- Specialised Cancer Surgery CRG
- Society of Cardiothoracic Surgery in GB and Ireland

**Explain reason if there is any difference from previous question**

**Identify any particular stakeholder organisations that may be key to the policy development that you have approached that have yet to be** None.
| engaged. Indicate why?                                                                                     | Policy working group meeting and subsequent contact for policy development.  
|                                                                                                           | Stakeholder engagement process. 14 day email engagement exercise with registered stakeholders. |
| How have stakeholders been involved? What engagement methods have been used?       | Some wording to the policy proposition has been amended to incorporate another Quality of Life measure and to incorporate “smoking cessation” as an intervention and the proposal now includes a reference to pulmonary rehabilitation.  
|                                                                                                           | The PWG noted that not all clinicians agreed with the criteria for selection but it does reflect clinical consensus. |
| What has happened or changed as a result of their input?                                              | Stakeholders will be kept informed of the policy’s progress through NHS England’s consultation portal website.  
|                                                                                                           | Stakeholders who sent in comments have had an email response. |
| How are stakeholders being kept informed of progress with policy development as a result of their input? | 4 weeks. |
