Code	Metric	Numerator	Denominator	Period Type	Frequency	Data Source Numerator	Data Source Denominator	Target	Notes	Q1	Q2	Q3	Q4
DIAL_01	Peritonitis rate in patients receiving peritoneal dialysis (PD)	Number of episodes of peritonitis in PD patients (an effluent cell count with white blood cells (WBC) >100/mL (after a dwell time of st 2 hr), with at least 50% polymorphonuclear neutrophilic cells, with peritonitis being the most likely cause) occurring during the quarter	Number of patient days on PD	Rolling annual	Quarterly	UKRR	UKRR		Peritonitis rate is per 1000 patient days on peritoneal dialysis  1. Peritonitis defined as: an effluent cell count with white blood cells (WBC) >100/mL (after a dwell time of st 2 hr), with at least 50% polymorphonuclear neutrophilic cells, with peritonitis being the most likely cause  2. Excludes episodes where another cause  3. Excludes relapsing peritonitis (infection with SAME organism) which should be counted as a single episode	Jul-21 - Jun-22	Oct-21 - Sep-22	Jan-22 - Dec-22	Apr-22 - Mar-23
DIAL_03	Rate of staph aureus bacteraemia in patients treated with chronic haemodialysis	Number of episodes of staph aureus bacteraemia occurring in chronic haemodialysis patients	Number of patient days on HD	Rolling annual	Quarterly	UKRR	UKRR		Rate of Staph Aureus bacteraemia per 1000 patient days on haemodialysis  Numerator: 1. Counts episodes of staph aureus bacteraemia in the year but excludes repeat positive blood cultures within 14 days of the index episode 2. Number of episodes of staph aureus bacteraemia = a person from whose blood staphylococcus aureus has been isolated and reported by a diagnostic microbiology laboratory in the absence of a positive blood culture with the same organism in the previous two weeks  Denominator: calculated as the total number of patient days spent on haemodialysis, whether acute or chronic. e.g. 1 patient on HD for whole year = 365 days	Jul-21 - Jun-22	Oct-21 - Sep-22	Jan-22 - Dec-22	Apr-22 - Mar-23
DIAL_04	Access to transplant listing	For patients in denominator the number who had a decision recorded about suitability for transplant work up recorded at the time of starting chronic dialysis	Number of patient starting dialysis who have been seen by the renal unit 90 or more days before the start of chronic dialysis	Quarter	Quarterly	UKRR	UKRR			Apr-22 - Jun-22	Jul-22 - Sep-22	Oct-22 - Dec-22	Jan-23 - Mar-23
DIAL_05	Percentage of renal patients receiving treatment with end stage kidney disease (dialysis and transplant) registered on the national patient view system	Number of renal patients receiving treatment with end stage kidney disease (dialysis and transplant) registered on the patient view system	Number of renal patients receiving treatment with end stage kidney disease (dialysis and transplant)	Quarter	Quarterly	UKRR	UKRR			Apr-22 - Jun-22	Jul-22 - Sep-22	Oct-22 - Dec-22	Jan-23 - Mar-23
