

Our nursing and midwifery people

Natali Edwards - Home Manager, The Rosary Nursing Home, Bridgwater, Sanctuary Care

On a typical day

There is no typical day in the home but the most important part of my day is making sure the residents are happy.

One way I've made a difference as a nurse or midwife

I try to make sure every day is special for the residents and their families but ultimately it is about the team working together to make their lives better.

What would you say to someone considering a career in nursing or midwifery?

Nursing is the most rewarding job in the world. Days can be difficult as well as physically and emotionally draining, but I can't think of a better way to spend my working life.

I love everything about being a nurse but particularly getting to know the residents and learning about their lives and history, they have such great stories to share.
