

Implementing the NHS Long Term Plan: Public Engagement on Proposals for Possible Changes to Legislation

Quantitative analysis of engagement responses

- This pack is based on all responses to the engagement received through CitizenSpace.
- The final data included 624 responses.
- For each question, responses are broken down by:
 - Overall number of responses by category (Strongly agree, Agree etc.)
 - Responses by category split by respondent type
 - Percent agree/strongly agree by high level respondent group (groupings shown below)
