

AHPs into Action

Using Allied Health Professionals to transform health, care and wellbeing.

#AHPsintoAction

Impact of the effective and efficient use of AHPs for people and populations.

- 1 Improve the health and well-being of individuals and populations.
- 2 Support and provide solutions to general practice and urgent and emergency services to address demand.
- 3 Support integration, addressing historical service boundaries to reduce duplication and fragmentation.
- 4 Deliver evidence based/informed practice to address unexplained variances in service quality and efficiency.

Commitment to the way services are delivered.

- 1 Commitment to the individual.
- 2 Commitment to keep care close to home.
- 3 Commitment to the health and well-being of populations.
- 4 Commitment to care for those who care.

Priorities to meet the challenges of changing care needs.

- 1 AHPs can lead change.
- 2 AHPs skills can be further developed.
- 3 AHPs evaluate, improve and evidence the impact of their contribution.
- 4 AHPs can utilise information & technology.
