1	GMMH Adult Forensic Service should introduce standards which provide a structured evidence based approach to a request for a forensic risk assessment.	The AFS will develop and introduce standards when responding to a request for a forensic risk assessment.	<ul> <li>Standards have been developed for responding to a risk assessment as follows:</li> <li>A structured and single point of contact for all referrals to the AFS is in place.</li> <li>Assessment requests are reviewed within 24 hrs and timescales agreed in line with NHSE standards.</li> <li>Assessments are allocated to competent practitioners – these always include a doctor and a Qualified Nurse with other professionals involved as appropriate.</li> <li>The service will check this has been completed by: Undertaking an audit of completed access assessments.</li> <li>Sharing learning from the audit.</li> </ul>	Dr AH, Dr MS, SC	01/04/2017	Standards are in place for allocating assessments. An audit is being completed – learning will be introduced by the 30/04/17.
6	GMMH Adult Forensic services should review this report and assure themselves that their	An audit of current HCR 20 practice will be carried out across the Adult Forensic	An audit tool has been developed. Audits were carried out throughout February.	Dr JH, Dr KW	01/03/2017	Audit completed and lessons learned shared. Further audit to be

	working practices with respect to HCR20 are robust.	Service. Learning from the audit will be shared across the service. Learning will be monitored through the local quality governance and management forums.	Results of the audit were shared with all Multi Disciplinary Team members. Practice has been reviewed in light of the findings of this audit and an action plan developed. Learning and action plan are being monitored through the service wide leadership team meeting. A further review and audit to establish if learning has been successfully embedded will be carried out in May 2017.			completed in May 2017.	
8	GMMH Adult Forensic services should review this report and consider whether it has implications for their practice in relation to recommending Section 37/41 for patients in this situation.	GMMH will consult with all Responsible Clinicians within the AFS to share learning in relation to this case and specifically when making recommendations under a specific section of the Mental Health Act.	A case review will be carried out with all Consultant Psychiatrists across the AFS. An opportunity for learning will be established through the consultants meetings as a regular agenda item.	Dr AH, Dr MS	01/03/2017	Case review and learning completed.
