9 October 2020

Dear Colleagues

Primary care networks Additional Roles Reimbursement Scheme: update To Commissioners

As set out in the 2020/21 Network Contract DES specification, under the Additional Roles Reimbursement Scheme primary care networks (PCNs) are able to recruit up to ten reimbursable roles as they require to support delivery of the DES, with a maximum reimbursable amount for each role. Each PCN is entitled to an Additional Roles Reimbursement Sum, which will be based upon the PCN's weighted population share.

Ed Waller's letter of 3 March advised that £257 million of the £430 million available to PCNs in 2020/21 has been included in CCGs' Primary Medical Allocations. The amounts allocated to each CCG are included at Annex A. £173 million of the £430 million was not added to Primary Medical Allocations and has been held centrally by NHS England and NHS Improvement.

Once the PCNs in a CCG area have claimed the total of the CCG's allocated share of the £257 million - and ongoing claims will cause the CCG to exceed this amount, a CCG can access additional funding based on need from the additional funding held centrally for that purpose. The maximum additional amounts available and maximum total available to each CCG are included at Annex A.

To claim additional funding, a CCG must provide its region with evidence that total claims from PCNs now exceed the CCG's original share. This evidence should include a breakdown of what each PCN has claimed to date and is planning to claim for the remainder of the year each month through providing the month-by-month aggregated number by PCN of the full-time equivalents (FTEs) engaged by the PCN for each role type recruited (either through employing an individual or via a subcontracting arrangement for the service) and the associated costs by role and month.

In exceptional circumstances – and only with agreement with (or request by) the region in advance – the CCG should provide copies of completed claim forms for the PCN for the year (which must be suitably redacted, so no identifiable information is provided).

The CCG must also provide confirmation that its ledger matches the above. It is expected that CCGs will use the coding prescribed on page 42 of the Network Contracted Directed Enhanced Service 20/21 guidance.¹

Regional directors of primary care and public health and directors of commissioning finance will be required to approve any CCG requests to drawn down additional allocations. If claim forms are not provided directly by the CCG in support of its additional funding request, regional teams may request this information in order to verify the evidence provided. Approved additional funding requests can then be submitted to the Finance Planning and Delivery team for processing in the normal way.

For any policy-related queries on the process, please contact england.gpcontracts@nhs.net and for finance processing queries, please contact england.pcfinancegroup@nhs.net

Yours faithfully

Robert Kettell

Deputy Director, Primary Care Network Strategy and Contract NHS England and NHS Improvement
