

Annex B

Support and leadership function by NHS England regional professional standards teams

This template sets out the information and metrics that NHS England regional professional standards teams are expected to report to the Professional Standards Assurance Committee (PSAC), to assure their leadership and support function in the delivery of professional standards. Its content is subject to periodic updates, so it is advisable to review the [current version on our website](#) before completion.

Section A – Network events undertaken (to include number of events, in-person/virtual, numbers attending, topics covered)

Action from last year:	
Comments:	
Action for next year:	

Section B – Quality assurance and improvement information from designated bodies (review of QA of level 1 board reports)

Action from last year:	
Comments:	
Action for next year:	

Section C – Independent verification processes (review of processes for identifying designated bodies where a quality review visit will add value and outcomes of these)

Action from last year:	
------------------------	--

Comments:	
Action for next year:	

Section D – Other ad-hoc support and leadership activities (review of processes to provide ad-hoc support and leadership to connected responsible officers)
