

Specialised Burn Care (Adults) Quality Dashboard 2017/18

Indicator Reference Number	Domain	Theme	Measure	Rationale	Name of Indicator/Description	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Interpretation Guidance	Notes	Reporting Periods			
															Q1	Q2	Q3	Q4
BRN03-A	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm.	Clinical Process	Surgical Management		Percentage of adult resuscitation and/or mechanically ventilated burns assessed by a Consultant Burns Surgeon within 12 hours of admission.	Number of adult resuscitation and/or ventilated burns admitted to the specialised burn care service, that have a record of assessment by a Consultant Burns Surgeon (who has at least three fixed clinical sessions per week in burns), within 12 hours of admission.	Number of resuscitation and/or ventilated burns in age group (15% TBSA and/or ventilated) admitted to the specialised burn care service .	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	75% compliance	Higher is better	Adults: 75% compliance with an aspirational target of 95%. Services will need to be able to show progress towards the aspirational target and this should be assessed annually.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN04-A	Domain 4: Ensuring that people have a positive experience of care.	Clinical Process	Adequate Analgesia Given		Percentage of adult inpatients receiving daily pain assessment (using a validated pain assessment tool).	Number of adult inpatients with record of a daily pain assessment for each day of their stay within the Specialised burn care service (using a validated pain assessment tool).	All adult inpatients admitted to the specialised burn care service within the time period.	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	80% compliance	Higher is better	80% for all cases less one day. Outliers and ventilated patients are included in calculation. Days on home leave/off-site excluded.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN07-A	Domain 2: Enhancing quality of life for people with long-term conditions.	Clinical Process	Optimising psychological well-being		Percentage of adult inpatients screened for psychosocial morbidity prior to discharge from burns ward.	Number of inpatients in age group admitted to the burns service who are screened for psychosocial morbidity prior to discharge from burns ward.	All inpatients in age group admitted to the specialised burn care service within the time period.	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	75% compliance	Higher is better	The psycho-social screening can be undertaken by any clinical staff involved in routine clinical care including nurses and therapists. Adults: 75% compliance with an aspirational target of 95%. Services will need to be able to show progress towards the aspirational target and this should be assessed annually.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN08i-A	Domain 2: Enhancing quality of life for people with long-term conditions.	Clinical Process	Optimising functional outcome		Percentage of adult inpatients screened for functional morbidity within 2 working days of admission to the specialised burn service.	Number of inpatients in age group screened for functional morbidity within 2 working days of admission to the specialised burn service.	All inpatients in age group admitted to the specialised burn care service within the time period.	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	80% compliance	Higher is better	Adults: 80% compliance with an aspirational target of 95%. Services will need to be able to show progress towards the aspirational target and this should be assessed annually.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN09-A	Domain 3: Helping people to recover from episodes of ill health or following injury.	Outcome Measure	Patient Safety		Number of inpatients acquiring a blood borne multi-resistant infection.	Number of inpatients (in age group) acquiring a blood borne multi-resistant infection.	N/A	Quarterly	Quarterly	(External Data Source) - IBID	N/A	N/A		Excludes those who arrived with infection. Note: Indicator name changed from proportion of to number of, with count used in the dashboard due to absolute numbers being used, as requested/agreed by the CRG.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN10-A	Domain 5: Treating and caring for people in a safe environment; and protecting them from	Outcome Measure	Mortality Reporting: Adults		Number of adult admissions who died indicated as possibly unexpected deaths.	Number of adult admissions who died indicated as possibly unexpected deaths.	N/A	Quarterly	Quarterly	(External Data Source) - IBID	N/A	N/A		Note: Indicator name changed from proportion of to number of, with count used in the dashboard due to absolute numbers being used, as requested/agreed by the CRG.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18

Specialised Burn Care (Adults) Quality Dashboard 2017/18

Indicator Reference Number	Domain	Theme	Measure	Rationale	Name of Indicator/Description	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Interpretation Guidance	Notes	Reporting Periods			
															Q1	Q2	Q3	Q4
BRN11-A	Domain 5: Treating and caring for people in a safe environment and protecting them from	Outcome Measure	Survival Reporting: Adults		Number of adult admissions who survived calculated as being unexpected.	Number of adult admissions who survived calculated as being unexpected.	N/A	Quarterly	Quarterly	(External Data Source) - IBID	N/A	N/A		Note: Indicator name changed from proportion of to number of, with count used in the dashboard due to absolute numbers being used, as requested/agreed by the CRG.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN12-A	Domain 5: Treating and caring for people in a safe environment and protecting them from	Outcome Measure	Compliance with National Burn Care Referral Guidance (2012)		Number of adults admitted to an inappropriate level of care according to the National Burn Care Referral Guidelines (2012.)	Number of adults admitted to an inappropriate level of care according to the National Burn Care Referral Guidelines (2012.)	All inpatients in age group admitted to the specialised burn care service within the time period.	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	N/A	Lower is better	National Burn Care Referral Guidance (2012) (http://www.specialisedservices.nhs.uk/library/35/National_Burn_Care_Referral_Guidance.pdf).	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN13-A	Domain 5: Treating and caring for people in a safe environment and protecting them from avoidable harm.	Process Measure	IBID Data Completeness		% IBID Minimum dataset completed for adult inpatients.	Number of inpatients in age group admitted to a specialised burn care service who have a complete minimum dataset (as defined in the database software and IBID guidance documents), recorded on the IBID Database within 42 days from the discharge date.	All inpatients in age group admitted to the specialised burn care service within the time period.	Quarterly	Quarterly	(External Data Source) - IBID	(External Data Source) - IBID	N/A	Higher is better	IBID minimum dataset completion is part of service specification. Data collection for burn admissions only and will not include skin loss.	Apr 17 - Jun 17	Jul 17 - Sep 17	Oct 17 - Dec 17	Jan 18 - Mar 18
BRN14-A	Supports domains 1-5.	Process Measure	IBID Data Completeness		% IBID Minimum dataset completed for adult inpatients (cross checked against HES data).	IBID to confirm.	IBID to confirm.	Annual	Annual	(External Data Source) - IBID	(External Data Source) - IBID	85% Compliance	Higher is better	Future metric with date of implementation TBC by IBID. 85% Compliance crosschecking against the HES data - annually. IBID minimum dataset completion is part of service specification. Data collection for burn admissions only and will not include skin loss.				

Data collection has been approved by the Review of Central Returns - ROCR
