CCG annual assessment 2019/20

Introduction

1. NHS England has a statutory duty to undertake an assessment of clinical commissioning groups (CCGs) on an annual basis. The 2019/20 assessment was conducted under the auspices of the NHS Oversight Framework. Each CCG's performance was assessed against the indicators listed in the Framework issued in August 2019. Details can be found in Annex A.

Annual performance assessment of CCGs 2019/20

2. Assessments have been derived using an algorithmic approach described in the accompanying methodology manual.
3. Each CCG has received an overall assessment that places their performance in one of four categories: outstanding, good, requires improvement, or inadequate.
4. From 1 April 2019, two new CCGs were established through mergers of six existing CCGs, giving a total of 191 CCGs in England in 2019/20. More recently, in April 2020 a further 74 CCGs were involved in mergers, creating 18 new CCGs. This brings the total number of CCGs in 2020/21 to 135, a 29% reduction when compared to 2019/20.
5. The assessment ratings for each CCG are given in this report. The table below shows the number of CCGs receiving each rating in 2019/20 compared to 2018/19:

	2018/19	2019/20
Outstanding	24	22
Good	102	104
Requires improvement	58	56
Inadequate	11	9
TOTAL*	195	191

*In April 2019, six CCGs merged to form two CCGs; hence a net reduction of four.
