seven-day services in hospital. I believe this modelling produced an estimated annual net additional cost of £0.9bn (details were leaked by the Guardian) and would like access to the cost data and modelling workings behind

this estimate. In particular, how the total gross cost figure was arrived at as well as details of any potential cost mitigations through partnership working and benefits such as reduced length of stay and reduction admissions and readmissions were taken account of. I would like access to any interim findings, and updates on the research provided either formally or through correspondence between Deloitte, NHS England Seven Day Services Team and DH.

I would also like access to the modelling work done by DH analysts to estimate the staff numbers that the total cost estimate comprises, broken down by broad staff grades and specialty.

Please could you provide me with the following:

- Could you kindly tell me who the data controller is for the Connected Care shared record database (e.g. is it NHS SCWCSU?)
- Could you kindly tell me which GP surgeries, and in which CCGs, are uploading information from their records to CC
- Could you kindly tell me the names of the "6 local authorities" that are extracting and uploading information to CC (presumably social care records)
- Could you kindly tell me whether the presence of any of the read codes 9Nd1, 93C3, 9Nd0, 9Nu0 or 9Nu4 would automatically, and completely, prohibit extraction and uploading of personal confidential information to CC from GP records?

- If so, which read codes?
- Could you kindly tell me whether combined information held in the Connected Care database is being, or is planned to be, used for secondary purposes (such as risk stratification, healthcare planning, research or commissioning)?
- If so, please could you tell me precisely what the effect of the 9Nu0 read code (Type 1 objection) is on any secondary processing of uploaded data by Connected Care, if that objection is present in a non-dissenting patient's GP record

As all NHS Health or Care organisations, or Local Councils and/or Private Health and Care Services subcontractors of the NHS and local Councils, are All legally required to making All Necessary Reasonable Adjustments and Provisions for All Disabled People and/or All Types or Levels of Disabilities.

Namaste Chief Executive Mr Simon Stevens and NHS England Board, Michaela Laxton Case Officer,

Our Question; Therefore should organisation not be legally required as Health and Care Services Providers, or any Public, Private or Third Sector organisation. Similarly have a legal duty to have their own Annual Disability Expenditure Budgets for their organisation, Yes or NO?.

When Reasonable Adjustments is based on two basic premises, these being providing for a Disabled Person or Disabled People or Disability. Is one Reasonable Act to do so practically for the organisation in question, then secondly is Reasonably Affordable on cost grounds for the organisation too.

These are the main two grounds, there are three others see below listed “A” to “E”.

These are two major legal measures or factors, of making All Necessary Reasonable Adjustment and Provisions for All Disabled People, under All UK, EU and UN Disability & Equality Laws.

Therefore if an organisation can publicly show, it is nether unreasonable on practical grounds to make said requested Reasonable Adjustments and Provisions for a Disabled Person and/or Disabled People.

Or it is unreasonable on cost grounds or not financially possible for their organisation, to make said Reasonable Adjustments and Provisions for a Disabled Person and/or Disabled People.

However, they have a legal duty to public state in writing and supported with documentary evidence that can be inspected and tested by others (i.e. a Court), why they claim it is unreasonable to make the necessary said asked for or requested

Reasonable Adjustments and Provisions for a Disabled Person and/or Disabled People.

They have NO Legal Right to just Refuse or just claim it's unreasonable, or have any Legal Excuses NOT to make All Necessary Reasonable Adjustments and Provisions for a Disabled Person and/or Disabled People.

However, the question follows if an organisation does not have an Annual Disability Expenditure Budgets, they can publish yearly or provide any interested party on request. Or to a Court and/or either to an Official Regulating and Inspecting Body, or Government Department and/or Politicians etc.

With any Annual Disability Expenditure Budgets, should be based on a set percentage of the organisation own Net Income, or Gross Profits and/or on its Annual Operating Budget etc.

Or Annual Government Funding Budget if it is a Public Body, or Annual Charitable Donations if it's an Third Sector Organisation.

Then there is a clear point or case in Law here, if an organisation in question has not or is not complying with Disability & Equality Laws fully, by simply not having Annual Disability Expenditure Budgets.

So there is no way of measuring the organisation, willingness or ability to comply with Disability & Equality Laws, or make All necessary Reasonable Adjustments and Provisions either, if they have no financial records of their own Disability Expenditure.

Also they have no grounds to claim the requested for Reasonable Adjustments and Provisions, is not affordable if they basically have NO Annual Disability Expenditure Budgets in the first place, set by their own Senior Management and/or Board of Directors/Governors/Trustee's, or by Regulators and/or Government Ministers etc.

Neither can any organisation try and claim on just financial terms alone, it is financially unreasonable on cost grounds for them to make the necessary and required Reasonable Adjustments and Provisions, for an individual Disabled Person or Disabled People own disability needs and requirements.

Because they as an organisation cannot not show to others or a Court and/or Regulator etc, what reasonable financial provisions they do make annually to provide necessary and required Reasonable Adjustments and Provisions, for an individual Disabled Person or Disabled People own disability needs and requirements.

Secondly the organisation cannot either use the excuse, it is not reasonable on practical grounds to make the necessary and required Reasonable Adjustments and Provisions, for an individual Disabled Person or Disabled People own disability needs and requirements.

As their organisation has NO Annual Disability Expenditure Budgets or records, they cannot show either what if any Disability aids, devices, equipment, facilities, systems and services they have purchased by having no records of these of these said purchases too.

Along with any organisation with a half good Disability & Equality Protocols would have an Annual Disability Expenditure Budgets for their organisation, which would or should cover the costs of researching all possible or Anticipate Needs and Requirements of All Disabled People, they as an organisation have official dealing with and providing accordingly for these Types and Levels of Disabilities too.

So our question is basically very simple, has NHS England an Annual Disability Expenditure Budgets, Yes or NO?.

Also what percentage of NHS England Total Annual Budget, is set aside for Disability Expenditure?, along with who set this percentage figure?.

Similarly why has NO Health and Care Services Providers, seem not to have their own Annual Disability Expenditure Budgets for their own organisation too?.

As NHS England are responsible according to the DoH, for implementation of the New Accessible Information Standard (July 2015) Law. This must or should include setting a Disability Expenditure Budget for all affected Health and Care Services Providers to comply with this new Law too.

To cover all possible costs to comply with both implementation of the New Accessible Information Standard (July 2015) Law, though also other or All Necessary Disability & Equality Laws.

Therefore what are the Annual Disability Expenditure Budgets set by NHS England, for different Health and Care Services Providers, or do you NHS England not set Annual Disability Expenditure Budgets bases on a percentage of income for different Health and Care Services Providers?.

Because actually by NOT having an Annual Disability Expenditure Budget, an organisation is in breach of said Disability & Equality Laws.

See below for more information about Duty to make reasonable adjustments for disabled people.

Some people or organisations like employers, shops, local authorities and schools must take positive steps to remove the barriers you face because of your disability. This is to ensure you receive the same services, as far as this is possible, as someone who's not disabled. The Equality Act 2010 calls this the duty to make reasonable adjustments.

Read this page to find out more about the duty to make reasonable adjustments.

What's meant by the duty to make reasonable adjustments?

The Equality Act 2010 says changes or adjustments should be made to ensure you can access the following things if you're disabled:

education

employment

housing

goods and services like shops, banks, cinemas, hospitals, council offices, leisure centres

associations and private clubs like the Scouts and Guides, private golf clubs and working men clubs.

Should you have to pay for the adjustments?

The Equality Act says you should never be asked to pay for the adjustments.

What's meant by reasonable?

Adjustments only have to be made if it's reasonable to do so. What's a reasonable thing to ask for depends on things like:

"A"; your type and level of disability.

"B"; how practicable the changes are, or what do people or organisations have to do to make them.

"C"; if the changes you ask for would overcome the disadvantage you and other disabled people experience.

"D" how much money and/or resources are available, or the cost of making

"How many surgical operations recorded as having an adverse outcome may be attributed to poor knowledge of anatomy?" I was hoping to get some guidance on

what sort of data might be available, hence the lack of specifics from my initial contact. The MDU have previously classified some claims from adverse outcomes in surgery under "injury to surrounding structures" during the operation (ie, injury to nearby organs), which could suggest a relationship with anatomy, hence my use of this term. By 'safety incidents' I suppose I was meaning patient safety incidents - perhaps 'adverse outcomes' in surgery would be better to use.

I am seeking information as to whether or not UK Law requires "health and care records" must be stored as encrypted data on a given server and if not there any plans for this to be made law in the future?

My question is not be confused when data is transmitted between client browser and host server where data is sent encrypted when using an SSL Certificate.

It's just as a web hosting specialist, I am very concerned that my own "health and care records" are not stored as encrypted data and unfortunately the third party IT service that my GPs practice is using are not prepared to say despite my having lodged complaints with the "Information Commissioner's Office".

I wish to ask a question under the FOIA and in the public interest. My concern is a payment made to Sara Nelson Bromley CCG registered nurse member by Bromley

CCG remuneration Committee when it appears they do not have the legal authorisation to make such a payment.

It states in the Bromley CCG 2014/15 Annual Accounts "page 101" that this committee can award payments to Bromley CCG employees. Sara Nelson is employed by NHS England who pays her salary and not an employee of Bromley CCG.

Because of this wording in the 2014/15 annual accounts my question under the FOIA is this.

Do Bromley CCG remuneration committee have the legal authorisation to award payments to Sara Nelson when she is not employed by them but employed and paid her salary by NHS England?

1. The number of staff on over £200K per annum, their actual salaries (in ascending order) and their job title for 2015
2. How much did the NHS spend on abortions for 2015 (breakdown of the figures by weeks gone/pregnant) and how many were carried out?
3. How much did vasectomies cost the NHS for 2015? How many were performed?
4. How much did the bill for translators cost the NHS in 2015? Also, what were the percentage figures for translators of EU languages vs non-EU languages?
5. The exact procurement costs of buying paper (all varieties) for all NHS trusts in England for 2015 (broken down by Trust and in ascending order if possible)

FOI-010204 14/03/2016

I am an engineering student and am currently pursuing a project in sentiment analysis. Since I require a standard data set to work on, I wanted to put in a request for the patient feedback data that you hold onto.

I assure you that the above data will be used purely for academic purposes and will not be published anywhere.

FOI-010205 15/03/2016

The request is in connection with the safeguarding of (vulnerable) adults.

It seems to me that the definitions of the terms 'negligence', 'neglect' and 'abuse', are not variable, and therefore are not, and should not be, open to different interpretations according to the context. For example, if a carer neglects to ensure that a vulnerable person has enough food and water, intentionally or otherwise, what difference does it make whether the vulnerable person is an adult or a child? How can the definition of neglect, or the interpretation of it, differ? I request your response on this point.

With regard to the second part of the FOI request, my request is for a copy of the document, or relevant extract from it, which confirms or otherwise that all organisations that are responsible to NHS England are required to abide by the same definitions as those that are used by NHS England.

With reference to your statement about a possible Section 12 (time and cost compliance) exemption, please note that a FOI request submitted to the CQC, for exactly the same information, on 18th November 2015, yielded a full response with which I was entirely satisfied.

Finally, with reference to my letter of 18th February 2016, please confirm or otherwise a) that you received the original FOI request dated 18th November 2015 soon after that date, and b) that you issued a response to the request. Furthermore, if a response was issued (presumably, sometime in December 2015), then please provide me with a copy of it as I wish to be in possession of the full facts should a referral of the request to the Information Commissioner's Office prove necessary.

I gather that GP practices who set up a Patient Participation Group could claim an allowance for doing so. I understand that in 2013, this was separate from the GP contract, but has now been incorporated into the contract. What I am trying to find out, is how much my practice got for this in 2013, when it was a stand-alone payment. For instance, I gather a practice in Essex got the sum of 38p per registered patient.

Perhaps you could also tell me, as there seems to be some confusion about it, whether a PPG is now regarded as mandatory for each GP practice.

February 2016 price cap

FOI-010227 18/03/2016

I believe that my wife's Health is being mismanaged and i have made a complaint to NHS England. (My wife is 64)

In order for me to try and assess the route cause of this mismanagement i need information to understand why action regarding her health care has been prevaricated.

Local opinion in my social circle says that the Harbour Medical Practice is better at managing their Finances than their Patients Health.

I would like information (empirical study) to explore this hypothesis rather than accept any anecdotal evidence.

Please provide me with the following information

a) Referral to a Specialist.

There has been a reluctance to refer my wife to a specialist and it is thought that there is a cost to the Harbour Medical Practice for referral which might be better avoided.

This is backed up by the media who report an incentive for Doctors who don't refer.

<http://www.telegraph.co.uk/news/health/news/10504522/GPs-under-pressure-not-to-refer-patients-to-specialists-doctors-warn.html>

Q is this true and if so are the Harbour Medical Practice getting any incentive or reward (i consider cost avoidance is a form of reward) for this none referral.

b) Prescriptive Medicine

There is a reluctance to prescribe medicine and there is a latency between the request for a repeat prescription and the issue of the prescription often affecting continuity and especially if your are going on holiday the Harbour Medical Practice will not issue greater than a months prescription which could leave you without prescribed drugs for weeks.

Q Are the cost of drugs for people younger or older than 64 taken from the Harbour Medical Practice Finances.

And if so do they get an allowance (i'm told £127/annum/patient as an average) to pay for these drugs.

c) Patient Doctor Ratio

My Doctor tells me that he is under resourced and has to rely on Locum Doctors. Appointments can take three weeks and blood tests six weeks.

I am told by the practice that they have 6,500 patients with 1 full time Doctor, 3 part time and 2 locum GPs (i think these 2 locum GP's are not always present or the same 2) Earning are £48,006 average pay before tax and Nat Ins.

Q Is the patient Dr ratio at the highest efficiency level recommended for good service by the NHS. If not then what should that ratio be for the Eastbourne patient demographic where Students which tend to live on the other side of town and Eastbourne The Harbour area is best known for retirement age patients.

Q is the average wage (skewed by the part timers and locums) indicative of managing finances rather than patients help. That is to say is the salary to revenue ratio commensurate with that ratio of other best Medical Practices.

With recent unsourced claims stated as fact without citation being shared online recently, I would like to request information pertaining to the cost of paracetamol and ibuprofen products to the NHS.

Specifically, I would like to request the prices which the NHS pays for paracetamol and ibuprofen products, also including where applicable/available, brand names and total weight/volume (eg: 16 x 500mg tablets/capsules or 200ml).

If possible and able to accomplish in a reasonable amount of time, and also if applicable, please indicate if products are distributed indiscriminate of the patient's eligibility to free NHS prescriptions, or if certain products are limited to those who pay the NHS prescription charge and others to those who are eligible for free prescriptions.

Further, if possible, please also provide by means of percentage or an equivalent means of statistical representation, the amount of GP appointments that result in the prescription of paracetamol or ibuprofen, indicating if possible where the patient was or was not eligible for free NHS prescriptions. Please also indicate if such data available, the prevalence of these prescriptions not being redeemed and again if possible, detailing the difference between patient-chargeable prescriptions and prescriptions where the patient is eligible for free prescriptions.

With a desire to encourage the public to reduce certain unnecessary cost burdens on the NHS, I would also like to request, again where data is available and completable within a reasonable amount of time, the:

- cost of an average 15 minute NHS GP appointment
- cost of the average A&E incident where upon investigation a patient complaint is deemed to not be an emergency

Please find attached FOI request regarding chemosaturation therapy for liver metastases from ocular melanoma.

BACKGROUND

OcuMel UK believes that CtE was first applied for in November 2013. The most recent documents can be found here as part of a public consultation on, what appears to be, baseline/routine funding. In the interim period, it is our understanding that several additional attempts were made to evaluate the procedure for commissioning.

SECTION ONE: The initial assessment (applied for in November 2013)

1. What kind of assessment was this?

(e.g. CtE)

2. On what date was the original assessment started?

3. Where can we find the documentation pertaining to that initial assessment?

(i.e. who was involved, what form the process took, etc.)

4. What was the outcome of that original assessment and where is it published?

5. Who was the lead person responsible for the assessment, what was their job title and from which organisation were they?

SECTION TWO: The interim assessments

1. How many assessments have taken place between that discussed in section one, and the current process, which includes the public consultation ending 30th March 2016?

2. Please give the following details for EACH assessment process that took place between that discussed in section one, and the current process, which includes the public consultation ending 30th March 2016:

a) The start date for each

b) Where we can find the relevant documentation for each

c) The outcome of each and where this is published

d) Who was the lead person responsible for each assessment, what was their job title and from which organisation were they

SECTION THREE: Stakeholder involvement

1. What is the role of a NHSE stakeholder in each type of commissioning assessment?

2. What internal guidance does NHSE give their staff over how stakeholders' involvement should be managed?

(e.g. how they should be communicated with, in what timescales and what information they should be given)

FOI-010232 18/03/2016

- A copy of the complaints regulations issued to NHS England and CCGs by DH, or whoever is the responsible body
- Our internal complaints policy i.e. the policy setting out the steps that should be followed by us when we receive a complaint.

I am trying to find out how many older people currently live in care homes in England.

Is this something that you have information on, and, if so, could you direct me to the relevant data source? (I have already contacted HSCIC and the CQC to no avail.)

FOI-010256 21/03/2016

Please could you kindly complete the attached FOI request on behalf of NHS East and North Hertfordshire CCG? (request is a questionnaire on referral management for CCGs)

FOI-010257 21/03/2016

I have been trying to obtain information from Mid-Essex CCG to assess the impact of their decision to cease issuing prescriptions for Gluten Free food. There is a paucity of substantiated data around this decision and so I made an FOIA request. The response was disappointing other than confirming that they don't possess any relevant data that could inform a proper consultation and decision. For example, they don't even have the number of patients with Coeliac Disease now, let alone for trend analysis, so how does that stack up with commissioning?

I am now following up with NHSE certain questions following a suggestion by the CCG to go through NHSE with a FOIA request. I have attached a file containing these questions extracted from the CCG's FOIA response letter and would be grateful if you could now review these questions.

Would it be possible for you to provide a list of vanguard projects that have been provided a grant from the £200m transformation fund and the amount which each have received please?

FOI-010260 21/03/2016

1. The skeleton argument of my case is attached below, and I would like to enquire how many trans-females, who are legally female, but still physically male, who have been constantly refused clinical recommendations for surgery, are still on the Real Life Test by definition of therapy appt's, and have been seriously let-down by the NHS, after being a patient of the NHS Gender Identity Clinic for 16 yrs ?

2. The purpose of the Gender Identity Clinic is patient-centred treatment for diagnosis, therapy, to administer hormone prescriptions and to make surgical recommendations on a particular patients individual needs. What is the point of

having this service if its recommendations are going to be refused funding, and if CCG's are not obliged to take in to consideration clinical advice when making funding decisions ?

3. In the Harry Benjamin/WPATH criteria for the treatment of trans-gender patients, which the NHS uses as a means of forming policy, it clearly states that not all patients are desirous of the same treatments, yet the NHS only has one core procedure for patients, genital surgery. Surely, refusing other surgeries for those patients who are not desirous of this, and who may consider breasts or facial feminisation as of more importance in day to day functioning, is prejudicing their treatment ?

4. When an individual patient becomes a patient of the Gender Identity Clinic they are told they are entering in to contract with the NHS, they have to fulfil certain obligations for their treatment and recommendations for surgery, but the NHS should also have an obligation to uphold their part of the contract and fund surgery, otherwise it is a fraudulent act ?

FOI-010264 18/03/2016

I read with interest the Interim NHS England Gender Dysphoria Protocol 2013/14. Your contact details were listed for further information, so I was wondering whether you could clarify the meaning of the following sentence in the context of surgery referrals for FTM patients:

"The decision to refer for surgery, and the timing of that decision, will be based upon an assessment of individual clinical need, and be agreed between the patient and clinician. Typically, a referral for this surgery will be around 9-12 months, but no less than 6 months, after the patient's first consultation. A decision to refer for surgery will be based upon individual patient need" (page 18)

I can see two possible interpretations of this:

1) In most cases referrals will be between 6-12 months following first consultation, with the majority being from 9 months; or

2) In most cases referrals will be between 9-12 months from the first consultation. No referrals will be made before 6 months have passed.

On the former reading of the sentence, patient need could require the referral to be after 4 months, albeit that this would be atypical. On the latter, the 6 month timeframe would be an absolute bar to earlier referral, with patient need being a secondary criterion. Which of these meanings was intended?

To this end, please provide copies of the minutes of the working group to enable me to see the context of their discussions and ascertain which of the two interpretations was intended.

I wonder if you could give me some information about dental payments please.

Specifically I would like to know how much a dentist gets paid for the following procedures.

1 Basic checkup covered by band 1

2. Filling covered by band 2

3. Crown covered by band 3

4. Dentures covered by band 3

In addition what would be the total payment to a dentist for 1x checkup, 2x crowns and 1x dentures within the same treatment period ie where the patient pays the total of band 3 approx £220. - Please provide a breakdown. Especially identifying caps for payments made.

I am requesting this information because I am being told that there is a capping on NHS treatment (paraphrase) and that the more work needing to be done in one period the less the dentist gets paid for it. ie it is in the dentist's best interest to spread treatment across multiple treatment periods. eg crown then a few months later another crown then a few months later dentures. Thus the patient pays approx £660 and the dentist gets paid more than he would if it was settled in 1 treatment period with the cost to the patient of approx £220.

Please would you answer the following extra questions, under the Freedom of Information Act Request process, thank you.

Question; How Many NHS Providers, Actually have a Patients Dedicated Type Talk - Minicom - Text Phone Systems, for Deaf-Hearing Impaired and/or Speech/Language Impaired Disabled People?.

That is before the DoH New Accessible Information Standard (July 2015) Law, was introduced?.

Question; Or since this New “AIS” Law have now purchased this kind Disability Assistive Technology System’s (DATS’s), plus have either had new telephone line installed and/or transferred a existing telephone number to be used as a Dedicated Type Talk number?.

For use as a “Fully Time” Patients Dedicated Type Talk - Minicom - Text Phone Systems lines?, plus published (on their own and others official paperwork, websites or produced leaflets etc) and advertise their New Type Talk Patients Number, Publicly to the local community and other Health & Care Providers too?.

Question; Or since this New “AIS” Law have now ordered this kind Disability Assistive Technology System’s (DATS’s), plus have either ordered a new telephone line to be installed and/or arranging for a existing telephone number to be changed for use as a Dedicated Type Talk Number?.

For use as a “Fully Time” Patients Dedicated Type Talk - Minicom - Text Phone Systems lines?, plus are now going to start publishing (on their own and others official paperwork, websites or produced leaflets etc) and advertising their New Type Talk Patients Number, Publicly to the local community and other Health & Care Providers too?.

That is before the Deadline of 31st July 2016, for Fully Compliance for DoH New Accessible Information Standard Laws.

Or does No one in the Department of Health or NHS England have no information on Type Talk – Minicom – Text Phones technology being operated or introduced by Health & Care Providers with regards this new “AIS” Law?.

Question: How many Health and Care Providers, will be Subcontracting out to Third Parties, whether Public, Private or Third Sector Organisations. Their producing All necessary different types of Disabled Alternative Accessible Formats (D2AF’s), for Disabled People usage and Health or Care Providers legal duties?.

Or even out saucing of providing BSL Translation Services, whether in person or via some online BSL translation Services too?.

Question; Or how many will actually be buying Disabled Assistive Technology Systems, to produce their own and All necessary different types of Disabled Alternative Accessible Formats (D2AF’s) for Disabled People?.

Along with have started or will be starting shortly increased the number of Official Staff Sign Language Training Courses, for more of their own Staff Members and Personnel, to become Registered and Qualified BSL translators for their employers too?.

Question; Also will this include any pay increases for trained BSL Staff members too, for the added responsibilities of being a Official BSL Translator for their employer, YES or NO?.

Question; Though if Health and Care Providers, are going to “Contract Out” to Third Parties, their own Disabled Alternative Accessible Format’s (D2AF’s) production requirements, as well as BSL Translation needs, to provide for Disabled People and to comply with this New “AIS” Law too.

Question; Have all these Third Party Subcontractors been selected by Health and Care Providers, YES or NO?.

Question; Or have these Third Party Subcontractors been checked, they are fully capable to provide All Necessary and All Commercially Available Disabled Alternative Accessible Formats (D2AF’s) too, YES or NO?.

Question; Also have these been Third Party Subcontractors, actually been put through a proper Security Vetting Process, in accordance with DoH / NHS Security / Confidential and Personal Medical Information Rules too, YES or NO?.

Question; Or will these Third Party Subcontractors, actually now be going through properly Security Vetted (Too NHS Legal Requirements?) Process, for handling Confidential and Personal Medical Information. That is in time and before the 31st of July Deadline, for this new Accessible Information Standard Law, YES or NO?.

Question; Or does No one in the Department of Health or NHS England, actually have NO idea or information on Disabled Alternative Accessible Formats (D2AF’s) being operated, or introduced by Health & Care Providers with regards this new “AIS” Law, YES or NO?.

Or with regards Third Parties Subcontractors being hired and security vetted as well, to provide Disabled Alternative Accessible Format’s (D2AF’s) Services and/or BSL Translation Services. For Health and Care Providers with regards complying, with this New Accessible Information Standard Law, YES or NO?.

Question; Have and are Health and Care Providers, started issuing Tactile ID Badges, ID Cards or Business Cards etc, to their staff and personnel. To officially indentify themselves to Disabled People as who they say they are, who cannot read standard ID Badges, ID Cards or Business Cards because of their Visual Disabilities, YES or NO?.

Question; Have and are Health and Care Providers, started issuing or introducing any OFFICIAL INDEPENDENT WITNESS procedures or rules for official paperwork, for Disabled People who cannot read standard Health and Care official paperwork, forms and the likes of medical consent authority too, YES or NO?.

If we as just two Disabled People and Disability Rights Campaigners, can keep coming up with more and more questions for NHS England and DOH.

To answer over this New Accessible Information Standard (July 2015) Law, because others are not answering question of Disabled People or Disability Charities it seems, or informing Disabled People over this New "AIS" Law.

Surely MP's must start to realise, there is a growing problems here with another Disability & Equality Law, once again more and more Service Providers are NOT Complying with than actually are complying with again!.

What is the good of more and more Disability & Equality Laws, if Service Providers just don't properly comply with them. Or the UK Government just does not properly monitor and especially enforce Disability & Equality Laws properly, on Service Providers who are just not meeting their own Legal Duties here!.

As it seem the more we and others in the Disabled Community, are counting down the days to 31st of July Fully Compliance deadline, now only 132 Days away (from 21.03.2016)!.

To this New Accessible Information Standard (July 2015) Law, all Health and Care Providers must comply with, also are asking more questions over our real concerns and fears over this too.

The less we are actually getting any official answers to our questions Disabled people and Charities are asking, back from local Health and Care Providers as if they have no real answers?.

We feel within the Disabled Community, it is clear about time MP's should start asking questions of their local Health and Care Providers, local Social Services, Health and Wellbeing Boards or CCG's, let alone NHS England and the Department of Health or Health Ministers on behalf of Disabled People.

What is actually going on, with this New Accessible Information Standard (July 2015) Law, with all Health and care Providers meet or be fully compliant with the 31st of July Deadline, YES or NO?.

If the answer is NO, then what is the Department of Health and NHS England going to do on the 1st of August 2016 or afterwards. About those Health and Care Providers, who have done totally nothing to comply with this New "AIS" Law?.

Or with those who are found to still be guilty of Disabled Discrimination with regards Accessible Information, or complaints are received or made against individual Health & Care Providers, about they are not Complying properly with the New "AIS" Law too?.

All of these questions, Health Ministers, DoH Civil Servants and Senior NHS England Officials should be asked by MP's, on b

"I am writing under the Freedom of Information Act 2000 to request details of breaches of the Data Protection Act within in your organisation; specifically I am asking for:

1a. Approximately how many members of staff do you have?

1b. Approximately how many contractors have routine access to your information?

2a. Do you have an information security incident/event reporting policy/guidance/management document(s) that includes categorisation/classification of such incidents?

2b. Can you provide me with a copy of the latest version of these document(s)? (This can be an email attachment or a link to the document on your publicly facing web site)

3a. Do you know how many data protection incidents your organisation has had since April 2011? (Incidents reported to the Information Commissioners Office (ICO) as a Data Protection Act (DPA) breach)

Answer: Yes, No, Only since (date):

3b. How many breaches occurred for each Financial Year the figures are available for?

Answer FY11-12: FY12-13: FY13-14: FY14-15:

4a. Do you know how many other information security incidents your organisation has had since April 2011? (A breach resulting in the loss of organisational information other than an incident reported to the ICO, eg compromise of sensitive contracts or encryption by malware.)

Answer: Yes, No, Only since (date):

4b. How many incidents occurred for each Financial Year the figures are available for?

Answer FY11-12: FY12-13: FY13-14: FY14-15:

5a. Do you know how many information security events/anomaly your organisation has had since April 2011? (Events where information loss did not occur but resources were assigned to investigate or recover, eg nuisance malware or locating misfiled documents.)

Answer FY11-12: FY12-13: FY13-14: FY14-15:

If the specific answers to 4, 5 and 6 are not readily available, I am content for these questions to be modified/replaced with similar questions that are derived from your organisations categorisation/classification system within the documents requested in question 2. I would need to first make an Fol request for question 2 in order to frame suitable questions 4, 5 and 6, then make a second request. Similarly calendar year can replace financial year. Please state in the reply if this option has been implemented. "

My objective was to establish what is measured and to what granularity. The answer to 4-6 should be driven by the contents of the document in answer to 2b. I am content with your request to change the scope of questions 4-6. Please feel free to answer 4-6 using what measurements and criteria you currently use. If SIRI level is the most convenient to you, please use that.

FOI-010322 27/03/2016

I would be grateful if you can provide the following details:

- timescale for review of London a weighting for NHS staff, in particular:
- date commenced
- target date for completion
- date review will be published
- contact details of who is leading the review

- groups that have been invited to contribute evidence
- what is being done to bring the weighting received by doctors in line with those received by Agenda for Change staff

Please note that as a junior doctor living in London I receive a flat rate of £2162 per year. Agenda for Change (AfC) staff receive a percentage of their salary i.e. those working in inner London receive 20% of their basic salary subject to a minimum amount of £4117 and a maximum amount of £6342. Clearly this is unfair, all staff groups should be treated equally and junior doctors are qualifying with unprecedented levels of debt following changes to student funding over the preceding years.

NHS Employers have also produced the following summary of how living in London but working in the NHS is becoming more and more financially unviable:

<http://www.nhsemployers.org/~media/Employers/Publications/London-life-NHS-workers-infographic.pdf>

<http://www.nhsemployers.org/media-centre/2016/03/nhs-calls-on-london-mayoral-candidates-to-prioritise-housing-and-transport-for-staff>

You might find it helpful to read this:

http://careers.bmj.com/careers/advice/Growing_housing_costs_are_forcing_NHS_staff_to_leave_London

Clearly NHS England must address this as a matter of urgency.

I look forward to receiving answers to all of the above,

Dear [REMOVED]

Thank you for your email asking about the review of London weighting. I do not have the details but believe it will be over the next few months.

Yours sincerely

[REMOVED]

Thanks for your email. Do you happen to know the timescale for review of the London weighting?

Dear [REMOVED]

Thank you for your question submitted at the People's Question Time event on 26 November 2015.

[REMOVED] has asked me to respond on his behalf.

NHS contracts are dealt with at national level and are a matter for the Department of Health and NHS Employers. [REMOVED] has no responsibilities in this area; his only statutory remit is the Health Inequalities Strategy.

I understand that NHS England will be reviewing London weighting and the GLA will support that through provision of economic analysis and demographic data.

Meanwhile, [REMOVED] is supporting Londoners including NHS staff into low cost home ownership thereby helping make London an attractive place to train. Over 52,000 people have been helped onto the housing ladder since 2008 through [REMOVED] 'First Steps' intermediate housing programme. In addition over 95,000 affordable homes have been provided in London since 2008.

Yours sincerely

[REMOVED]

FOI-010323 28/03/2016

- NHS-E's response to FOI-008600 dated 30 Oct 2015 and follow-on e-mail dated 4 Nov 2015. This suggests MH spending by CCGs increased by 3.78% in 2015/16.
- The evidence session of the Commons Health Select Committee on 8 March 2016 (at Qs 143-145). This refers to information on the NHS-E website, presumably this, which suggests MH spending by CCGs increased by 2.38% in 2015/16.
- Hansard from 22 Mar 2016, Col 1367-68, where Minister Alistair Burt states "This year's figures will show that, whereas there has been a 3.7% uplift for CCGs, there has been an uplift of 5.4% in mental health".

Government and NHS England have repeated the statement (in many different places) that CCGs "... must continue to increase investment in mental health services each year at a level which at least matches their overall expenditure/allocation increase". There is an expectation that the parameters should be precisely defined. Such definitions would presumably include whether expenditure in acute trusts outside MH trusts is included, and the treatment of primary care allocations and better care fund allocations, specific mental health programme funding, so-called

“new” funding included in the NHS Mandate, and any other adjustments made to raw data.

Accordingly:

1. Is the statement that “CCGs must continue to increase investment in mental health services each year at a level which at least matches their overall expenditure/allocation increase” a precise and accurate statement of their obligations?
2. How exactly is “investment in MH services” defined? How exactly is “overall expenditure/allocation increase” defined?
3. Have these definitions been agreed as between the Department of Health and NHS-E as being applicable to CCGs obligations?
4. Have these definitions been clearly communicated to CCGs? Have they been included in binding agreements between NHS-E and CCGs?
5. What auditing procedures will be followed to ensure CCG calculations of these figures are in accordance with agreed definitions?
6. What sanctions will be applied to CCGs for both 2015/16 and 2016/17 if they fail to achieve these increases in mental health spending obligations?
7. Will definitive figures in accordance with these definitions for 2014/15 and 2015/16 be published? If so, when? When will projected figures for 2016/17 be published? Would NHS-E be prepared to provide these figures now in response to a FOI request?

FOI-010324 27/03/2016

This is a Freedom of Information request in 2 parts following your response in FOI 008984 and FOI 008994 in year 2015.

In the FOI 008984 you said "NHS England has not considered dermatology related IFRs from either Park End Surgery or Meriden Surgery at the screen or IFR panel stages."

FOI request 1: If you had then please tell me if there is an Authorised Signatory process you have for GP surgery clinics' IFR (Individual Funding Request) Form fillers or IFR correspondence writers to verify to NHS England if their IFR is authentic or not. If there is please tell me who is / are the Authorised Signatories (name and / or position) in IFR from - a. Park End Surgery, Printers Avenue, Watford b. Meriden Surgery, Harvest End, Watford

In the FOI 008994 you said "Given that your request specifies four specific hospitals, we have performed a search for those hospitals and have narrowed this search based upon indicators for dermatology.

Across the four hospitals there have been fewer than 5 referrals and as such NHS England are unable to release the details under section

40(2) (personal information) of the FOI Act, as the information constitutes third party data. Section 40(2) provides that personal data about third parties is exempt information if one of the conditions set out in section 40(3) is satisfied."

FOI request 2: Probably is an Authorised Signatory process for dermatology dept hospital consultants IFR (Individual Funding Request) form fillers or IFR correspondence writers to verify to NHS England if their IFR is authentic or not. Please thus tell me who is / are the dermatology depts Authorised Signatories (name and / or position) in IFR from West HERTS Hospitals NHS Trust and Watford General Hospital, Vicarage Road, Watford, HERTS?

FOI-010325 27/03/2016

This is a freedom of information request following your response in FOI 008994 in year 2015 seen below.

In the FOI 008994 you said "Given that your request specifies four specific hospitals, we have performed a search for those hospitals and have narrowed this search based upon indicators for dermatology.

Across the four hospitals there have been fewer than 5 referrals and as such NHS England are unable to release the details under section

40(2) (personal information) of the FOI Act, as the information constitutes third party data. Section 40(2) provides that personal data about third parties is exempt information if one of the conditions set out in section 40(3) is satisfied."

I request to know based on above quote if there has been NHS England Individual Funding Requests (IFR) specifically from dermatology dept in Watford General Hospital (earlier question was to do with 4 hospitals dermatology depts where this hospital's dermatology dept was included but it is not clear from your response if this hospital's dermatology dept had done any IFRs). I only would like to know qualitative 'yes' or 'no' response from you rather than specific quantitative figures in order to follow section 40(2) (personal information) of the FOI Act.

Please also tell me specific range of the years your database of 11000 records holds.

FOI-010326 29/03/2016

Under the Freedom of Information Act 2000 can you confirm that surgeons have been implanting mesh for anterior repair (cystocele) without certification for the

surgeons who perform the procedure. See link below. If surgeons have been implanting mesh without the appropriate certification for anterior repair is this practice illegal?

Under The Freedom of Information Act 2000 can you confirm that all surgeons have the appropriate certification to carry out any procedures which involve the implantation of mesh medical devices for Stress Urinary Incontinence and Pelvic Organ Prolapse.

FOI-010328 29/03/2016

I'm writing regarding the Bristol Review into cardiac services at Bristol Children's Hospital.

1. Can you please let me know who is on the panel at the moment, and if they are paid. If they are, can you please detail how much and over what period of time?
2. How much has the Review cost to date? Can you please break down the costs into specific areas.
3. How many parents have come forward to date, and for how many children?
4. How many warning letters are being sent out, and who to? If you cannot give their name, please break down the information into professions and from which medical institution ie hospital etc.
5. Will the full publication be available, or will parts of the report be redacted?

My request seeks information on the availability of 'Tier 3' services for the management of severe and complex obesity. In summary, the national clinical commissioning policy on severe and complex obesity states that any patient referred for bariatric surgery must have undergone a local specialist obesity service weight loss programme, known as 'Tier 3'.

I am trying to establish the availability of these Tier 3 services in your area of responsibility.

- How many CCG areas are within your responsibility?
- How many Tier 3 centres do you have?
- Where are they? (A list of specific locations (cities/ towns/ villages))
- Which CCG areas do they serve (list)
- How many are:
 - o In primary care
 - o In secondary care (hospital setting)
 - o Both primary and secondary
 - o Other
- Give examples of "other" settings

Re: Green Lane Surgery, 808 Green Lanes, London N21 2SA

we would like to make an appointment to you under Freedom of Information Act for information relating to whether the Green Lane Surgery had any financial incentives for not sending patients for hospital care referrals.

Our client was seen by different GPs in 2005, 2006 , 2007 and 2008 when she believes she should have been referred for further examination and assessments to be made in respect of her health and was not.

We would like to know whether there was any incentive of any kind for the Green Lanes surgery to reduce referrals to hospitals for any reason from 2005 to 2008 inclusive.

We require information under the Freedom of Information Act relating to the purchase of Misterton Pharmacy, March Lane, DN10 4DL.

Could you inform us as to whether there are any planned movement of GP's or any potential movement of premises at present or in the future.

Are there any pharmacy applications going through at present within a five mile radius?

Has there been any previous pharmacy applications granted or refused within a five mile radius within the last 5 years?

Finally, could you inform us as to which services are commissioned in your area currently and if there are any future ones being considered. We would appreciate a contact name for service provision so we can get this up and running as soon as possible.

which individual GPs are being funded in accordance with the National Health Service (General Medical Services – Premises Costs) (England) Directions 2013.

Or is this something that would need to be requested each time in respect of each individual GP?

Who is responsible for the commissioning of NHS England?

FOI-010356 28/03/2016

I appreciate the fact that GP practices are "independent contractors operating as self-employed individuals or small businesses". However, as part of our "National Health Service", there is evidently a particular responsibility in local health provision that places GP practices in a wholly different position from other individuals or businesses.

There is evidently a strong Patient Interest in overall local GP/Primary Care provision. In Brighton & Hove, this has been highlighted by the closures of the Eaton Place Surgery, the Goodwood Court Medical Centre & the prospective closures of the 5 surgeries run by The Practice Group. The interdependent nature of such services is emphasised and experienced in the transfer of thousands of patients, the effects on GP/Patient ratios and the ongoing current uncertainties.

1. Given the fundamental demands of Primary Care through GP provision, why are any Surgeries set up outside the "NHS Family" ?

(See your FOI response comment referring to the 37 Brighton & Hove practices with GMS Contracts that are "considered to be within the NHS Family").

2. Given the realities of interdependence and the healthy importance of local concern & support, will NHS England take steps to ensure that all providers of GP services are required to include the 4 contractual items (listed in your FOI Response) on their Practice website?
